

**CITY OF HOLLYWOOD, FLORIDA
DEPARTMENT OF DEVELOPMENT SERVICES
PLANNING DIVISION**

DATE: September 14, 2017 **FILE:** 15-A-68
TO: Planning and Development Board
VIA: Leslie A. Del Monte, Planning Manager 
FROM: Deandrea Moise, Associate Planner 
SUBJECT: Simbron Group, LLC requests a Variance to decrease the required lot width from 60 feet to 56 feet for a Single Family District (RS-6) zoned property located at 6958 Park Street.

REQUEST:

Variance to decrease the required lot width from 60 feet to 56 feet.

RECOMMENDATION:

Variance: Approval, with the condition for a Unity of Title or Unity of Control, in a form acceptable to the City Attorney, be submitted prior to the issuance of permits and recorded in the Broward County Public Records, by the City of Hollywood, prior to the issuance of a Certificate of Occupancy (C/O) or Certificate of Completion (C/C).

REQUEST

Section 4.1 of the City of Hollywood Zoning and Land Development Regulations, establishes lot widths for single family districts, which must be a minimum of 60 feet wide. Development patterns through the years have resulted in a residual lot which by Section 4.1 is non-conforming and therefore requires a variance. The code allows for such request to be approved through an Administrative Variance.

Following the regulations as outlined in the Zoning and Land Development Regulations, Simbron Group, LLC applied for an Administrative Variance to decrease the required lot width from 60 feet to 56 feet. Article 5.4 of the City of Hollywood Zoning and Land Development Regulations states that adjacent property owners shall be notified of the application, and have the right to protest such request in writing within ten calendar days of the mailing of such notice. The protest letter shall state the reasons and justification for the protest. Any protest received in response to such notice within ten calendar days of the date of mailing shall prohibit any administrative approval pursuant to this section. Due to protest letters received, the Applicant is requesting a regulatory Variance to be considered by the Board to decrease the lot width.

The request is compatible with the surrounding land use and community as a single-family home is the intended development for the property. Although the Applicant requests a reduction, the lot still meets the minimum lot size requirements and is subject to current setback requirements as outlined in the regulations. Furthermore, without this variance the lot will remain vacant and undevelopable, without consolidation of additional land.

SITE INFORMATION

Owner/Applicant: Simbron Group, LLC
Address/Location: 6958 Park Street
Net Size of Property: 6000 sq. ft.
Land Use: Low Residential (LRES)
Zoning: Single-Family District (RS-6)
Existing Use of Land: Vacant

ADJACENT LAND USE

North: Single-Family District (RS-6)
South: Single-Family District (RS-6)
East: Single-Family District (RS-6)
West: Single-Family District (RS-6)

ADJACENT ZONING

South: Low Residential (LRES)
East: Low Residential (LRES)
West: Low Residential (LRES)

CONSISTENCY WITH THE COMPREHENSIVE PLAN

Located within the Low Residential land use, the subject site is surrounded by residential properties. The goal of the Land Use Element is to *promote a distribution of land uses that will enhance and improve the residential, business, resort, and natural communities while allowing land owners to maximize the use of their property.*

Objective 3: *To revitalize and encourage re-investment in older neighborhoods in which housing conditions are in a state of decline.*

CONSISTENCY WITH THE CITY-WIDE MASTER PLAN:

Sub-Area 8 is the western-most part of the City. The sub-area, West Hollywood, is geographically defined by the Davie Road Extension and 72nd Avenue to the west, Stirling Road to the north, Florida's Turnpike to the east and Hollywood Boulevard to the south. This area includes the residential neighborhoods of Boulevard Heights and Driftwood and is adjacent to the Seminole Indian Reservation. The proposed project is consistent with the City-Wide Master Plan, based upon the following Guiding Principles and Policies.

Guiding Principle: *Promote the highest and best use of land in each sector of the City without compromising the goals of the surrounding community.*

Policy CW.15: *Place a priority on protecting, preserving and enhancing residential neighborhoods.*

APPLICABLE CRITERIA

Analysis of Criteria and Findings for Variance as stated in the City of Hollywood's Zoning and Land Development Regulations Article 5.

VARIANCE: To decrease the required lot width from 60 feet to 56 feet.

CRITERIA 1: That the requested Variance maintains the basic intent and purpose of the subject regulations particularly as it affects the stability and appearance of the City.

ANALYSIS: The proposed variance maintains the basic intent of the regulations. Despite the variance, the Applicant will be required to meet the setback regulations as outlined in the Zoning and Land Development regulations, thus minimizing the effects of any impacts to the stability and appearance of the City. Although the Applicant requests a reduction in lot width, the lot still meets the minimum lot size requirements.

FINDING: Consistent.

CRITERIA 2: That the requested Variance is otherwise compatible with the surrounding land uses and would not be detrimental to the community.

ANALYSIS: The request to reduce the lot width is compatible with the surrounding land use and community as a single- family home is the intended development. Furthermore, without this variance the lot will sit vacant which may affect property values in various ways. Because the subject property is made up of portions of two lots staff recommends the condition for a **Unity of Title or Unity of Control, in a form acceptable to the City Attorney, be submitted prior to the issuance of permits and recorded in the Broward County Public Records, by the City of Hollywood, prior to the issuance of a Certificate of Occupancy (C/O) or Certificate of Completion (C/C).**

FINDING: Consistent.

CRITERIA 3: That the requested Variance is consistent with and in furtherance of the Goals, Objectives and Policies of the adopted Comprehensive Plan, as amended from time to time, the applicable Neighborhood Plan and all other similar plans adopted by the City.

ANALYSIS: It is the purpose of the Comprehensive Plan and City Wide Master Plan to encourage re-investment, protect and enhance residential neighborhoods. Without this variance the lot will remain vacant, unable to allow development on the site, which would discourage the purpose of the adopted plans.

FINDING: Consistent.

CRITERIA 4: That the need for requested Variance is not economically based or self-imposed.

ANALYSIS: This variance is requested as means to allow further development of the site in line with the regulations. Therefore the request is not economically based or self-imposed.

FINDING: Consistent.

CRITERIA 5: That the Variance is necessary to comply with State or Federal Law and is the minimum Variance necessary to comply with the applicable law.

FINDING: Not applicable.

VARIANCE CRITERIA STATEMENT 6958 PARK STREET – NON-CONFORMING LOT July 6, 2017

- A. That the requested Variance maintains the basic intent and purpose of the subject regulations, particularly as it affects the stability and appearance of the City:

The Requested Variance of 3.39' in the width of the frontage of the Lot still maintains the Basic intent and purpose of the subject regulations by providing the minimum 6,000 Sq. Ft. Lot Area and by still being able to comfortably place a new Single-Family Residence on the Lot and yet be in compliance with all of the required setbacks.

- B. That the requested Variance is otherwise compatible with the surrounding land uses and would not be detrimental to the Community:

The Requested Variance would be compatible with the surrounding land uses by providing all of the required setbacks within the subject Property and yet be in compliance with the Zoning Code. In addition, the side setbacks of the abutting homes to the west and east of the subject Property are 10.0' and 30.0'+/- respectively, providing sufficient distances between building structures.

- C. That the requested Variance is consistent with and in furtherance of the Goals, Objectives and Policies of the adopted Comprehensive Plan, as amended from time to time, the applicable Neighborhood Plan and all other similar plans adopted by the City:

The requested Lot Width Variance is consistent with and in furtherance of the goals and objectives of the adopted City's Comprehensive Plan. The proposed lot's slightly smaller frontage of 56.61' (instead of 60.0') would definitely fit contextually within the neighborhood.

- D. That the need for the requested Variance is not economically based or self-imposed.

The Frontage Width Variance being requested on the 6958 Park Street Lot is not the only Lot in the neighborhood that is non-conforming to the Zoning Standards. The Lot to the east on 6886 Park Street (Folio #54111060405) contains a house on a Lot with 5,459 Sq. Ft. with a lot frontage of 51.5'. Our Subject Lot is 6,000 Sq. Ft. with a small deficiency in the required width of the Lot 56.61.

- E. That the Variance is necessary to comply with State or Federal Law and is the minimum Variance Necessary to comply with the applicable law.

The subject Property is in compliance with the minimum lot area of 6,000 Sq. Ft. in accordance with the Hollywood Zoning Code. The minimum Variance necessary is the 3.39' in the required frontage of the Lot from 60.0' to 56.61'.

PROTEST

To whom it may concern,

I am writing in Protest of the below.

Petitioner: Simbron Group, LLC
Petition #: 15-A-68
Property Location: 6958 Park Street
Code Section: Article 4.1(B)

The reason for my protest is the possibility of decrease in surrounding property values. By allowing the lot size to decrease would hinder the properties around in value. The property being on a smaller lot would consist of smaller floor plan meaning smaller/less value home. The neighborhood is starting to increase in price due to recent purchases and renovations and allowing such building would disrupt the growth of the community.

If you have any further questions, please feel free to contact me

Sincerely,

Katie Hargreaves
