We think this is a great project

and will be a nice addition to the city's recreation offerings.

Our company, PumpTrax USA and Tom Ritz Designs (formerly EliteTrax) is one of the premier bike park, pump track and BMX race track builder in the world.

We have built many BMX race tracks in Florida, including the World Cup hosting BMX racing facility in Sarasota and Okeeheelee BMX on West Palm Beach. We have also built the new bike park in the Bexley Housing Community in Land O'Lakes, which is very similar to your Adventure Park.

We have also built the 2008, 2012, and 2016 Olympic BMX tracks (EliteTrax). Our dirt shaping experience is known world wide and professional.

As the Adventure Park moves forward, please keep us in mind for all of your design and construction needs. We are in Florida all the time and we are available for a site visit or meetings.

Good morning to you all,

My name is Sandra Young and I am a resident of Hollywood. I reside directly behind the Sunset Golf Course. I have not been able to make it to the many South Central meeting and have not been able to make my voice heard on the topic of the possibility of an extreme sports park in place of Sunset Course.

I think this would be a great idea and fully support it. I look forward to make use of that open space and I like the plans submitted by the Degidio family. Ultimately, I'd rather having an adventures park (in whichever form this might take) rather than leaving the space open for the next developer to submit a project for apartment buildings. I feel that many of my neighbors are not seeing the big picture.

I really hope this project goes through.

Sandra Young

Hello,

Allow me to introduce myself:

my name is Giovanni D'Egidio,

and I am the open space developer looking to rebuild Sunset Golf into Hollywood Adventures Park. I have been reaching out to my neighbors around the facility and local service groups in the City of Hollywood.

Receiving valuable input and addressing concerns has been on my agenda. Some of the neighbors concerns were green space, traffic noise and lighting. These issues will be addressed.

I have completed the PACO process and now I am working on the preliminary TAC review.

It is my hope that I may set up a meeting with you to address further concerns and get your opinion on this project. I am interested in addressing any potential challenges of concerns and would like to include this in my site plans.

I will be in Hollywood soon, May 2nd through the 5th. I would like the opportunity to meet during those days, hopefully that works with your schedule. Please let me know so that we can set up a time to meet. You can also go to playhap.com to see our progress. My cell phone is 626-429-4871, you are welc

HOLLYWOOD ADVENTURES PARK

City of Hollywood Resident Days

City of Hollywood 2 resident days celebrating our first responders, 4th of July and Joseph Young. Hollywood Adventures Park will work with both the City and local civic groups to promote these specific days for all residents of Hollywood, FL who will be able to participate for only \$1 admission.

\$1 Admission for Hollywood Adventures Park Neighbors

Anybody that lives within 900 feet of the Hollywood Adventures Park property line, who is a current Hollywood, FL resident will get \$1.00 admission with proof of current residence.

Half Price for Hollywood, FL Residents

Anybody living more than 900 feet from Hollywood Adventures Park property line will get 50% off admissions at Hollywood Adventures Park with proof of Hollywood, FL residency.

2727 Johnson St. · Hollywood, FL

OUR COMMITMENT TO E COMIMIONILLY

Summer Camp Special

Summer camp special for all residents of Hollywood FL will receive 50% off weekly admission.

Supporting Local Charity Programs

Hollywood Adventures Park will work with local charity programs and will choose 3 charities, if they have a program for family hardship or a children at risk food drive we will work together with them to raise funds, food and awareness. We will also let them use park activities with an admission tickets program.

Miracle at Hollywood Adventures Park

Each year, on the 1st Sunday in December Hollywood Adventures Park will host up to 1,000 children throughout the day for holiday cheer and play at the park and Christmas giff food basket. Schools, civic groups, police and fire staff will distribute up to 1000 entrance bracelets for families in need in the Hollywood, FL community.

844-942-7427 • playhap.com

Supporting Service Organizations

Hollywood Adventures Park will work with 4 service organizations such as local Rotary, Kiwanis, Lions etc who will receive family picnic and play for up to 100 guests once per year at no cost in order to fundraise for their organizations. They will receive a Baja picnic buffet & admission bracelet to activity of their choice and Hollywood Adventures Park will organize their picnic area as well as low impact activities consisting of of bocce, horseshoe, tug-o-war, cornhole, ping pong, etc. A fundraiser value of \$80 per person (additional people \$42 per person).

Subject: FW: Citizens concerns over War-Game extreme venue

From: Ana Amada Ferrer [mailto:anaferrer007@gmail.com]

Sent: Tuesday, March 14, 2017 8:59 PM

To: Josh Levy; Traci Callari; Debra Case; Peter Hernandez; Richard Blattner; Linda Sherwood; Kevin Biederman

Subject: Citizens concerns over War-Game extreme venue

Mr. D'Egidio, (of the new Sunset development) invited us to give input but what he really did, is have us critique his plan so that he can go to the City and tell them that it's our plan.

We are not fooled. THIS IS NOT WHAT WE WANT.

It doesn't matter what fancy brochure and layouts he may put out, just look at what he created in Hollywood, California (see link below).

http://www.hollywoodsports.com/?keyword=paintball%20parks%20los%20angeles&gclid=CLuUm8yI19ICFcW4wAodrcgGHA

It is to create a war zone and destroy Sunset's beautiful natural habitat that we have.

We CAN NOT welcome his business model into our City. If it includes paintball, Airsoft which is a recreational activity in which participants eliminate opponents by hitting each other with spherical non-metallic pellets launched via **replica firearms.** This can never happen, we have enough violence.

He "paints" his business as child friendly. When it is really unregulated, addictive pseudo-war-game extreme "sport" that encourages gun violence and vandalism.

He said his going to fence out vandals. We don't want the vandalism and property deterioration that comes to communities near sports venues.

He said that our property values will increase because when people see celebrities going and coming in limousines folks will want to live here. We will never approve of a paintball Airsoft war-fare facility no matter how many celebrities come and go in fancy cars and brochures.

He talked about how much his plan will add to the City's tax base. He is not adding much to the tax base. He is not the owner. The owner pays \$18,000 a year. His project will add another \$18,000, if that, and most of it will go to the County.

In exchange for a few more tax dollars, we get extreme sports injuries and an increase in crime. This war-zone presence will become a burden on the residents because we will be subsidizing his profits.

This business model doesn't belong here because paintball Airsoft (war-game extreme "sport") is not compatible with the character of our community. He would know that if you lived here.

We will demonstrate and fight this proposal to put this horrific plan in our beautiful community.

We are appealing to you our mayor and commissioners to prevent this venue from coming and destroying our community.

Please take a look at what they created in California.

I took a run up to Wakodahatchee Wetlands, Delray Beach, yesterday. What a great concept! Restoring & preserving the precious green space Sunset Sunset offers will enhance the city's appeal to outsiders. After walking the preserve, we went downtown Delray for a nice lunch.

Thank you for your attention & support.

Subject: Re: Hollywood adventure park w/ attachment

Mr. Johnston,

We have been given a courtesy copy of the email you sent to the Civic Associations on Thursday. You are being conned.

Giovanni D'Egidio (or Giovani) did not buy Sunset Golf Course. He owns nothing at 2727 Johnson Street. His claim to have invested five million dollars is a fabrication that he has put forward in verbal threats to sue the City. He has no standing to sue anyone.

If you did just a little research you would know that there is no entity named "Hollywood Adventures Park". What we did find, so far, is that Giovanni D'Egidio is not the owner, partner, director or manager of any sports park (or any business enterprise of any kind) anywhere in the country.

His claim that we won't meet with him is a fabrication. The residents have met with him several times and have let him know that we don't want a paintball facility in the middle of our neighborhood. His claim that he doesn't know what we want is also unfounded. He came to us with an annotated copy of a presentation (attached) that the residents gave to the City in 2015, so he knew up front that it would not be paintball.

If he has any entitlements, he will be given due process by the City.

Karen Caputo

Subject: Friends of Hollywood

Dear all, it has come to my attention that the Friends of Hollywood private company has been using its influence over Civic associations to do its private business. 2631 Garfield street in Hollywood is the place of Business. it has no city tax lic or registered with the city. Further more the Group is also the board of directors of North central Civic association and one member Cliff Germano is also the head Hollywood Council of civic associations. the Members of Friends of Hollywood inc have used civic non profits to meet the agenda of the boards privately owned business. Last week signs showing support for Hollywood adventure park had been removed from private property. the code enforcement officer stated they can not be on the fence, or up for more then 10 days. she gave it back to us after we spoke with her, it was in the back of her truck. when we asked her regarding the oppositions sign of save the golf course, she replied "yes technically they are illegal as well" the signs have been up for 3 years. she further stated its because the group is also the central civic association. It is my feeling the city workers/staff are being used either by intimidation or other means to do the bidding of a small group, as it has become evident in the last few weeks. many residents surrounding the former sunset golf course have shown support for the new project but yet this small group has used its influence to take away what the residents want to see happen at the park as well used its influence to disrupt the rights of the current owners.

Karen Caputo, Patricia Antrican, And Lynn smith are also members/Owners of friends of Hollywood which these 3 have been the most active in disrupting the community and other organizations to get what they want for them selves. the group does not represent the residents. in fact the group runs contrary to what the residents want.

I recently sat in on a board meeting for the north central civic association regarding the Hollywood adventure park and the board consisted of the friends of Hollywood Owners and members, they have used the position to deny resident the right to use the non profit group which meets at a public venue with the intention to involve the community, they silence anyone wishing to speak that does not meet the Friends of Hollywood agenda, they refuse resident the right to free speech. I ask that all public officials refuse to associate with the civic association till the group removes its self from the board and allows for the free use of the group as it was intended. Further i ask the city use its position to stop the intimidation of residents and city workers by this group and its members.

This new park is being supported all across the city and more over the resident right along the border of the park. We see resident fearful of putting signs because of harassment from the friends of Hollywood. we need to stop an extremely small group of people from controlling the whole of the public. Residents have come forward and expressed fear of the group as they have used intimidation against residents supporting the park. The residents have gained courage to stand and place signs out showing the support

for the new adventure park. this should speak mountains to you as residents directly touching the former sunset property are supporting the new venue.

i would like to further mention that the owners have 30 acres with out plans for development, i am aware the city is currently in need of animal control facility, as well as the Hollywood historic society needs a large facility. i think placing the animal control facility in the south west corner would be a great place as well the historic society could find a location on the property and we could offer work shops for black smith, glass, leather and book makers, we can introduce kids and residents to the arts. the Florida Audubon society has expressed a need for areas to release animals back into the wild and see that the current plans allow for the use on the sunset land. and as of recent i was approached by Hollywood resident for creating a track and field on the property. all of these thing would fit on the 30 acres and still have room to spare. Its up to you to see what this can mean for the public considering the growth in the future of our population and the lack of park space. the city will not be able to meet the 3 acres per 1000 residents as it has set the goal.

if any one would like to set up a meeting i would be glad to discuss these issue

Frank Johnston, Candidate for Broward County Commissioner District #6

Sunset Golf Course

A PUBLIC UTILITY

Prepared by

Friends of Hollywood, Florida Inc.

For

The City of Hollywood

February 28, 2015

To: City of Hollywood Mayor and Commissioners

From: Friends of Hollywood Florida, Inc.

friendsofhollywoodfl@aol.com

Subj: Sunset Golf Course, 2727 Johnson Street

Dear Mayor and Commissioners:

Sunset Golf Course, a closed golf course for more than five years, is a vital element in our storm and surface water management system. It has been listed for almost a year (on Loop Net) as being available for residential development.

Sunset is a 45-acre natural "soil sponge" basin for storm water retention. It is below sea level and is flood protection for a 320 acre basin of residences and businesses. It is irreplaceable. There is no alternative way of managing storm water in this 320 acre basin.

It is urgent that you move to exercise jurisdiction and control as provided for in the City's Code of Ordinances, and that you begin Eminent Domain proceedings for the subject property.

There is more than a "reasonable necessity" to take the property. The evidence for necessity and public purpose includes:

 The land is a public utility due to its function as a drainage basin for the City. After a hurricane, the golf course accepts and processes 15,000,000 gallons of water over a period of four days. Every year, the golf course naturally percolates and filters millions of gallons of storm water. The site is already mapped by the City as a Public Utility [Exhibit 1]. Without the drainage provided by this land, the City would face tremendous flooding and safety hazards.

The City's Utility Atlas Map [Exhibit 1] shows that the City has had a drainage system in place for more than 50 years, including a Municipal Pump station, more than 30 Drainage Outfalls (red), more than 30 Drainage Inlets (orange), as well as Waterways and Gravity Pipes surrounding and within the golf course.

The site is already an element in our storm and surface water management system. See City of Hollywood Code of Ordinances, Title V., Chapter 54, Stormwater Management. – Definitions. **[Exhibit 2]**.

Florida Statutes give the City of Hollywood jurisdiction over storm and surface water management. City of Hollywood Code of Ordinances, Title V, Chapter 54, Stormwater Management, GENERAL PROVISIONS, 54.01 PURPOSE. [Exhibit 2].

Funding for acquisition and maintenance can be made available from the City's Storm Water Enterprise Fund [Exhibit 2, Section 54.08].

The city obtained Easement Deeds in 1961 for use as a storm water management system. The property has legally been part of the City's Storm Water Management System for more than fifty (50) years. [Exhibit 3]. Without the drainage provided by this land, the city would face tremendous flooding and safety hazards.

 The land is a natural ground water recharge site and prevents devastating salt-water intrusion into the surrounding areas by maintaining a balance of fresh water to salt water.

The City of Dania is already stressed by salt water intrusion. Development of the property would exacerbate damage in future floods, be dangerous to the surrounding residences, and damaging to the C-10 Canal structure and the obligate wetland species downstream. Diversion of fresh water from the area, even if it were possible, would cause salt water intrusion making the entire basin, including parts of the City of Dania, unsuitable for human habitation [Exhibit 4].

There is simply no alternative, cost-effective way to secure the drainage benefits of this land and its role in the prevention of salt-water intrusion for the City without protecting the land itself from development.

The cost of mitigation of these hazards far outweighs any argument of reduction in the value of the property.

Taking the property through eminent domain is in accordance with both the City and the County's long-range planning policies:

Policy 3.43 of the Hollywood City-Wide Master Plan, Volume II, dated September 20, 2001 provides that the City must "Preserve Sunset Golf Course as open space." [Composite Exhibit 5)

Policy CW.41 of the Hollywood City-Wide Master Plan, Volume I, provides that the City must "Utilize the power of eminent domain to implement the City-Wide Master Plan where appropriate." [Composite Exhibit 5].

Policy 4.1 of the Water Supply Plan, Potable Water Sub-Element, PO-2015-02 approved February 4, 2015 provides that, "The City of Hollywood shall develop a basin-wide management protocol that optimizes flood protection, water quality, storm water storage, wetlands sustainability, and groundwater recharge functions while protecting groundwater from saltwater intrusion." [Composite Exhibit 6]

Policy 4.3 of the Water Supply Plan, Potable Water Sub-Element, PO-2015-02 approved February 4, 2015 provides that, "The City of Hollywood will cooperate with Broward County to develop a plan to maintain the Centralized Wellfield system to protect and maximize the raw water supply while protecting the Biscayne Aquifer from further saltwater intrusion." [Composite Exhibit 6]

Broward County's Land Use Plan provides that local governments shall "Establish an extensive system of public and private open space areas.....including golf courses, and waterways....." and "shall pursue programs, including acquisition of open space areas from willing sellersconsistent with their adopted comprehensive plans....." [Composite Exhibit 7]

Broward County's Land Use Plan also provides for, "Management of storm water retention taking into account the extent to which the golf course provided storm water retention for the surrounding development...." [Composite Exhibit 7]

Maps from Broward County's Comprehensive Plan, Volume 4, show that Sunset Golf Course and the surrounding area is at risk for tidal flooding.

The maps also show that Sunset is in a "Priority Planning" area for sea level rise. [Composite Exhibit 8].

The Property's Appraised Value, Funding for Purchase, and Future Use:

The City obtained two property appraisals in May and June of 2014.

The appraisal prepared by L.B. Slater and Company gives an "as is" value estimate of \$725,000. **[Exhibit 9**]. The appraisal prepared by Lewis Appraisals gives an "as is" value estimate of \$915,000. **[Exhibit 10].**

The land was valued at \$781,560 for tax purposes by the Broward County Property Appraiser. [Exhibit 11]

Funding for acquisition and maintenance can be made available from the City's Storm Water Enterprise Fund [Exhibit 2, Section 54.08].

Mayor Peter Bober, recognizing the serious environmental impacts that would come from disturbing the unique ecology of Sunset, wrote to the residents that he would actively oppose any use contrary to uses consistent with open space....or green space. [Exhibit 12].

However, this is not enough. The land and the surrounding communities will not be safe until the City secures permanent protection for it. Furthermore, allowing development on the Sunset basin may subject the City to liability. **[Exhibit 13]** ("Protecting Property Rights to Reduce Liability").

Over time, the city can remove any non-native flora and replace it with natives that would need minimal care and be relatively self-sustaining. Over-ground walkways such as those in Everglades National Park and Holland Park would give residents and visitors access to this natural area without impeding the current natural flow of water into and through the site. See photograph, [Exhibit 14]

On behalf of the residents of the City of Hollywood, we urge you to recognize the significance of this natural land, to protect it from development, and preserve it for the safety and welfare of current and future generations, now and forever.

Friends of Hollywood Florida, Inc.

Incorporated to raise awareness of the significance of our natural lands, to advocate for the restoration and protection of our natural heritage, and to promote the principles of smart growth for our communities.

Exhibits

Exhibit 1 - City of Hollywood - Department of Public Utilities - Atlas Maplet

The map shows the drainage system that the city has had in place for more than 50 years, including a Municipal Pump station, more than 30 Drainage Outfalls (red), more than 30 Drainage Inlets (orange), as well as Waterways and Gravity Pipes surrounding and within the golf course.

<u>Exhibit 2 – City of Hollywood Code of Ordinances – Chapter 54 – Stormwater</u> Management - GENERAL PROVISIONS and PURPOSE

<u>Exhibit 3</u> – Easement Deeds - Current Use by the City as a Flood Plain

The city obtained Easement Deeds in 1961 for use as a storm water management system. The property has legally been part of the City's Storm Water Management System for more than fifty (50) years.

Without the drainage provided by this land, the city would face tremendous flooding and safety hazards.

<u>Exhibit 4</u> – Broward County Comprehensive Plan, Vol.4, Support Documents, Drainage/Aquifer Recharge Element, Hollywood C-10 Canal Basin

"The C-10 basin was constructed without a control structure in order to maintain the water surface elevation in the canal high enough to prevent salt water intrusion into local groundwater. Since there is no water supply to the C-10 from outside the basin, it would be impossible to maintain the required surface water elevation in the canal during periods of low flow even if a structure was in place."

Exhibit 5 - Excerpts Hollywood City-Wide Master Plan

The City-Wide Master Plan, Volume II, dated September 20, 2001 anticipates the need for a secure future for the Sunset basin.

Policy 3.43: "Preserve Sunset Golf Course as open space."

The City-Wide Master Plan, Volume I, dated September 20, 2001, anticipates the need to utilize eminent domain to secure the future of the Sunset basin.

Policy CW.41: "Utilize the power of eminent domain to implement the City-Wide Master Plan where appropriate."

<u>Exhibit 6</u> – Excerpts From Water Supply Plan, Potable Water Sub-Element, PO-2015-02 approved February 4, 2015

Policy 4.1: "The City of Hollywood shall develop a basin-wide management protocol that optimizes flood protection, water quality, storm water storage, wetlands sustainability, and groundwater recharge functions while protecting groundwater from saltwater intrusion."

Policy 4.3: "The City of Hollywood will cooperate with Broward County to develop a plan to maintain the Centralized Wellfield system to protect and maximize the raw water supply while protecting the Biscayne Aquifer from further saltwater intrusion."

Exhibit 7 – Compliance with Broward County's Land Use Plan

Broward's Land Use Plan, Objective 5.04.04, adopted June 24, 2008 and amended as <u>underlined</u>:

Objective 5.04.00 – Establish an extensive system of public and private open space areas...includinggolf courses, and waterways...."

Objective 5.04.01 – Local governments *shall* pursue programs, <u>including</u> acquisition of open space areas from willing sellers.....consistent with their adopted comprehensive plans..."

Objective 5.04.04b, "Management of storm water retention taking into account the extent to which the golf course provided storm water retention for the surrounding development......".

<u>Exhibit 8</u> – Broward County's Concerns of Salt Water Intrusion into the Sunset Basin

Two Maps from Broward County's Comprehensive Plan, Volume 4, Support Documents - Drainage/Aquifer Recharge Element

First Map: Areas at Risk of Tidal Flooding - Sunset is the Yellow square along the southeast side of I-95.

Second Map: Priority Planning Areas for Sea Level Rise - Sunset is the Red square on the east side of I-95 by "Hollywood".

The land is a natural ground water recharge site and prevents devastating saltwater intrusion in the surrounding areas by maintaining a balance of fresh water to salt water.

Exhibit 9 – Appraisal Estimating "As Is" Value at \$725,000.

Prepared by Lewis Appraisals for the City on June 2, 2014.

Exhibit 10 - Appraisal Estimating "As Is" Value at \$915,000.

Prepared by L. B Slater and Company for the City, dated May 3, 2014

Exhibit 11 – Broward County Property Appraised Value at \$781,560.

<u>Exhibit 12</u> – Mayor Bober's Commitment Letter

Exhibit 13 – Consequences of Allowing Development on Sunset Basin

Fact Sheet 2 entitled "Protecting Property Rights to Reduce Liability"

Page 2, paragraph 3 – Penn Central v. New York City – "Courts have recognized the public hazard created by developing flood prone areas.....and to the public generally because of increased costs and have generally held that mitigation of this hazard outweighs reduction in property value."

Page 3, Summary box: "Communities should be more concerned about liability for assisting or permitting poorly planned development that harms others than the risk of being sued for preventing that harm in the first place".

Page 4: "Communities that fall back on just the minimum federal standards may allow diversion of floodwaters onto other properties....which may make the community liable....for negligence."

Page 4: "Ultimately, any new development that is allowed to adversely impact other properties may make the community liable, *even if minimum* standards are met."

Exhibit 14 – Vision Going Forward – Photograph of Over-land Walkways

Over time, the city can remove any non-native flora and replace it with natives that would need minimal care and be relatively self-sustaining. Overground walkways such as those in Everglades National Park and Holland Park would give residents and visitors access to this natural area without impeding the current natural flow of water into and through the site.

GENERAL PROVISIONS

↓ § 54.01 PURPOSE.

The city maintains a system of storm and surface water management, including but not limited to inlets, conduits, manholes, channels, ditches, drainage easements, retention and detention basins, and infiltration facilities, swales and other components as well as natural waterways. All elements of these storm and surface water management systems, which provide for the collection, storage, treatment, and conveyance of stormwater, are of benefit and provide services to all property within the city. The city is granted the authority to exercise jurisdiction and control over stormwater systems and establish and administer local pollution control, surface water and stormwater management programs, and a stormwater utility under F.S. §§ 403.182, 403.0891, 403.0893 and 402.091 and under Sections 17-40.405 and 17-40.420; and Section 17-25 of the Florida Administrative Code, in order to provide for the management of stormwater; to control industrial stormwater discharges; prohibit illicit discharges; control spills, dumping and

nonstormwater discharges which may adversely affect or contribute pollution to stormwater and or stormwater systems; establish interagency agreements to control stormwater discharges and intersystem linkages; prevent soil erosion; prevent excessive flooding and damage from floods; ensure water storage for beneficial purposes; maintain wetlands and other natural habitats for the protection and propagation of wildlife; promote conservation; develop proper utilization of surface water and groundwater; establish inspection and monitoring programs and procedures, and enforce compliance with ordinance conditions. The subchapters of this chapter, and all future amendments to said subchapters, shall take precedence over other ordinances and sections regarding stormwater management.

(Ord. O-93-52, passed 10-20-93)

√§ 54.02 DEFINITIONS.

For the purpose of this chapter, the following definitions shall apply unless the context clearly indicates or requires a different meaning.

BEST MANAGEMENT PRACTICES (BMPs). Management techniques recognized to best minimize pollutant and sediment loadings from stormwater runoff.

CONSTRUCTION OPERATIONS. Any on-site construction activity which includes but is not limited to clearing, grading, excavation, building, assembling, expansion, modification, or alteration of existing contours of the property.

DETENTION. The collection and temporary storage of stormwater in such a manner as to provide treatment through physical, chemical or biological processes with subsequent gradual release of the stormwater.

DIRECTOR. The City Manager, or those to whom he or she has charged the interpretation, administration or enforcement of this code, or selected portions thereof.

DRAINAGE AREA. The watershed area contributing surface and stormwater runoff to the city's stormwater management system.

EQUIVALENT RESIDENTIAL UNIT (ERU). The statistical average horizontal impervious area of a single family residential unit within the city. The horizontal impervious area includes, but is not limited to, all areas covered by structures, roof extensions, patios, porches, driveways and sidewalks.

NON-STRUCTURAL CONTROLS. Any activity designed to reduce pollutant loadings of stormwater including but not limited to management programs and policies, application of best management practices (BMP), and public education programs.

ILLICIT DISCHARGE. Any discharge to a municipal separate storm sewer and or receiving water body that is not composed entirely of stormwater.

INDUSTRIAL SITES. Sites of industrial activity directly related to manufacturing, processing, or raw materials storage that the city determines are contributing a pollutant loading to the storm sewer system.

IMPERVIOUS SURFACE. A surface that has been compacted or covered with a layer of material so that it is highly resistant to infiltration by water. It includes, but is not limited to, semiimpervious surfaces such as compacted clay, as well as streets, roofs, sidewalks, parking lots and other similar surfaces.

IMPERVIOUS AREA. The area of land, measured in a horizontal plane, that has impervious surfaces.

OFFICER. The means by which the provisions of this subchapter shall be enforced by code enforcement, building and zoning, and/or police officers.

PERVIOUS SURFACE. Ground surface that is permeable to water infiltration.

RECEIVING WATER. All surface and ground water bodies; all wetlands, lakes, rivers, streams, canals, sloughs, natural or unnatural water bodies; and all territorial waters and the ocean into which stormwater runoff directly or indirectly discharges.

RETENTION. The prevention of stormwater runoff from direct discharge into receiving waters by utilizing discharge systems such as percolation, exfiltration, and evaporation processes.

SIGNIFICANT MATERIAL. Includes, but is not limited to any material which could be determined to cause degradation to the environment and/or is hazardous to human health as defined by current federal, state, county, and city regulations.

STORMWATER. Rainfall water that results from a rainfall event.

STORMWATER MANAGEMENT PLAN. A plan for receiving, handling, treating and transporting stormwater.

STORM SEWER OUTFALL. Point source where a municipal separate storm sewer discharges into receiving waters.

STORMWATER RUNOFF. That part of precipitation that travels over natural, altered or improved surfaces to any receiving water or to a storm sewer system and is thereby discharged to any receiving water.

STORMWATER SYSTEM. Includes all natural and manmade drainage elements used to convey stormwater from the first point of impact with the surface of the earth to a suitable outlet location internal or external to the boundaries of the city. The stormwater system includes but is not limited to pipes, channels, catch basins, curbs, gutters, streams, ditches, wetlands, sinkholes, pub stations, roadways, detention/retention basins, swales, ponds and other stormwater conveyance and treatment facilities whether public or private.

STRUCTURAL CONTROLS. Any stormwater system designed to control stormwater flow in order to meet water quality and or flood criteria including but not limited to levies, dikes, pump stations, spillways, locks, embankments, roadways, lakes, retention/detention basins and ponds.

SURFACE AREA. All natural, altered, or improved surfaces on which stormwater runoff or infiltration occurs.

SURFACE WATER. All surface natural and man-made water bodies, including but not limited to all lakes, rivers, canals, wetlands, sloughs, streams, territorial waters and the ocean into which stormwater runoff directly or indirectly discharges.

SWALE. A man-made trench or depression designed to contain contiguous areas of standing or flowing water following a rainfall event which is planted with or has vegetation or material suitable for soil stabilization, surface water treatment, and nutrient uptake as approved by the city.

UNDEVELOPED PROPERTY. That which has not been improved by the addition of any building, structure or impervious surface. For new construction, a property shall be considered developed pursuant to this chapter:

- (1) Upon issuance of a Certificate of Occupancy, or upon completion of construction or final inspection if no such certificate is issued; or
- (2) Where construction is at least 50% complete and construction is halted for a period of three months.

WATER BASIN. The area which contributes to the flow of water into a receiving body of water.

WATER BODY. All surface waters; all wetlands, lakes, rivers, streams, canals, sloughs, natural or unnatural waters; and all territorial waters and the ocean in which stormwater runoff directly or indirectly discharges into.

(Ord. O-93-52, passed 10-20-93)

STORMWATER UTILITY

- √§ 54.03 STORMWATER MANAGEMENT UTILITY FEE.
- (A) A stormwater utility fee is hereby imposed upon each lot and parcel within the city for services and facilities provided by the Stormwater Management Utility. For purposes of

imposing the stormwater utility fee, all lots and parcels will have the appropriate fee determined based upon impervious area.

- (B) The Director is directed to prepare a list of lots and parcels within the city and assign a classification of residential, non-residential or undeveloped to each lot or parcel.
- (1) The City Commission, upon recommendation of the Director, shall, by resolution, establish or amend the average square footage of impervious area of the ERU and shall, by resolution, establish or amend a reasonable rate for each ERU.
- (2) The fee imposed for residential properties shall be the rate for one ERU multiplied by a factor, to be adopted or amended by a resolution of the City Commission upon recommendation of the Director, which represents the average amount of impervious surface for the particular type of residential use, and divided by the impervious area of one ERU. fee = ERU rate X impervious factor

ERU (in acres)

(3) The fee imposed for non-residential properties as defined herein shall be the rate for one ERU, multiplied by the numerical factor obtained by dividing the total impervious area of a nonresidential property by the ERU.

(ERU rate) x (impervious area)

(ERU impervious area)

- (4) The fee imposed for undeveloped properties as defined herein shall be the rate for one ERU multiplied by a factor established or amended by resolution and then divided by the square footage for one ERU.
- (5) The Director shall be responsible for determining the impervious area based on data supplied by the County Property Appraiser, or by the property owner, tenant, or developer if such information is unavailable. The Director may require additional information as necessary to make the determination. The billing amount shall be updated by the Director based on any additions or deletions to the impervious area as approved through the building permit process.
 - (6) The minimum fee for any non-residential parcel shall be equal to the rate for one ERU.
- (7) All unoccupied developed lots and parcels shall be subject to the stormwater management utility fee.

(Ord. O-93-52, passed 10-20-93)

- ↓ § 54.04 BILLING AND PAYMENT; PENALTIES.
- (A) Bills or statements for the stormwater utility fee shall be rendered monthly in accordance with the regular utility billing cycle by the utility billing division of the city for all properties subject to the fee. Bills shall be payable at the same time and in the same manner and subject to the same penalties as set forth in Chapter 51 of the code of ordinances for water. Any partial payment of a combined utility bill shall be applied pro rata to the stormwater utility fee along with the other charges on the bill. Any unpaid stormwater utility fee shall constitute a lien against the property, which lien shall be prior to all other liens on such property except the liens of state, county and municipal taxes and shall be on a parity with the lien of such state, county and municipal taxes. Such lien, when delinquent for more than 30 days, may be foreclosed by the city in the manner provided by the laws of Florida for the foreclosure of mortgages on real property.
- (B) For properties normally receiving monthly utility bills for other services, the stormwater utility fee shall be included in the monthly utility bill rendered to the established customer. At the discretion of the City Finance Director, fee waivers for short term inactive utility accounts accruing fees of \$10 or less in a six month period may be made for purposes of administrative convenience.
- (C) For properties not receiving monthly utility bills for other services, the bill or statement for the stormwater utility fee shall be sent to the owner of the property as determined from the

http://www.amlegal.com/nxt/gateway.dll/Florida/holywood/titlevpublicworks/chapter54stor

tax rolls. The Utility Billing Division may render annual, or semi-annual billing, at the beginning of the defined period on such properties as determined to be in the best interest of the city.

- (D) The owner of a property is ultimately responsible for all fees imposed under this chapter. (Ord. O-93-52, passed 10-20-93)
- № 54.05 ADJUSTMENT OF FEES.
- (A) Requests for adjustment of the stormwater utility fee shall be submitted through the Director, who shall be given authority to administer the procedures and standards, and review criteria for the adjustment of fees as established herein. All requests shall be judged on the basis of the amount of impervious area on the site, or the need for additional/enhanced stormwater facilities. No credit shall be given for the installation of facilities required by any agencies having jurisdiction for stormwater management. The following procedures shall apply to all adjustment requests of the stormwater utility fee:
- (1) Any owner who has paid his stormwater utility fees and who believes the impervious area determination to be incorrect may, subject to the limitations set forth in this subchapter, submit an adjustment request to the Director.
- (2) Requests for adjustment of stormwater utility fees shall be in writing on forms provided by the city, shall set forth, in detail, the grounds upon which relief is sought, and shall be filed with the Director along with a processing fee as set by resolution.
- (3) Adjustment requests made during the first calendar year that the stormwater utility fee is imposed will be reviewed by the Director within a four month period from the date of filing of the adjustment request. Adjustments resulting from such request shall be retroactive to the beginning of billings, but shall not exceed one year.
- (4) The owner requesting the adjustment may be required, at his own cost, to provide supplemental information to the Director including, but not limited to, survey data and engineering reports, performed by either a registered professional land surveyor (R.P.L.S) currently registered in the state or a professional engineer (P.E.) currently registered in the state of Florida. Failure to provide such information may result in the denial of the adjustment request.
- (5) Adjustments to the stormwater utility fee will be made upon the granting of the adjustment request, in writing, by the Director. Denials of adjustment requests shall be made in writing, by the Director.
- (B) The Director or his designee shall prepare an administrative policy which sets forth an appeal procedure to be followed by an owner whose request for adjustment is denied. Such procedure shall be designed so that an owner may receive timely review of a denial of adjustment and shall provide for a final appeal of an adverse determination to the City Commission.

(Ord. O-93-52, passed 10-20-93)

- § 54.06 CAPITAL CONTRIBUTIONS.
- (A) Procedures and standards developed by the Director and a representative of the Engineering Department shall define appropriate means by which to optimize development capital contributions in the implementation of basic specific stormwater systems. These basic specific capital contributions shall take the form of fee-in-lieu-of or availability charges. Each situation will be analyzed by the Director and a specific written decision will be developed. The application of each is defined as follows:
- (1) Fee-in-lieu-of is applied to a site specific procedure, wherein a development's stormwater contribution (quantity and quality) is assessed to determine its share of the capital needs of the facilities required to serve the development in question. This capital contribution would be used to implement city-owned stormwater facilities. The process does not apply

wherein the stormwater facilities are privately held. Each application is evaluated against the city's stormwater master plan for the watershed involved, or while the master plan is incomplete, the cumulative impacts from the development.

(2) Availability charge is administered on a site specific basis identical to the fee-in-lieu-of procedure noted above; the only difference is that the capital investment advanced by the city in implementing a stormwater facility is now recovered through an availability charge. The capital charge is determined on a pro-rata share of the capacity used by the new applicant or by the cumulative impact from the development upon all impacted facilities. (Ord. O-93-52, passed 10-20-93)

It shall be the duty of the Director to administer the stormwater utility program. The Director shall keep an accurate record of all properties benefitting from the services and facilities of said municipal Stormwater Management Utility and make changes in accordance with the ERU rate and the ERU area established by resolution.

(Ord. O-93-52, passed 10-20-93)

🔲 🖇 54.08 STORMWATER UTILITY ENTERPRISE FUND.

There shall be established a Stormwater Utility Enterprise Fund for the deposit of all fees and charges collected by the stormwater utility. These funds shall be for the exclusive use of the city's Stormwater Management Utility; including but not limited to the following:

- (A) Stormwater management services.
- (B) Operation and maintenance of the stormwater management system.
- (C) Project costs for approved improvements to the municipal stormwater management system.
 - (D) Administrative costs associated with the management of the stormwater utility.
 - (E) Costs required for the city to comply with the N.P.D.E.S. stormwater permit requirements.
- (F) Debt service of stormwater-related capital improvements and related reserve or bond financing costs.
- (G) Funding of studies associated with the planning of the stormwater-related infrastructure. (Ord. O-93-52, passed 10-20-93)

DISCHARGES INTO THE MUNICIPAL SEPARATE STORM SEWER SYSTEM

🗦 § 54.20 CONSTRUCTION SITES AND CONSTRUCTION ACTIVITIES.

Construction sites and operations shall be required to maintain during and after all construction, development, excavation and/or alteration operations, structural and non-structural best management practices with the intent to reduce pollutants and sediment in stormwater runoff.

- (A) Construction and operations site plans and permits shall be required and reviewed by the city prior to the initiation of construction operations. Site plans shall include descriptions of structures, procedures, and or control measures designed to reduce and control sediment and pollutant loading either directly or indirectly to stormwater runoff.
- (B) Construction or construction operations over any existing or planned stormwater management system or any such operations causing interference with any stormwater management system shall not be permitted.
- (C) A schedule of inspections for monitoring shall be developed to be carried out during and after the construction and operation phases as conditions to the permit to determine and verify compliance with this section.

(Ord. O-93-52, passed 10-20-93)

 $| \rangle$ § 54.21 INDUSTRIAL SITES AND INDUSTRIAL ACTIVITIES.

Industrial sites and industrial activities determined by the city to contribute pollutant loadings to stormwater and or the storm sewer system shall be inspected and monitored by the city in order to verify compliance with this section.

- (A) It shall be unlawful to deposit, spill, dump, or introduce any significant material or pollutants that may contribute contamination to any surface area, storm sewer system, and/or stormwater runoff. It shall be unlawful to deposit, spill, dump or introduce:
 - (1) Substances that settle to form sludge deposits.
 - (2) Floatable or suspended substances such as debris, oil, scum, and other materials.
- (3) Any significant substance, petroleum product, infectious matter, toxic or hazardous substance or hazardous material onto surface areas or to storm water management systems.
- (4) Industrial wastewater, domestic, cooling or any other wastewater into any sewer designated to carry stormwater without prior city or Broward County approval.
- (B) Any site and or activity identified as contributing any significant material and or pollutants shall be required:
- (1) To develop and initiate structural systems and or non-structural management practices designed to reduce and control the contribution or pollutants to stormwater, surface areas and/or to storm water management.
- (2) To be inspected and monitored by the city in order to verify compliance with this section.

(Ord. O-93-52, passed 10-20-93)

Operations of any landfill or dump site shall be conducted to provide for collection, control and treatment of surface runoff and verification that no significant pollutant contribution to receiving waters shall occur upon discharge of said runoff.

(Ord. O-93-52, passed 10-20-93)

↓ § 54.23 ILLICIT DISCHARGES.

Any dumping, spilling, or discharging of any non-stormwater material to any surface area or storm water management system shall be prohibited unless allowed by prior written approval from the city. Prohibited illicit discharges shall require spill response, spill control, and spill clean up as designated and prescribed by the city.

(Ord. O-93-52, passed 10-20-93)

🗦 § 54.24 ALTERATIONS OR OBSTRUCTIONS TO STORM WATER MANAGEMENT.

Alterations or obstructions to any stormwater management system, including pump stations, sewer lines, structural controls, catch basins, culverts, wetlands or swales shall be prohibited without prior written approval of the city.

(Ord. O-93-52, passed 10-20-93)

S 54.25 SEPTIC TANK INSPECTIONS.

Any residential property utilizing a septic tank system for the disposal of sanitary wastes will be required, prior to the sale of said property, to pass a septic tank inspection by a licensed septic tank service firm to verify the integrity of the system.

(Ord. O-93-52, passed 10-20-93)

Companies involved in the application of herbicides, pesticides, fertilizers, or any regulated material shall be required to obtain operating licenses; train their employees in the application of said materials with the intent to minimize or prevent over application and spills; and develop plans for spill response and spill control of said materials.

(Ord. O-93-52, passed 10-20-93)

🔲 🖇 54.27 STORAGE TANKS.

The discharge of hazardous and or significant materials from storage tank facilities to ground or surface waters, to surface areas, to ground waters during remediation activities, to stormwater runoff, and/or to storm water management systems shall be prohibited. (Ord. O-93-52, passed 10-20-93)

§ 54.28 BACKWASH DISPOSAL.

The disposal of filter backwash water to stormwater management systems shall be prohibited. Disposal of backwash shall provide for separation before final disposal to:

- (A) Sanitary sewers after prior written approval by the city.
- (B) Detention pits or pervious surface areas where sufficient pervious area exists, remote from water supply wells, disposal systems, pits, and septic tanks. (Ord. O-93-52, passed 10-20-93)
- § 54.29 LITTER, LITTERING MATERIAL.

The accumulation, placing, sweeping, scattering, throwing, or dumping of litter, or littering material such as dead plants, yard clippings, stagnant water, rubbish, debris, trash, including any wrecked derelict or partially dismantled motor vehicle, trailer, boats, machinery, appliances, furniture or similar article, or any unsanitary, hazardous or significant material upon any surface area, stormwater management system or water body within the city is hereby prohibited. (Ord. O-93-52, passed 10-20-93)

🗦 § 54.30 WATER MANAGEMENT WORKS, EROSION CONTROL.

The city is hereby authorized and empowered to exercise jurisdiction; to control; and to require, construct, reconstruct or improve stormwater management works which provide for the collection, storage, treatment, and conveyance of stormwater including systems such as structural controls, erosion prevention facilities and flood control and management systems within the jurisdiction of the city in compliance with the stormwater management regulations as outlined in this subchapter.

(Ord. O-93-52, passed 10-20-93)

The city is authorized to develop interagency agreements and mutually compatible programs with the South Florida Water Management District, Florida Department of Transportation, Broward County, all other local governmental agencies, and all private agencies; with the intent to control the contribution of pollutants within inter-system stormwater management system linkages; in order to develop mutually compatible stormwater management programs and systems; and to develop and enforce stormwater management, inspections, and monitoring programs.

(Ord. O-93-52, passed 10-20-93)

The city shall be granted the authority to determine the compliance or non-compliance with this subchapter of a stormwater management system or non-stormwater discharge to a stormwater system, water body or surface area; based on investigation, surveillance, monitoring, sampling, testing, and or sound engineering and operational evaluations. (Ord. O-93-52, passed 10-20-93)

- ↓ § 54.33 ASSESSMENT OF PENALTY FOR NON-COMPLIANCE.
- (A) Upon determination of a violation of this subchapter, the city may assess against the violator a minimum penalty of \$500 per offense.
- (B) Additional charges against the violator may be assessed in an amount determined by the city depending on the extent of environmental damage, mitigation, the cost of remediation and enforcement costs.

- (C) Upon determination of a violation of this subchapter, the violator shall bear all costs incurred for cleanup, enforcement action and remediation.
- (D) Each day during any portion of which a violation occurs constitutes a separate violation and may incur additional penalties. (Ord. O-93-52, passed 10-20-93)

🗦 🖇 54.34 STORMWATER INSPECTIONS AND MONITORING PROCEDURES.

The city may enter, perform inspections, surveillance and monitoring procedures within reasonable hours of all structures and premises, and shall have free access to copying or reviewing pertinent records of a facility, system or premises, in order to ascertain the state of compliance with the laws, rules and regulations of the city regarding compliance as outlined in this subchapter.

- (A) The compliance personnel of the enforcing agency shall be provided with official identification and shall exhibit such identification when making inspection.
- (B) The owner, operator, lessees, occupant or person in charge of the structure or premises shall give the inspecting officer free access for the purpose of making such inspections without hampering, obstructing, or interfering with such inspection. (Ord. O-93-52, passed 10-20-93)

具 🖇 54.35 EFFLUENT STANDARDS AND WATER QUALITY CRITERIA.

The city adopts Section 27-196, Section 27-197 and Section 27-198 of the Code of Broward County as minimum surface water criteria and effluent standards for discharges to surface water.

(Ord. O-93-52, passed 10-20-93)

EASEMENT DEED

THIS INDENTURE, made and executed this ______ day of June, A. D., 1961, from HENRY CIERI and ANGELINE CIERI, husband and wife, parties of the first part, to the CITY OF HOLLYWOOD, Hollywood, Florida, a municipal corporation operating under the laws of the State of Florida, party of the second part.

WITNESSETH:

 WHEREAS, the parties of the first part are the owners in fee simple of the following described property:

The Southwest Quarter of the Southwest Quarter of Section 9, Township 51 South, Range 42 East, less the Westerly portion deeded for State Highway purposes, and less the South 25 feet thereof deeded for road right of way;

and

whereas, the CITY OF HOLLYWOOD, party of the second part, requires the use of part of the property described herein for the purposes of constructing, maintaining, and operating a water pipe line, an open ditch canal, and a pumping station together with a pump, all for public convenience and necessity; and

WHEREAS, it is necessary, in the public interest, that the second party hereto, said CITY OF HOLLYWOOD, acquire right of easement for the aforesaid purposes over and across the lands hereinabove described; and

WHEREAS, the parties of the first part herein benefit by the improvement to be constructed over and across said lands equal to and equivalent in value to the easement right hereby granted; and

Page 1.

70/11

č

533

143

WHEREAS, the parties have entered into an Agreement of even date herewith concerning the said easement and other rights contained in said Agreement;

Now, therefore, FOR AND IN CONSIDERATION of the sum of One Dollar (\$1) and other good and valuable consideration and the conditions contained in the said Agreement between the parties of even date, the parties of the first part, for themselves and their heirs and assigns, do hereby give, grant, and convey to the party of the second part, the CITY OF HOLLYWOOD, --for the sole and exclusive purpose and object of constructing, maintaining and operating a public water line thereon, an open ditch canal, and a pumping station together with a pump, -- an easement over and across the following described land for as long as same shall be required for said object and purpose;

ment across the Southwest Quarter of the Southwest Quarter of Section 9, Township 51 South, Range 42 East, less State Road No. 9 right of way and less the South twenty-five feet for road right of way. The centerline of said easement is described as follows: Beginning at a point on the South property line of the abovementioned property and 426.59 feet East of the West line of said Section 9, thence Northwesterly at an angle of 310-39'-48" from the aforementioned South property line a distance of 236.22 plus or minus feet to a point which is 231.53 feet East of the West line and 149 feet North of the South line of said Section 9; all situate, lying and being in Broward County, Florida;

ŧ.,

FOR SAID OPEN DITCH CANAL and PUMPING STATION TOGETHER WITH A PUMP, an easement across the west 25 feet of the following described property: The Southwest Quarter of the Southwest Quarter less State Road 9 right of way, and less the South twenty-five feet for road right of way, of Section 9, Township 51 South, Range 42 East; all situate, lying and being in Broward County, Florida; and

IT IS UNDERSTOOD AND AGREED BETWEEN THE FIRST PARTIES AND SECOND PARTY THAT THE OPEN DITCH CANAL SHALL NOT EXTEND ANY FURTHER EASTERLY THAN THE PRESENT OPEN DITCH CANAL LOCATED ON THE PROPERTY OF THE FIRST PARTIES, WITHOUT FIRST OBTAINING THE WRITTEN CONSENT OF SAID FIRST PARTIES, AND THE FIRST PARTIES' LESSEE OF THE ABOVE DESCRIBED PROPERTY, IF ANY THERE MAY BE.

PROVIDED, however, that if at any time the CITY OF
HOLLYWOOD shall abandon the use of said herein described land
for said object and purpose, this Easement and the tenancy herein
created shall thereby cease and all right shall revert to the
first parties; and PROVIDED FURTHER, that the easement herein
granted shall continue to the extent only of the amount of land
required for the constructing, maintaining, and operating of the
water pipe line, open ditch easel, and a pumping station together
with a pump, herein referred to, for so long as the second party
shall require the use thereof for the aforesaid object and purposes.

IN WITNESS WHEREOF, the first parties have hereunto set their hands and seals to this Easement Deed on the day and year first above written.

EASEMENT DEED

THIS INDENTURE made this 6 day of between ROBERT GOODMAN, a single man, and GEORGE

grantor, and the CITY OF HOLLYWOOD, Florida, a municipal corporation under the laws of the State of Florida, P. C. Box 2207, Hollywood, Florida, 33022, grantee,

> ["Grantor' and "grantee" are used for singular or plural, as context requires.]

WITNESSETH

lessee 7 lowing described property, situate, lying and being in Broward County,-Florida: <u>2</u>

The SW 1/4 of the SW 1/4 of Section 9, Township 51 South, Range 42 East, except the Westerly portion deeded for State Highway purposes; and the West 1/2 of the West 1/2 of the SE 1/4 of the SW 1/4 of Section 9 , Township 51 South, Range 42 East, less the East 7.60 feet of the North 162.50 feet thereof; said lands situate, lying and being in Broward County, Florida,

WHEREAS, the grantee is a municipality authorized under its charter to provide for the general welfare of the people of the City of Hollywood, Florida, and in order to provide for the general welfare it is deemed necessary that an easement be obtained in, under and across the portion of the said property hereinafter described, for utility purposes,

NOW, THEREFORE, for and in consideration of the sum of One Dollar (\$1.00) and other valuable considerations paid by the grantee to the grantor, the grantor by these presents does grant unto the grantee, its successors and assigns, full and free right and author-

ity to use the following described easement:

A 20 foot wide strip of land the centerline of which is described as follows:

From the N.W. corner of Lot 19, Block 11, HOLLYWOOD TERRACE as recorded in Plat Book 3, page 12 of the Public Records of Broward County, Florida, run West a distance of 10 feet of a Westerly extension of the North line of said Lot 19 to the

This instrument Prepared (EEGAL DESCRIPTION CONTINUED ON FOLLOWING PAGE) POST OFFICE BOX 2207 HOLLYWOOD, FLORIDA 93022

in LC3 SUR

point of beginning; thence run North parallel to the West line of the above mentioned Subdivision known as HOLLYWOOD TERRACE, and WILKES BARRE PARK SUBDIVISION as recorded in Flat Book 12, page 28 of the Public Records of Broward County, Florida, for 1032 feet, more or less, to a point of intersection with the South right-of-way line of Arthur Street, according to the plat of SUNSET ISLES SECTION 3, as recorded in Plat Book 47, page 49 of the Public Records of Broward County, Florida, said point being the point of termination of the herein described centerline. LESS the E. 7.60 feet of the North 102.50 feet thereof.

By acceptance of this easement deed, the grantee hereby covenants with the grantor that it will hold harmless the grantor herein of all damage caused and occasioned by reason of default in the use of said easement.

In the event the necessity for the use of said easement in said area shall cease to exist, then this agreement shall terminate and end.

IN WITNESS WHEREOF the grantor has hereunto set grantor's hand and seal the day and year first above written.

DRAINAGE AND NATURAL GROUNDWATER AQUIFER RECHARGE

with the NNRC one mile east of the intersection of SR 84 and SR 823. Flow in the canal is to the south to the NNRC.

12. **South New River Canal (C-11) Basin.** The C-11 basin has an area of approximately 104 square miles and is located in south central Broward County. The C-11 basin is divided into an eastern basin (23 square miles) and a western basin (81 square miles). There are four C&SF Project canals in the C-11 basin: the C-11, the C-11S, the section of the L-33 borrow canal between the C-11 and Hollywood Boulevard, and the L-37 borrow canal. The C-11 is aligned east-west parallel to and north of Griffin Road from the L-37 borrow canal on the west to S-13 at US 441. Direction of flow in the reach of the canal in the eastern basin is to the east with discharge to the South Fork of the New River. Direction of flow in the reach of C-13 in the western basin depends on the operation of the control structures S-13A and S-9 located at either end of the reach.

The C-11S is aligned north-south parallel to and three-tenths of a mile east of Flamingo Road from G-87 at Sheridan Street on the south to C-11 on the north. The canal is tributary to and makes an open channel connection with the C-11. Direction of flow in the C-11S is to the north.

The L-33 and L-37 borrow canals make up a continuous canal aligned north-south along the western boundary of the basin. The L-33 borrow canal is south of the C-11 and extends to and makes a connection with the C-9. The L-37 borrow canal is north of the C-11 and extends to but does not make a connection with the North New River Canal. Direction of flow in the L-33 borrow canal depends on the operation of the S-9XS, S-30, and the S-32 and may be either to the north to C-11 or to the south to the C-9. Flow in the L-37 borrow canal is to the south to the C-11.

13. **Hollywood (C-10) Canal Basin.** The C-10 basin has an area of approximately 15 square miles and is located in southeast Broward County. There are two C&SF Project canals in the C-10 basin: the C-10 and the C-10 Spur Canal.

The C-10 begins at Johnson Road one-quarter mile west of I-95. It extends to the north connecting to the Dania Cut-off Canal 2.6 miles west of the Intracoastal Waterway. Flow in the canal is to the north.

The C-10 Spur Canal begins one-quarter mile north of Sheridan Street and 1.6 miles west of I-95. It extends to the east connecting to the C-10 six-tenths of a mile north of Sheridan Street. Flow in the canal is to the east. There C-10 basin was constructed without a control structure in order to maintain the water surface elevation in the canal high enough to prevent salt water intrusion into local groundwater. Since there is no water supply to the C-10 from outside the basin, it would be impossible to maintain the required water surface elevation in the canal during periods of low flow even if a structure was in place.

CITY-WIDE MASTER PLAN

Policy Document - Volume II

September 20, 2001

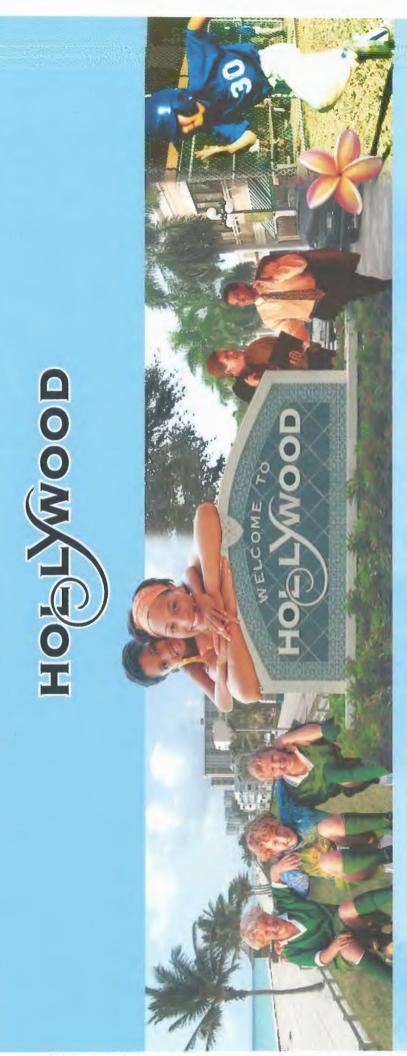

- Policy 3.30: Provide increased landscaping, pedestrian environment and corridor improvements to facilitate business redevelopment by utilizing excess right-of-ways.
- Policy 3.31: Investigate traffic calming measures for safe neighborhoods.
- Policy 3.32: Consider the elimination of excessive access points to Pembroke Road as part of a traffic calming and crime reduction strategy.
- Policy 3.33: Enhance the FEC railroad crossing on Hollywood Boulevard to create a linkage between Downtown and the East-Central area.
- Policy 3.34: Redevelop the area around Tri-Rail/Amtrak station to enhance transit opportunities and economic viability.
- Policy 3.35: Promote development that encourages transit opportunities.
- Policy 3.36: Support connection between Tri-Rail/Amtrak stations and major destinations throughout the City.

HOUSING

- Policy 3.37: Implement revitalization strategies in Liberia to provide improved housing stock.
- Policy 3.38: Increase code enforcement in an effort to improve housing quality.
- Policy 3.39: Support new housing and rehabilitation to replace deteriorated structures.

PARKS, RECREATION FACILITIES, CULTURAL ARTS AND OPEN SPACES

- Policy 3.40: Continue the use of the Hollywood Playhouse as a community service facility or community center.
- Policy 3.41: Investigate park and recreation opportunities in Liberia/Oakwood Plaza, including joint development with the School Board or other entities and potential acquisition of sites and funding sources.
- Policy 3.42: Implement programmed improvements to the Martin Luther King, Jr. Recreation Center.
- Policy 3.43: Preserve the Sunset Golf Course as open space.
- Policy 3.44: Improve the landscape/open space features on Hollywood Boulevard.

CITY-WIDE MASTER PLAN

Existing Conditions, Recommendations and Policies - Volume I

September 20, 2001

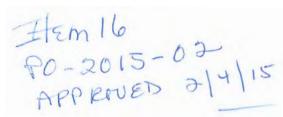

- Policy CW.31: Maintain public facilities and areas in a preventative manner to avoid deterioration of the public infrastructure.
- Policy CW.32: Install curbing and gutters on all roadways that have been recognized in the City's Comprehensive Plan as arterial or collector roads.
- Policy CW.33: Incorporate Crime Prevention through Environmental Design (CPTED) principles into the design and construction of new public facilities and areas. Retrofit existing facilities and areas in order to incorporate CPTED principles.
- Policy CW.34: Expand the Reclaimed Water System to replace current systems using potable water for irrigation in the public right-of-way and other public facilities. Design large private projects to include reclaimed water.
- Policy CW.35: Identify streets and roads with flooding as a result of a significant rainfall and prioritize the method and time frame for addressing flooding problems.
- Policy CW.36: Evaluate the water distribution system to identify parts of the system to be redesigned or renovated.
- Policy CW.37: Analyze the feasibility of placing electric and telecommunication lines underground at selected locations.
- Policy CW.38: Investigate programs to restore and maintain swales.

- Policy CW.40: Explore working with appropriate companies, as well as, state and federal agencies to determine the feasibility of dredging water bodies in the City of Hollywood (i.e., Northlake, C-10 and others) while minimizing environmental impacts to the immediate and surrounding areas.
- Policy CW.41: Utilize the power of Eminent Domain to implement the City-Wide Master Plan where appropriate.
- Policy CW.42: Ensure landscape maintenance on arterial and collector roads throughout neighborhoods with cooperation from Neighborhood/Civic/Homeowner Associations.
- Policy CW.43: Implement the Neighborhood Revitalization Strategies Five-Year Plan.

Economic Development and Redevelopment

- Policy CW.44: Foster economic development through creative land use, zoning and development regulations, City services and City policies.
- Policy CW.45: Protect/preserve the integrity of the City's boundaries, with emphasis on those lands within Port Everglades and Port 95 Commerce Park.
- Policy CW.46: Place emphasis on redevelopment along the major highway corridors; SR 7, US 1, Dixie Highway, Hollywood Boulevard and SR A1A by limiting expansion of residential areas, and deepening industrial and commercial zones to increase tax revenues.

WATER SUPPLY PLAN POTABLE WATER SUB-ELEMENT

PREPARED BY
THE UTILITIES DEPARTMENT AND
BROWN AND CALDWELL

CITY OF HOLLYWOOD
HOLLYWOOD, FLORIDA
JANUARY 2015

- Policy 3.1: The City of Hollywood shall continue to coordinate the provision of potable water through agreements with the municipalities serviced by the City of Hollywood.
- Policy 3.2: The City of Hollywood shall recommend the denial of future land use map amendments where densities or intensities are increased if:
- 1. Potable water facilities are not available and a consumptive use permit for the FDEP Permitted Capacity from the SFWMD has not been issued; and
- 2. Plans to extend potable water facilities so that they become available are not included within a financially feasible capital improvements program and/or there is not a reasonable expectation that the consumptive use permit will be issued.
- Policy 3.3: As an alternative to new potable water facility construction, the City of Hollywood shall identify opportunities to increase the efficiency and optimize the use of existing facilities.
- Policy 3.4: The City of Hollywood shall encourage the use of coordinated regulatory and programmatic approaches and financial incentives to promote compact, efficient urban growth patterns.

Objective 4.0: Conserve and protect potable water resources with primary focus on the Biscayne Aquifer by optimizing the utilization of water resources through effective water management practices.

- Policy 4.1: The City of Hollywood shall develop a basin-wide water management ✓ protocol that optimizes flood protection, water quality, stormwater storage, wetlands sustainability, and groundwater recharge functions while protecting groundwater from saltwater intrusion. By assessing the existing surface water management system, wellfield characteristics, groundwater levels, saltwater intrusion limits, flows and canal stages a model will be developed to better utilize the water resource.
- Policy 4.2: The City of Hollywood shall continue to coordinate with the independent Drainage Districts and the SFWMD to investigate application of the basin-wide protocols throughout the county where appropriate.
- Policy 4.3: The City of Hollywood will cooperate with Broward County to develop a plan to maintain the Centralized Wellfield System to protect and maximize the raw water supply while protecting the Biscayne Aquifer from further saltwater intrusion.
- Policy 4.4: The City of Hollywood and Broward County shall continue to maintain Chapter 36, "Water Resources and Management," Article II, "Water Emergencies," Section 35-55, "Restrictions on Landscape Irrigation," Broward County Code of Ordinances, which imposes year-round, county-wide landscape irrigation restrictions.
- Policy 4.5: The City shall enforce the landscape regulations, which include zoning, functional landscaping, and xeriscaping ordinances. The City will also address the SFWMD's xeriscaping guidelines.

The Broward County Board of Rules and Appeals has approved the standards for ultra-low plumbing fixtures at 80 psi, effective September 1, 1992 in Broward County.

Chapter 5: Assessment of Broward County Land Use Plan (Volume 1)

ATTACHMENT 7

OBJECTIVE 5.04.04 and DEFINITIONS BROWARD COUNTY LAND USE PLAN

Adopted by the County Commission on June 24, 2008

II. GOALS, OBJECTIVES AND POLICIES

OBJECTIVE 5.04.00

PROVISION OF OPEN SPACE

Establish an extensive system of public and private open space areas including natural reservations, parks, beaches, scenic vistas, golf courses, and waterways compatible with the tropical and resort character of Broward County.

POLICY 5.04.01

Local governments shall pursue programs, including acquisition of open space areas from willing sellers that will ensure the provision of and access to open space areas consistent with their adopted comprehensive plans and the Broward County Land Use Plan.

POLICY 5.04.02

Residential and non-residential areas, including downtown areas should be encouraged to provide open space and other passive recreation areas.

POLICY 5.04.03

POLICY 5.03.02	Broward County shall seek partnerships with federal, state, regional and local government entities, and public and private schools and universities, to design, fund, and construct integrated, convenient, safe and accessible pedestrian and bicycle facilities.
POLICY 5.03.03	Ample and secure bicycle parking should be incorporated into non-residential and mixed use redevelopments. The bicycle parking should be consistent with the Broward County "End of Trips Facilities Guide."
POLICY 5.03.04	On-road bicycle facilities networks shall connect to trip generators and greenways and trails systems throughout the county.
POLICY 5.03.05	Local governments should include within their development codes and regulations incentives for constructing safe and accessible pedestrian and bicycle facilities, pathways and greenways throughout Broward County, in a manner generally consistent with the Broward Complete Streets Guidelines, or equivalent principles.
POLICY 5.03.06	To increase bicycle commuting, Broward County shall encourage local governments to develop the ordinances and regulations encouraging employee showers and lockers in new and redeveloped commercial and industrial development.

OBJECTIVE 5.04.00 PROVISION OF OPEN SPACE

	system of public and private open space areas including natural ches, scenic vistas, golf courses, and waterways compatible with the eter of Broward County.
POLICY 5.04.01	Local governments shall pursue programs, including acquisition of open space areas from willing sellers, that will ensure the provision of and access to open space areas consistent with their adopted comprehensive plans and the Broward County Land Use Plan.
POLICY 5.04.02	Residential and non-residential areas, including downtown areas, should be encouraged to provide open space and other passive recreation areas.
POLICY 5.04.03	Broward County shall strongly encourage the preservation of open space areas. Amendments to the Broward County Land Use Plan which would result in the loss of open space shall be strongly discouraged and be required to address how open space and recreation needs of the existing and projected residents of the community will be met, including how the negative impacts of the loss of open space on surrounding neighborhoods will be minimized or mitigated.

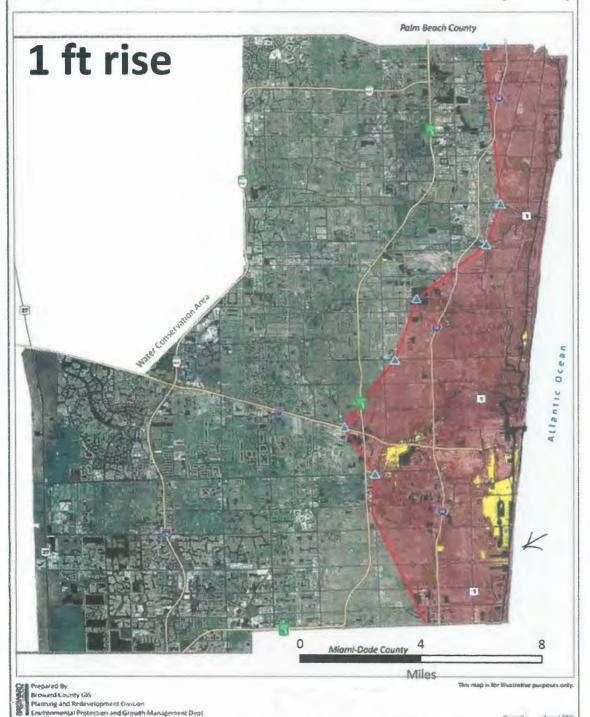

Broward County shall strongly encourage the preservation of open space areas. Amendments to the Broward County Land Use Plan which would result in the loss of open space shall be strongly discouraged and be required to address how open space and recreation needs of the existing and projected residents of the community will be met, including how the negative impacts of the loss of open space on surrounding neighborhoods will be minimized or mitigated.

POLICY 5.04.04

Amendments to the Broward County Land Use Plan containing golf courses, including closed golf courses, shall address the following:

- a. The impact of the loss of open space on the surrounding residential areas. The loss of open space must be mitigated through provision of parks and open space to serve the surrounding neighborhood.
- b. Management of storm water retention taking into account the extent to which the golf course provided storm water retention for the surrounding development and how this will be mitigated, along with any additional storm water impacts created by the new development.
- c. Minimization of the impact on natural resources including wetlands, lakes, aquifer recharge areas and the tree canopy, including any historic trees on the site.
 - d. Mitigation of environmental contamination. The level of environmental contamination must be determined by conducting a Phase 1 and Phase 2 environmental assessment.
 - e. Integration of the proposed development with the surrounding areas including how the development will tie into the existing neighborhoods through roads, sidewalks, parks/open space and greenways.

AREAS AT RISK OF TIDAL FLOODING DUE TO SEA LEVEL RISE (1 FOOT)

APPRAISAL REPORT PREPARED FOR:

MR. FRED HOPKINS REAL ESTATE DIRECTOR, CITY OF HOLLYWOOD 2600 HOLLYWOOD BLVD HOLLYWOOD, FLORIDA 33020-9045

APPRAISAL OF SUNSET GOLF CLUB LOCATED AT 2727 JOHNSON STREET HOLLYWOOD, FLORIDA

> DATE OF INSPECTION MAY 3, 2014

> DATE OF VALUATION MAY 3, 2014

PREPARED BY: L. B. SLATER & COMPANY, INC. HOLLYWOOD, FLORIDA 33020

SUMMARY OF SALIENT DATA AND CONCLUSIONS

PROPERTY TYPE: Golf Course/Recreational

LOCATION: 2727 Johnson Street Hollywood, Broward County, Florida.

INTENDED USE & INTENDED USERS

OF THE APPRAISAL: The assignment was performed on behalf of Mr. Fred Hopkins, Real

Estate Director City of Hollywood. The intended use of the appraisal will be to assist the City of Hollywood in determining current market

value for a possible purchase decision.

PROPERTY RIGHTS

APPRAISED: Fee simple

LAND AREA: Approximately 45.76 acres or 1,993,590 SF (Hopkins Plat Book)

ZONING: OS- Open Space. Current use - 9 Hole Public Golf Course (closed)

HIGHEST AND BEST USE: Residential

MARKET VALUE ESTIMATES: \$915,000 (As Is)

\$4,800,000 (As Proposed)

MARKETING PERIOD: Twelve to Eighteen Months

FINAL DATE OF INSPECTION: May 3, 2014

DATE OF VALUATION May 3, 2014

DATE OF REPORT: June 3, 2014

VII. FINAL RECONCILIATION

Reconciliation is the process of evaluating each of the conclusions derived from the approaches put to use in the appraisal to arrive at a final estimate of value. The three approaches to value were initially considered. However, due to the type property being appraised and the client's scope of work, the subject was valued utilizing only the Direct Sales Comparison Approach. The value estimates are as follows:

APPROACH	VALUE
Cost Approach:	Considered, but not applied
Income Approach:	Considered, but not applied
Direct Sales As Is:	\$915,000
Direct Sales As Proposed:	*\$4,800,000

Based upon our analysis of market data germane to the date of valuation, it is our opinion that the market values of the fee simple interest in the subject property, as of May 3, 2014 is:

Fee Simple Land Values "As Is" and "As Proposed" subject to the *extraordinary assumption noted below:

NINE HUNDRED FIFTEEN THOUSAND DOLLARS (\$915,000)

FOUR MILLION EIGHT HUNDRED THOUSAND DOLLARS (\$4,800,000)

↓ *FILL DISCOUNT

The subject is approximately 2 feet below grade and requires fill, if developed as proposed. This is a cost a potential buyer would normally absorb in order to maximize use of the entire parcel. According to Rex A. Nealis of White Rock Quarries WPB, the cost to "fill" the subject's 45.76 acres is \$4,100,0000+/- (approximately 260,000 tons). This price is FOB our quarry and includes sales tax, delivery, but not spreading, placement or demacking of the parcel.

Therefore, this expense was reflected accordingly:

Estimate of value "As Proposed" \$8,900,000 - \$4,100,000 (cost to fill) = \$4,800,000

APPRAISAL REPORT

PREPARED FOR

Mr. Frederick J. Hopkins Real Estate Director City of Hollywood 2600 Hollywood Boulevard Hollywood, Florida 33022

APPRAISAL OF

Sunset Golf Course 45.30 Acres 2727 Johnson Street Hollywood, Florida 33030

DATE OF VALUATION:

May 5, 2014

DATE OF REPORT:

June 2, 2014

Prepared by

Lewis Appraisals and Consulting, Inc.
Robert A. Lewis, MAI, PhD
3620 Farragut Street
Hollywood, Florida 33020

Mr. Fred J. Hopkins Director of Real Estate June 2, 2014

The subject property is now a closed nine hole golf course containing 45.30 acres with two improvements located on the site. The first is a one story club house and the second is a two story building used as a garage and an apartment for the maintenance man. Both improvements were in fair condition and contribute little to the value of the property.

We are valuing the property as suggested by the City of Hollywood Planning Department represented by Jaye Epstein, Director of Planning and Zoning and Fred Hopkins, Director of Real Estate, that the site be divided such that half would have a density of 5 units per acre for single family homes and the other half would have a density of 9 units per acre and have townhomes. We are also assuming that the east and north sides of the property would have a sixty five foot wide berm separating the new homes from the older neighborhood. The berm would be used for recreational purposes. This value would provide an estimate of value of the existing land if it could be developed by a developer.

We are also valuing the property as if it were a functioning golf course and also if it were a closed golf course and it was being or planned to be developed. The subject property theoretically could be developed, but due to neighborhood residents outcry, the current lessee, a home developer relented and decided not move forward with development plans.

As of May 5, 2014 estimate the value of the Fee Simple Market Values to be:

Estimated Value as a Functioning Golf Course "As Is"
Estimated Value with Rights for Residential Development

\$725,000 \$3,380,000

Robert A. Lewis, MAI, PhD Certified General Appraiser No. RZ295

Alla Chair

Darryl Peck

Surry Prek

Certified General Appraiser No. RZ 3071

RECONCILIATION Continued

The final estimate of value is based upon the middle figure of \$3,000,000, rounded. This estimate is based upon 3.5 feet of muck. Since we did not receive soil tests, this is a hypothetical assumption. If soil tests are available in the future, we reserve the right the change our estimate of value.

In summary, the final estimates of value are:

Estimated Value as Functioning Golf Course "As Is" \$725,000

Estimated Value with Rights for Residential Development \$3,380,000

Peter Bober Mayor

March 20, 2014

Dear Residents and Neighbors:

As I mentioned in my letter of yesterday's date, after expressing my frustrations and concerns regarding a proposed development on the Sunset Golf Course, I was subsequently advised of the developer's intention to abandon the current development proposal. Alas, a temporary reprieve.

My concerns with the project were many. I was concerned that Johnson Street and its infrastructure would be unable to support intense development on the Sunset Golf Course site. I was also concerned that traffic backups and flooding unique to that area would create problems not only for adjacent property owners, but for the many residents who traverse Johnson Street as part of their daily commute. And, finally, I was concerned about the potentially serious environmental impacts that would come from disturbing the unique ecology of Sunset. Having lived in Hollywood virtually my entire life-growing up right down the street from that historic property-I feel I am quite qualified and justified in having these

While redevelopment of older properties in Hollywood is a worthy goal, it cannot come at any price, at merely any location. Simply put, Sunset has unique challenges that make its redevelopment difficult and financially impractical even under the best of circumstances. Therefore, and as a result of the foregoing, under no circumstances will I support a redevelopment of Sunset Golf Course unless for uses consistent with open space, park space or recreational green space. Instead, I will actively oppose any contrary use, including uses for residential development.

While I am certain we can insure a bright future for Sunset, it will require innovation, creativity, a desire to think outside the box and most importantly, hard work. I, therefore, want to hear from residents on this subject. While I have my own thoughts, if you have a concrete idea for what you would like me to pursue for Sunset in the future, I hope you will email me at pbober@hollywoodfl.org. The reality is that Sunset may be unable to continue operating as a for-profit golf course due to the difficult economy. Therefore, the time for new ideas is now.

As the leader of this great city, I am duty bound to insure we strike the right balance between the need to modernize and redevelop, with our corresponding need to preserve the quality of life our residents enjoy every day. Thank you for your time, and for allowing me to serve you.

Peter Bober

Mayor

Our Mission: We are dedicated to providing municipal services for our diverse community in an atmosphere of conperation, courtesy and respect. We do this by ensuring all who live, work and play in the City of Hollywood enjoy a high quality of life.

PROTECTING PROPERTY RIGHTS TO REDUCE LIABILITY

Local boards and officials who act to protect their communities from flood hazards may face two types of legal challenges. An owner of land in a floodplain may challenge zoning or other regulations limiting the use of that land as an unconstitutional "taking." Other land owners, whose property has been damaged by flooding, may claim that the municipality is liable for the damage because it was caused by municipal action or inaction. Careful local planning and regulation is the best defense to either challenge.

The "Takings" Clause

Courtesy of www.archives.com

The Fifth Amendment to the United States Constitution guarantees that private property shall not be taken by the federal or a state or local government for public use without just compensation (the "Takings Clause"). Chapter I, Article 2, of the Vermont Constitution provides a similar protection. In deciding cases under either Constitution, the Vermont Supreme Court looks to the U.S. Supreme Court's Fifth Amendment decisions. See Chioffi v. City of Winooski, 165 Vt. 37, 676 A.2d 786 (1996) (U.S. Constitution) and Killington, Ltd., v. State, 164 Vt. 253, 668 A.2d 1278 (1995) (Vermont Constitution).

Regulations that "take" *some* of what citizens think are their property rights are often derided as being unconstitutional "takings". Many attempts at even mild land use regulation run aground against angry landowners or developers arguing that they have an absolute, constitutional right to build on property. But, while claims like this may sound scary to volunteer local officials, there is no such absolute constitutional right.

What is a Taking?

Eminent Domain. In the classic Takings Clause case, the government condemns and takes title to property for a public use by eminent domain under a law that provides a method of determining the compensation to be paid. For example, under 10 V.S.A. §§ 958-959, the Vermont Department of Environmental Conservation may use eminent domain proceedings to take land necessary for a flood control project.

Page 1

a H I FO

What is a Taking? (cont'd)

Regulatory Takings. Courts also recognize that a regulation that doesn't involve eminent domain proceedings may have such a significant effect on property that it is a taking under the Fifth Amendment. landowner The compensated for such a "regulatory taking" by bringing action for "inverse a court condemnation." In the recent case of Lingle v. Chevron, 544 U.S. 528 (2005), the United States Supreme Court significantly narrowed the opportunity for regulatory takings challenges, saying that a regulatory taking would be found only when the effect on the property owner was the "functional equivalent" of the actual taking of title by eminent domain.

Courtesy of www.supremecourtus.gov

The Court defined four categories of regulatory takings as identified in its prior decisions:

1. Government has physically occupied the property permanently (Loretto v. Teleprompter Manhattan CATV Corp., 458 U.S. 419 (1982)). For example, a municipal activity diverting water that floods private land. See Sargent v. Town of Cornwall, 130 Vt. 323, 292 A.2d 818 (1972) (diversion of natural stream by clogged culvert).

- 2. Government regulation or action has denied all economically viable use of the property (Lucas v. South Carolina Coastal Council, 505 U.S. 1003 (1992)). For example, regulations denying the right to build or conduct any activity in a flood plain. The landowner must prove that there is no alternative use that would preserve some value for the land. Courts have found various alternative uses that sustain floodplain regulation. See Gove v. Zoning Board of Appeals, 444 Mass. 754, 831 N.E.2d 865 (2005) (open space). Moreover, under Lucas even where regulation deprives land of all economically beneficial use, no compensation may be due if the purpose is to prevent a dangerous use. See Mansoldo v. New Jersey, 187 N.J. 50 (2006).
- Government action has a significant economic impact on the land owner and also has an effect on the owner's "investmentbacked expectations" or imposes an undue burden on the landowner (Penn Central Transp Co. v New York City, 438 U.S. 104 (1978)). For example, regulations that permit only certain uses in a flood plain. Courts have recognized the public hazard created by developing flood prone areas, to the occupants, to up and downstream owners, and to the public generally because of increased costs and have generally held that mitigation of this hazard outweighs reduction in property value. See Gove v. Zoning Board of Appeals and Mansoldo v. New Jersey, cited above; Krahl v. Nine Mile Creek Watershed District, 283 N.W.2d 538 (Minn. 1979) (filling would create flood danger).

4. Government action imposes conditions on the grant of a permit that are not linked to the governmental power to deny a permit (Nollan v. California Coastal Commission, 483 U.S. 825 (1987)) and not "roughly proportional" to the purpose impact of the development (Dolan v. Tigard, 512 U.S. 374 (1994)). For example, a requirement of an easement for flood waters. See Smith v. Town of Mendon, 4 N.Y.3d 1 (2004) (approving conservation easement restricting development in flood hazard area).

Courtesy of www.mass.gov

Should I Worry? Not for the reasons you may think.

Developers and landowners may attempt to use takings litigation (or the mere threat of litigation) to persuade government officials to relax or abandon land use controls designed to regulate development in a flood hazard area. However, as the previous discussion suggests, the threat of takings liability is more myth than reality. In reality, courts will support carefully drafted and applied floodplain regulations against Takings Clause challenges.

State and local governments are more likely to be successfully sued for engaging in activity (such as failing to enforce regulations, or in a few states, allowing development) that causes or exacerbates damage in future floods than for prohibiting such development. See, for example, Bragg v. City of Rutland, 70 Vt. 606 (Vt. 1898) (city liable for damages resulting from drain obstruction); Alger v. Department of Labor & Industry, 917 A.2d 508, 2006 VT 115 (2006) (failure to enforce housing code could be taking); Hutcheson v. City of Keizer, 8 P. 3d 1010 (Ore. 2000) (liability for approval of subdivision plans that led to flooding).

Notwithstanding the rhetoric of the property rights debate, local officials are the true defenders of property rights. The overwhelming majority of property owners in the United States are homeowners whose interests are protected and property values enhanced by local zoning and other land use controls.

Communities should be more concerned about liability for assisting or permitting poorly planned development that harms others than the risk of being sued for preventing that harm in the first place.

If towns build a proper record of the adoption of their regulations and actions on permit applications; work closely with the municipal attorney, the state floodplain coordinator, your regional planning commission, and other land use experts to address real hazards; avoid unduly severe economic hardships; and proceed in a fair and equitable manner, you should prevail in court or avoid costly litigation altogether.

Meeting Minimums is Not Enough

Community leaders may believe that adopting the minimum regulatory standards under the National Flood Insurance Program will protect them from liability from both fronts of concern: developers threatening takings litigation and landowners at possible risk of damage in the next flood. Unfortunately, they may be wrong on both counts.

FEMA itself supports the adoption of higher regulatory standards than it promulgates. Communities may adopt such higher standards without incurring takings liability if they carefully follow the procedural steps suggested above. Communities that fall back on just the minimum federal standards may allow diversion of floodwaters onto other properties, loss of channel conveyance and storage, and an increase in erosive velocities, all of which may make the community liable under the Takings Clause or for negligence.

Ultimately, any new development that is allowed to adversely impact other properties may make the community liable, even if minimum standards are met. Therefore, it is incumbent upon local officials to adopt flood regulations that truly do protect their communities, then administer these fairly and consistently, and enforce them when need be.

Subject: Re: Hollywood adventure park w/ attachment

Hi Mrs. Caputo, I am so happy your have emailed me. i have been trying to track down your email. i hear allot about what you have been doing. i am familiar with your work when the prior ownership planned to develop buildings and destroy the land and the important role that land plays to the city and our world.

to give you a little back ground on me. i am a former US Marine and Israel special forces as well served in a joint police unit n Israel. i was A detective many years ago also. my skills are in investigation and tracking down information and people. i returned to the USA Oct 2014 after 7 years in the middle east. i came to Florida to take over a real estate investment and management company and have become more involved here in Hollywood. I come from a long political and military family. i take great pride in giving back to what ever community it live in and helping to find solutions. we must prevent strife and conflict among or fellow people. i see your struggle to save the earth. many of the residents ask for parks to spend time in and enjoy nature. I would like to invite you to my home and see what i am doing my self. i have planted many trees on my land and take on the task of rehabilitating the soil that as we are all familiar with very infertile and contaminated.

Regarding the Sunset Golf course. i have done my digging and i am aware of every person in the limited partnership that owns the land. Giovanni is fact a partner in the Limited Partnership. regarding his investments and the such i can not speak about another mans life what one does or does not do as much as i can about your life, between god and you are the only people that know what you do. Giovanni is building a park that is preserving the land. no trees will cut down, in fact trees will be planted. the small water canals will be cleaned once more and allow for fish to thrive and water to flow, it will prevent flooding in the area as well as allow for better water life to live along the canals on the property.

I seen a drawing not yet published, that i have made comment to our honorable Mayor Josh Levy. that the drawing shows a large botanical garden or park area to be for public use along the east and northern sides f the property. i Hear way to often about a paintball park being built, this is a political move to

tarnish the idea of what going on the land. the majority of the land is soccer and trails, BMX etc... everyone uses the term extreme park to try and make a point that is false. i feel that the anti park campaign is in fact providing misleading information about the park to an end we know not of yet. the save sunset group talks only about paintball, traffic, green space, flooding.

Paintball is a small part of the new park, do not compare to another park in another state, as you said he doesn't own anything so why say he will build another park like he has in California.

Traffic, Johnson street is a main road, the city has had plans for the last few years to re-due the road, further Giovanni has offered land to assist in the widening. Hollywood was designed to be a city of the future not a city stuck in 1940, at I-95 the state plans to widen the highway, i have proposed the state put ramps from Johnson street to 95 only to exit onto 95 but not allowed to enter Hollywood from Johnson street. this would allow for better traffic control from the whole area for all residents in the morning traffic.

green spaces. all the land will be preserved and better managed. the Soccer field are just that Fields of Green. as well as i repeat saving the green areas. Giovanni and his company are in the business to make money, it is in the best interest to Giovanni to preserve the land as the customer would like to see it as in the end as a business person you want to sell what the customer wants to buy.

flooding, the county has not dug the canals leading to the flooding now damaging the homes around the course. the water gathered into the canals has the potential to be used for irrigation rather then being dumped into the canals leading to the lakes and ocean. with the potential for a botanical garden on the property the water would be reused to sustain the gardens.

The needs of the public out way the wants of a few. the Public needs this park for many reasons. regardless that between Johnson street and Hollywood Blvd is a massive community park on the lake no less then 50 yards from sunset that is unused. the people want this park. why? because its more then grass and trees. it offers all that along with activities, Job, Hundreds of jobs, millions of dollars to go into the community during the construction alone not to mention the millions spread out to the community in the services needed by the park.. not to mention the benefit to the city as we are facing a debt from the pension fund. the park could offer a relief in the overwhelming amount of traffic congesting the beach area, not to mention residents needing more then a beach to go to on the day off. as well the attractions will bring new money and residents to Hollywood to buy homes and invest in the city. the park will also play a role in city events and community reunification as well provide an area for police, firefighters and other first response units to use as training grounds. the park will offer a venue for fund raising for schools and community groups just like yours that could be used to save others green spaces.

one issue that concerns me is kids, kids have to pay to play in almost every venue here in south Florida, the park offers cheaper rates and scholarships. it will offer a bigger venue for kids to be seen by schools that would offer scholarships to kids that would be unable to afford a higher education. we must see past the wants of a few people and think of the greater good to all residents and the community.

Karen, your group is important, it is important that we have people like you to fight, it is because of you and your group that Giovanni came and invested to Hollywood. i seen the video of all the supporters for the park. they all said they want football, soccer, water parks, and walking paths. i seen the petition your group started to stop apartments from being built, it asked for parks as well and family events to be put on the golf course. Giovanni came to build exactly that because of the work you have done to stop the destruction of the land for housing projects. i thank you for that. because of your work years ago we will have a park that every resident will enjoy. Kids and adults will have healthy activities like biking instead of video games and TV. i hope to see a garden with beautiful trees, exotic trees, flowers, mango's,

bananas, avocados. and many other plants that might even be able to be used to feed to needy and hungry in the area. can you imagine a botanical garden that would help feed to community?

Karen please feel to reach out to me and come stop by, see my gardens, and the methods i have used to stop the flooding at my house.

with great thanks and admiration, Frank Johnston

P.s. i think its time we redirect or efforts away from the Hollywood adventure park and to the Yellow Green market. to get it open all week. the market is a great venue for residents to meet and hang out while shopping and supporting local growers as well the market provides a platform for small business to start up and create jobs and revenue for the residents. lets help the Yellow green market. i would love to work with you in getting signs directing people to the market, as well as getting the county to allow the market to stay open daily as a need of the public.

Mr. Johnston,

We have been given a courtesy copy of the email you sent to the Civic Associations on Thursday. You are being conned.

Giovanni D'Egidio (or Giovani) did not buy Sunset Golf Course. He owns nothing at 2727 Johnson Street. His claim to have invested five million dollars is a fabrication that he has put forward in verbal threats to sue the City. He has no standing to sue anyone.

If you did just a little research you would know that there is no entity named "Hollywood Adventures Park". What we did find, so far, is that Giovanni D'Egidio is not the owner, partner, director or manager of any sports park (or any business enterprise of any kind) anywhere in the country.

His claim that we won't meet with him is a fabrication. The residents have met with him several times and have let him know that we don't want a paintball facility in the middle of our neighborhood. His claim that he doesn't know what we want is also unfounded. He came to us with an annotated copy of a presentation (attached) that the residents gave to the City in 2015, so he knew up front that it would not be paintball.

If he has any entitlements, he will be given due process by the City.

Subject: Hollywood Adventure park

Please find attached a letter regarding the Hollywood Adventure park and pictures.

Here is a link to a site i created with videos you must see https://www.facebook.com/SupportHAP/

the most recent Video is filmed at the Stan Goldman park where at the end i come upon a group heating up heroin and getting read to inject, smoke or how ever they take it. the park is a disaster. the mosquito population at the park is out of control all the while a well funded privet company practical next door to the city park will offer a better option to the public. please watch the videos and see for your self. I have linked local police to the video so the can address the issue now realized threatening our community. so on a side note from the HAP Park. thanks for cutting police budgets and making it so much harder for or men and women in uniform to protect us, because we all know have assistants and aids is more important when it comes to city and county budget.

no matter what department no matter what city, or even county. public safety is number one. we need a budget and to be able to afford it, HAP will help to create a solution for Police budgets, and public safety threw revenues as well as simply providing a safe place with security. a place where local cops can meet and interact with locals to create a better community where the people feel a bond with the guardians of our city. we need to start to see the people backing up the men and women in Blue. HAP will give this city and county a new beginning.

a few pictures of resident from Johnson and 24 th, to Johnson and 26 street supporting the park, resident on Arthur at the NE corner of the park all resident have our sign and support the park as well as resident down Johnson street and from Garfield next to the park to Grant street from 26th to the park. take a ride, go see what you voters actually think. we have scheduled for latter today to place more sign down Arthur street to residents emailing us they support us (but don't tell Karen Caputo). i will be sending you more pictures of supporters yard signs as well attached is the petition 46 pages

Frank Johnston,	Candidate for Broward Count	y Commissioner	District #6

City of Hollywood Managers, Council members, Commissioners, Mayor and anyone else it may concern

My Name is Frank Johnston, a resident of Hollywood. I have been involved with what has taken place at the property 2727 Johnson Street, or also known as Sunset Golf course. Simply put its not a golf course and has not been for a very long time. I write you regarding how I feel about the whole matter at hand. I support The Hollywood Adventure Park building its park. And a matter of fact so do allot of resident. I have conducted my own campaign for the park as of today I have collected just under 1000 signatures to build this park in just 3 weeks.

It has been made clear that the save sunset group (friends of Hollywood) have done the same starting 3 years ago. They started a petition just like mine. 3 years ago they started collected signatures and have not collected half of what I did in 3 weeks. Not to mention they started the petition to stop the apartment building and save the land for parks exactly what Hollywood Adventure park (HAP) wants to do. The petition they have means nothing because you will see signatures on the petition they have, are now on my petition to build the park. Because that petition started 3 years ago was to stop apartments not a park.

Karen Caputo was sent an email of mine that I sent to city reps. she said I am being conned. Well the fact is she has been conning every one. First residents have told me things Karen and her group are telling them are complete lies. She is a liar, simply put. She runs a fraudulent group that residents have expressed to me the fear they have, physical fear. Those residents are supporting her only because they have a fear of Karen hurting them or doing damage to the property. Some have shown support for us and Karen has taunted them and accosted them in their own homes. Many have said they support us and signed the petition but are afraid Karen will see the yard sign so they won't place it out. This is a blatant act of oppression of our values and rights. All the while our city has supported Karen.

Regarding the facts of the park it's self. Anyone against the park is being ridiculous. The park owners have all right to build and what they plan to build will not hurt our city, but in fact help it grow. I will attach the signatures from my petition as well as photos of the signs of our supporters from Arthur Street to Johnson Street, All resident next to the park. The city has no reason to hold up the owners from building. They are bringing jobs to our city and millions of dollars from day one. This park will offer great opportunities for the city.

Many of my "Support HAP" Signs are placed at homes directly around the park

Do not listen to "save the sunset supporters", I have seen them and meet with them. The ones still supporting Karen's crusade are bitter at the world and have nothing in the day to do but sit at home alone and be miserable. And so they look for things to complain about. And when this

is over they will find someone else to harass. Most of her initial supporters have come to support Hollywood Adventure Park. You see these groups' residents and assume they represent the city as whole, but shame on you. You have not sent out emails asking for resident input or mailings to give feedback. The vast majority of the residents that elected you, you now abandon to support 20 self centered residents. And think they represent me.

2018 is an election year, for those of you that will try and stop this park I will do all with in my power to educate the public of the hundreds of jobs you stopped from coming and the 3.5 million in construction funds that would have gone to local business from day one. And the millions of dollars in vendor contracts that will be gone from local business, because you think friends of Hollywood speak for everyone and you only think of being re-elected. Stop putting Politics over the people.

I have created a face book page supporting the park I will attach a link. I filmed last week during the rains. The excessive amounts of water days after the rain, and still a week after the rains water stands on the land. I filmed drain pipes from the city going into the private land dumping water contaminated with chemicals from streets and septic tanks. The state of Florida has strict laws against this. The state requires the city to prove it has rights to dump on some one else's land. The law requires 3 fold the owners costs to clean it up. If it costs him 1 million the city will by law have to pay 3 million to the owners plus pay legal costs and attorney fees. FSS 403.413

I have contacted state authorities regarding the dumping of contaminated water and uncontrolled water by the city authorities onto private land and they will be investigating this matter as it pertains to elected officials and a governing body possibly in violation of state law. The CDC reported that Hollywood has an unnatural high concentration of mosquitoes in the central area. This dumping is to blame, the city dumping water where they had no right to dump and even worse the city dumped water and didn't take responsibility to manage it. The city dumped like a common criminal in the night dumping trash down the street on someone else house. If the city for a minute thought they had a right to dump, they would have created a management program for the water and supervised it to insure it was disposed of properly but the city has not, they dumped and drove off in the night hoping no one would find them out.

This park will be built if it's today or after the next election, this last election was a wakeup call to Democrats, you have forgotten the silent majority and chosen the loud few. Well this next election the people will see the jobs they lost, civic associations are asking for things and the city offers no solutions. Central Hollywood needs money as does the west. The beach has the tourists. And it's funny but it seems no one in this city talks to each other or really listens. But I do, Hollywood beach is asking for help to slow down the tourism as the beach area cannot handle the increase, they ask for a solution to the young kids on BMX bikes on the board walk. While central is asking for ways to get funding to improve the area.

HAP will solve that. It will divert tourism to the center. And provide a BMX park for the kids on the board walk. See that is a solution. Not creating boards and advisory committees. We need solutions NOW, not banning things or creating groups to create fear (Friends of Hollywood) HAP will solve many issues, it will shrink the city debt, create a more harmonies community. It will provide kids and families with a better life in Hollywood and attract more home buyers and increase business. Hollywood is a city of the future not the past. We live in a city that was designed to grow and be progressive. We cannot allow this city to fall behind. We are losing to everyone around us how much longer will it take before you see this city is collapsing in on its self. I came here 3 years ago and I said to myself, "what a shit hole" I always thought Florida was beautiful. But everything is ugly and decaying. Homes are rotten and falling apart. A major city like this should be ahead of its time. This park will be the spark under our butt to re ignite us into bringing back our founders dream for this city.

So I ask you support this park and let it move forward or it might be the last big thing to ever come Hollywood's way and thus your last term representing the people.

Sincerely,

Frank Johnston, Candidate Broward County Commissioner #6

Hollywood Adventures Park is preparing to build a fun family friendly recreation facility for the entire family in Hollywood, Florida.

Sadly a small group does not want the community to have access to such a fun and safe place, with lots of green space and full of activities for the entire family including: Soccer, Futsal, BMX, Basketball, Dodge-ball, Volleyball, Paintball, Flag Football, Bike Trails, Air-soft, Laser Tag and more.

We, the undersigned, wish show our support for Hollywood Adventure parks great activities for our communities in Hollywood, Florida

- 918. Nick Nardone Lake Worth, FL 2017-06-04 I'm an avid airsoft player and we need more south Florida airsoft fields to encourage people to excercise and get outdoors with friends and family.
- 919. Henry Villasmil Pompano Beach, FL 2017-06-04 Im always in support of people building new areas that bring people and communities together for a sport. Thanks guys!
- 920. javier guerrero Aventura, FL 2017-06-04 I would love to have this kind of activities in here! Amazing!
- 921. Federico astrada Fort Lauderdale, FL 2017-06-04 Nothing better than a place for kids to grow up having outdoors time and fun activities to exercise, as well as adult too!
- 922. Steve Delgado Pompano Beach, FL 2017-06-05 We need more parks

 Joseph Raia Hollywood, FL 2017-06-05 Hollywood needs the beauty and

 water flow preserved. Les settle Hollywood, FL 2017-06-05 Keep it green!

- 923. Paul Dagnino Joliet, IL 2017-06-07 Paintball is an excellent, safe, family friendly activity that millions of people enjoy every year. It provides a significant boost to the local economy and there is no downside to allowing a paintball park in your city.
- 924. Connor McKenzie Oak Creek, WI 2017-06-07 I believe in supporting and promoting thr sport of paintball as a safe, fun, all inclusive activity.
- 925. Lani Fox Oak Creek, WI 2017-06-07 Paintball is a wonderful sport for the entire family to get outside. It's excellent for team building exercises as well. I would encourage anyone who isn't sure about the sport to look into it and become informed on the great many benefits.
- 926. Joseph Copher Holland, NY 2017-06-07 Paintball is LIFE!!!!!!!
- 927. Kevin Millette Willowbrook, IL 2017-06-07 Paintball is statistically safer than golf, with less injuries per player annually. Paintball fields help boost their local economy, drives community interaction, and provides an alternative venue for physical activity for people of all ages.
- 928. Michael McAvoy Homewood, IL 2017-06-07 As a former resident of Florida, I know the need for recreational spaces that aren't specifically amusement parks. As a tournament paintballer, I always appreciate growing the sport (it is a sport). And when I make my yearly trip back to Orlando, I'm always looking for new places to spend my time and money, even if it requires a road trip to visit a new premier facility.
- 929. Adam Burkhart Romeoville, IL 2017-06-07 I grew up playing paintball with my dad and my brother. It has the ability to bring people

together, regardless of age, in a safe and memorable manner. I learned about safety and sportsmanship - from paintball. I have been in charge of a collegiate Intramural Sports program for the past 10 years. During that time, I have personally hosted dozens of sporting events each year. I can say with 100% certainty, organized paintball is one of the safest sports available. Build a better community and a better local economy by allowing paintball into your city.

- 930. Michal Clark Perry, IA 2017-06-07 Because I played paintball for over 14 years I am now 41 and it has been a good release and constructive way of occupying my time versus doing stupid stuff and paint ball players consider each other as family regardless you play against each other or with each other
- 931. Dan Stoltz South Elgin, IL 2017-06-07 Paintball!!
- 932. JONATHAN B ADKINS Huntington Beach, CA 2017-06-07 To grow the community of Paintball and other outdoor sports that brings family together.
- 933. Michael O'Connell Madison, WI 2017-06-07 All of the sports and activities mentioned (including paintball) are safe and fun activities that can be enjoyed by both children and adults of any age. Allowing such a venue is not only a boost to the local economy and an aesthetic improvement over an empty lot but also improves the health and well being of the residents of your community by providing safe and healthy activities for them in a social

- environment being owned and managed by members of your own community.
- 934. Robert Reines Chicago, IL 2017-06-08 Action/Adventure sports are far too often lamented in todays world, as there are so many digital versions of them available for consumption. Lets get the kids out of the basement and out to the park instead. I don't see a single thing in that list of activities that I would want my either of my children (1 and 4 years old) to miss out on in their future. Lets stop discriminating against sports that are, and have been proven to be, legitimate just because they don't appear the same as what we consider mainstream.
- 935. Carlton Maddox Normal, IL 2017-06-08 Paintball is an excellent, safe, family friendly activity that millions of people enjoy every year. It provides a significant boost to the local economy and there is no downside to allowing a paintball park in your city. It has helped me through hard times in an inexplicable way.
- 936. Andrew Rupiper Des Moines, IA 2017-06-08 Paintball was one of the best activities I've gravitated back toward after coming home from a rough last deployment. The teamwork, athletics, and just plain fun are priceless.
- 937. Josh Long Elwood, IL 2017-06-08 People are trying to crush the paintball industry when really we just want to grow the sport and have fun
- 938. David Reyes Chino, CA 2017-06-09 I have never been to Florida, This will give my a reason to go to Florida...

Subject: Hollywood Adventures Park Meeting

Hello,

My name is Giovanni D'Egidio,

I am the open space developer looking to rebuild Sunset Golf into Hollywood Adventures Park.

I have been reaching out to my neighbors around the facility and local service groups in the City of Hollywood.

Receiving valuable input and addressing concerns has been on my agenda. This is my second email to the city commissioners, some of the neighbors concerns were green space,

traffic noise and lighting. These issues will be addressed.

I have completed the PACO process and now I am working on the preliminary TAC review.

It is my hope that I may set up a meeting with you to address further concerns and get your opinion on this project. I am interested in addressing any potential challenges of concerns and would like to include this in my site plans.

I will be in Hollywood soon, May 2nd through the 5th. I would like the opportunity to meet during those days, hopefully that works with your schedule. Please let me know so that we can set up a time to meet.

You can also go to

playhap.com to see our progress.

My cell phone is <u>626-429-4871</u>, you are welcome to call me anytime.

Thank you for your time and I look forward to hearing from you,

My current availability is

Monday May 1 - fully booked

Tuesday May 2 - available after 1pm

Wednesday May 3 - fully booked

Thursday May 4- wide open 8am to 5pm

Friday May 5 - 9am to 4pm

I'm currently meeting with local civic leaders, neighbors, and local service groups, as well as local businesses.

If there is any specific neighbor or service group I should also be meeting with please forward me their info.

Also on May 4th we are organizing another neighbor meet & greet with food and drinks from 5pm to 7pm at the Sunset Golf Pro Shop, to address the last two meetings concerns that we have resolved.

Thank you

Giovanni D'Egidio

Subject: Hollywood Adventures Park

Hello City of Hollywood and Commissioners-

I have been following the progress of the Adventure Park in Hollywood. We think this is a great project and will be a nice addition to the city's recreation offerings.

Our company, PumpTrax USA and Tom Ritz Designs (formerly EliteTrax) is one of the premier bike park, pump track and BMX race track builder in the world.

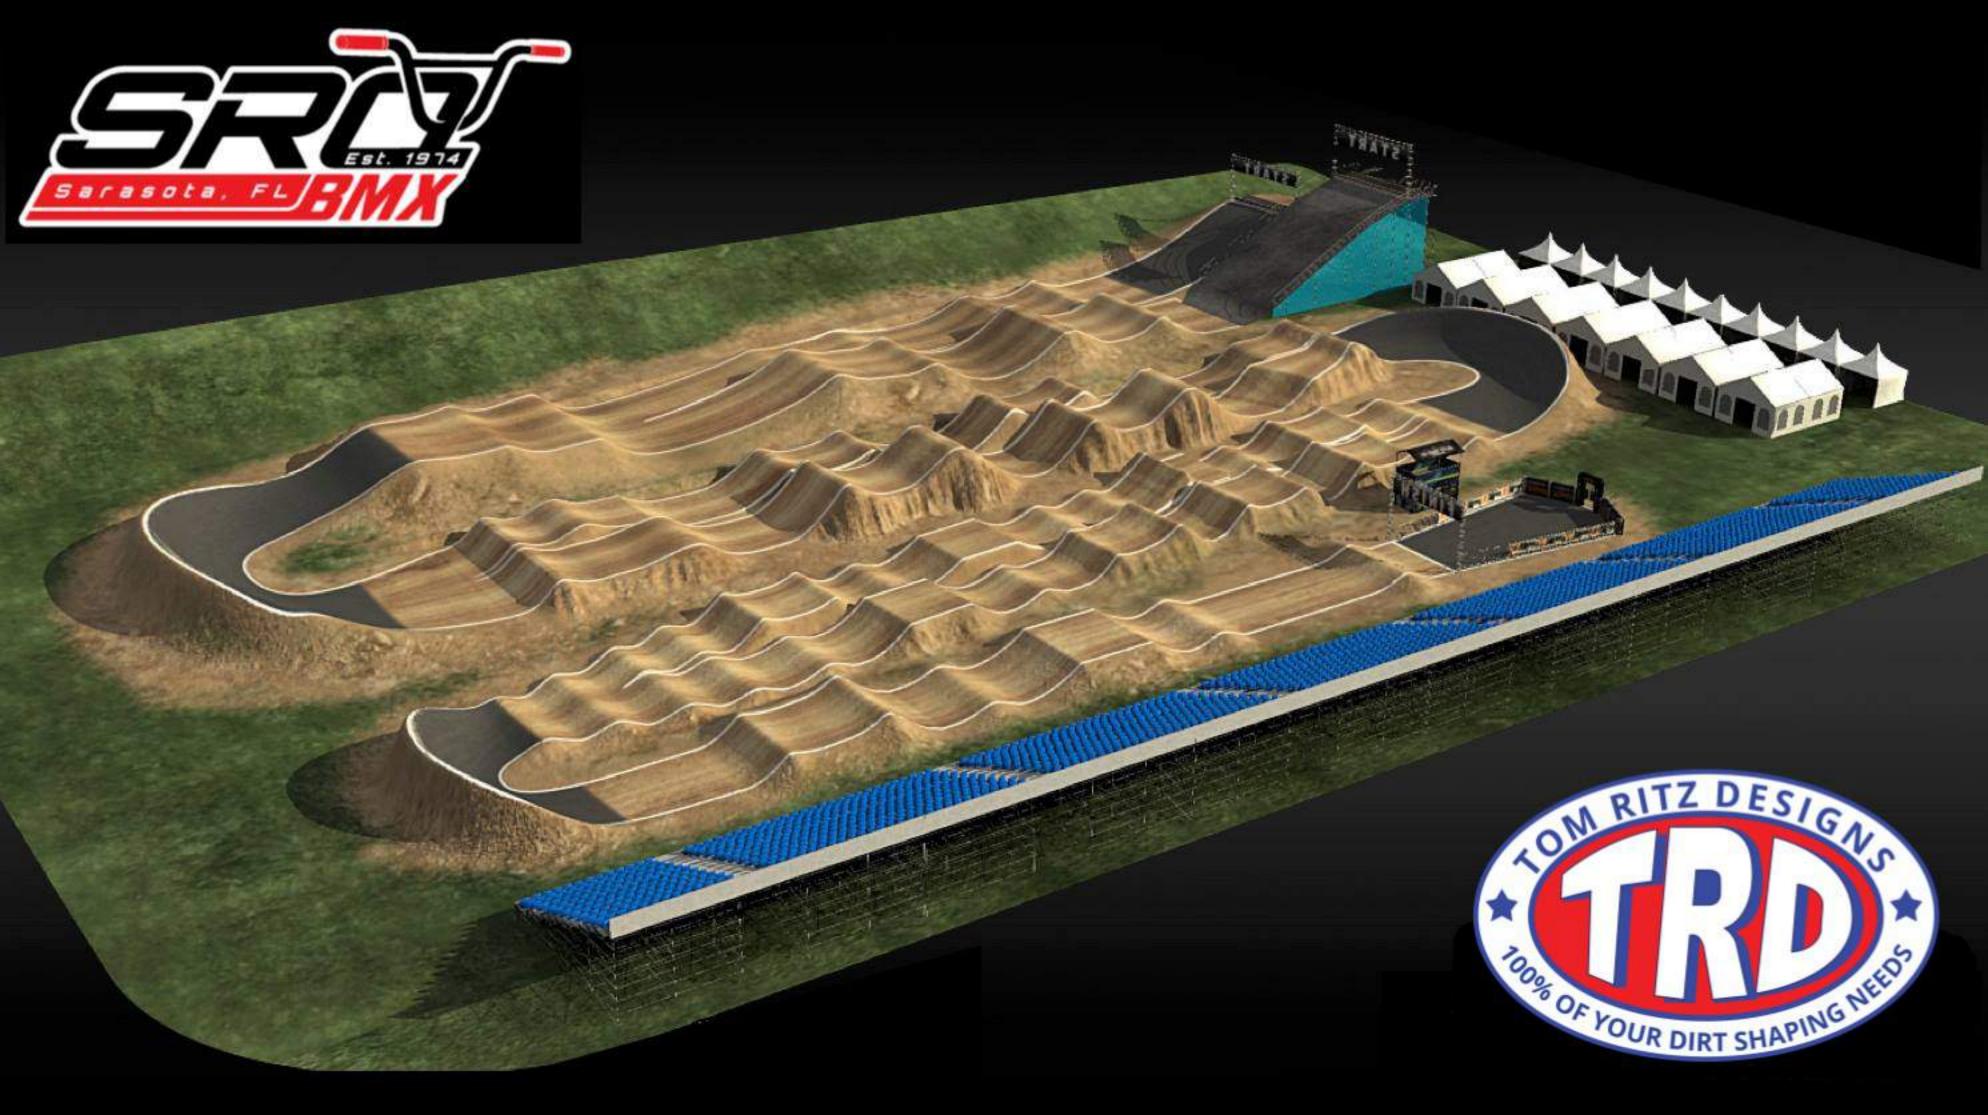

We have built many BMX race tracks in Florida, including the World Cup hosting BMX racing facility in Sarasota and Okeeheelee BMX on West Palm Beach. We have also built the new bike park in the Bexley Housing Community in Land O'Lakes, which is very similar to your Adventure Park.

We have also built the 2008, 2012, and 2016 Olympic BMX tracks (EliteTrax). Our dirt shaping experience is known world wide and professional.

As the Adventure Park moves forward, please keep us in mind for all of your design and construction needs. We are in Florida all the time and we are available for a site visit or meetings.

Jason Schiefelbein PumpTrax USA/Tom Ritz Designs (EliteTrax) 614-302-3725

On Mar 19, 2017 10:08 AM, Terry Cantrell <a href

It is unfathomable to me to think that the City of Hollywood would allow a very inappropriate commercial venture at Sunset Golf Course in the form of an "extreme sports" operation. Yes, the City is desperate for businesses to locate here to help build the economic base but at the expense of our residential neighborhoods?

But as I was thinking about this I realized that the City failed to act on the equally damaging commercial activity known as vacation rentals in 2010 prior to the State law that preclude municipalities from banning this inappropriate commercial activity in a purely residential neighborhood. So I guess the City could turn a blind eye and ear to the residential and taxpayers valid concerns that this type of commercial operation will totally disrupt and degrade the quality of life for surrounding homeowners in central Hollywood just like vacation rentals do. After all, Hollywood residents were shocked when the City failed to act in 2010 on vacation rentals.

Please listen to local residents and respect their concerns. This commercial activity must not be allowed at Sunset Golf Course. Don't make the same the mistake that was made in 2010.

Subject: No development of Sunset Golf

My name is Harold Getting and I live at 2840 Cleveland Street. I oppose any plan for Paintball and other Extreme Sports in or near any residential neighborhood in our City for several reasons. Extreme Sports and Paintball are not compatible with the character of our residential neighborhoods.

Our elected officials need to support the residents as we did them during elections. We do not need the tax revenue from this business!

This proposed site is one block from Oakridge elementary school where the course backs up to Arthur Street. The amount of traffic and noise this initiative will bring is too much. Additional pollution from vehicles combined with pollution from RT 95 will cause an environmental concern. The current roads can not accommodate the existing traffic and congestion. The owner should put this development in his home county of Palm Beach.

Please attach this email to the Application for 2727 Johnson Street so that it becomes public record."

Subject: No extreme sports and paintball thing by the highway at Johnson!

Hi. My name is Ian Kalver. I live by Joe Dimaggio Children's Hospital in Hollywood (Mckinley Street and 40th avenue) and heard there is the possibility of permission being granted to what will end up being an extreme sports and paintball-related company to set up shop at the property of the run down golf course by the highway on Johnson street.

I am totally opposed to this and beyond my opinion it poses risks to the city and other residents. The contamination of the environment that will persist thanks to paint, the noise levels, the dust/dirt being spread around nearby neighborhoods (especially on windy days and during tropical systems), and also the fumes of the paint will impact the neighborhoods around where children play and people walk and live. It's a bad idea. You guys are pro-environment, pro-our health, and pro-keeping Hollywood beautiful (not dusty and dirty), right?

I heard that the person who wants to build there may be concealing their true intent to use the land for extreme sports and paintball and could even be lying to you guys under the guise of making a soccer field. Please investigate thoroughly and do not let the above idea happen.

Also, please attach this email to the Application for 2727 Johnson Street so that it becomes public record.

Thanks, Ian Kalver 754-779-6826

Subject: No Extreme sports

Hello All,

My family lives right off of Johnson and 31st Ct. and the traffic on Johnson street is terrible. There is no need to add any more businesses to my neighborhood that would add to the traffic.

Also, 31st Ct is a cut through for drivers that want to avoid the speed bumps on 31st Rd. Often these drivers do no even stop at the stop signs as they are rushing to Rotary park.

This has got to stop. We need speed bumps on 31st Ct.

Lets engage in a conversation to keep my kids safe. We need speed bumps.

To: Josh Levy; Linda Sherwood; Debra Case; Kevin Biederman; Richard Blattner; Traci Callari; Peter Hernandez

Subject: Proposed outdoor park on Sunset

To our mayor and commissioners:

My husband and I live at 2720 Cleveland Street, Hollywood. We have been walking the Broadwalk and playing on these beaches for nearly 20 years, and feel very lucky to finally be residents of the community we have loved for so long. A little over two years ago, we left a very upscale neighborhood in Pembroke Pines (and a very large house) just so we could be part of this area: we love its character and vibe. In spite of the new developments, hi-rises, and other big-city-type improvements, it seems that Hollywood is one of the few places left in South Florida that still feels a little like an old Florida beach town. We know that there is much growth and changes occurring in our city. We understand that some of these changes are not viewed as improvements by many of the city's long-time residents (Margaritaville, as an obvious example), and although we remain weary, we also remain open. We know that with growth comes positive and negative. The latest proposal for the Sunset Golf course, however, is only negative. There can be no "bottom line" that outweighs the damage such a "park" would do to our residential neighborhood. Living where we do, we are well aware that many of that area still needs some cleaning up. However, allowing a park like this to come to our area will only make those families (like us) simply sell and move and give up on our "little town." Families like ours (which my block is almost completely comprised of) will not stay where there is more noise, more traffic, more dirt, more of all that a park like this would bring. If you allow this to happen, you will simply be pushing out the types of residents you want: people like us, and like three of our other friends who have relocated to Hollywood in the last year and a half, seeking more nature, more beaches, more quiet, more beach-town feel. We won't stay if something like this will be our new neighbor. We will be attending tonight's meeting at the Sunset Golf Course clubhouse. We sincerely hope that the city

makes the right choices with this land in order to continue to improve the city that so many of us love.

Sincerely, Elizabeth and Pablo Aguerre 754-244-4660 754-244-4774 2720 Cleveland Street Hollywood, Fl. 33020

Subject: Re: Proposed outdoor park on Sunset--follow up to yesterday's meeting

Hello again,

If you had not already read my email yesterday, it is attached below. I would like to now follow up after attending yesterday's meeting at the golf course. I apologize for giving you yet another email to read and attend to, but I feel that it would be unfair if I did not give you my opinion after having attended the meeting.

My husband and I still have MANY reservations. We still wish that Sunset would remain green, with <u>absolutely</u> no development.

With that being said, we understand that that may not be possible as time goes on and money is a factor, as it always is.

If the developer were to be held accountable to the residents, as he keeps assuring us he will be, then maybe this would be a lesser evil than a stack of apartments, as was originally fought against.

Many of the residents at the meeting voiced concerns about traffic, environmental issues, and some seemed to have ideological issues with paintball-type activities. Although we agree with all these concerns, we are MOST concerned about the noise and light issues. We live on Cleveland, only a few yards away from the back of the golf course on Arthur. Many of the homeowners that were at the meeting were from that area. As explained in my email below, my family left "the suburbs" of Pembroke Pines to come to a quieter, more nature-based community. Our backyard--like many of our neighbors--is our oasis. If we are sitting there, we should NOT hear soccer parents cheering, BMX bike race announcements, or see lighting from the park. When I asked the developer, directly and pointedly, what his hours would be, he said there should be absolutely no noise or "movement" until 11:00 am the earliest on weekends and no later than 7 pm at night. However, this does not match the hours listed on his website promoting the park, nor does it even come close to the hours of his LA park.

We, the residents, want to see progress and improvements. We want more money, more jobs, more positive things to come to our city. But this can not happen at the cost of quality of life for its residents.

As this continues to move forward with meetings, we respectfully demand that you, our leaders and advocates, ensure that the developer will keep to his word and create a facility that does not impede, in any way, with our lifestyle.

Many of us are willing to be open-minded and look for the positives, but the developer must be held accountable and you must keep us, your constituents, at the forefront of your minds and your decisions.

Thank you. Sincerely, Elizabeth and Pablo Aguerre 754-244-4774 2720 Cleveland Street Hollywood, Fl. 33020

Dear Mayor Levy, Commissioners and City Clerk,

I am addressing you as a 20 year plus resident of Hollywood. I live at 1524 N. 28th Avenue across from the

Oakwood Elementary School. I oppose any plan for Paintball or other Extreme Sports in or near any residential neighborhood in our City.

It is not compatible with the character of our neighborhoods. It would negatively affect the resale values of the homes in the neighborhood and the greater.

City of Hollywood would lose face in the outlying communities. The cost of letting the wrong venue into our home turf will be more costly than any possible tax revenue.

If you wouldn't like to live next to it, you have to realize that it is not good for the community.

Please, do not let the City of Hollywood get taken advantage of. Also, please attach this email to the application for 2727 Johnson Street so that it becomes public record.

Respectfully,

Laurie Ehrenfeld

1524 N. 28th Avenue

Subject: Speaking at Your Meeting

Dear Cliff Germano,

I would be grateful for the opportunity to share my project with you at your civic meeting, June 27.

I do understand this is a contested project and in light of that I will be all the more considerate to your guests and the emotions and fears they bring with them in hopes of an open discussion. You

may share with them the basic plan for the potential project so all guest can hear it first hand. I believe my project is a great fit for the open space recreation property we own. This is the best alternative to the other approved uses. It is my impression, that the community in hopes of botanical garden or the like has understood the property to be owned by the public but it is not owned by the city, county, or state. I am extending the conversation to all neighbors in order to bring truth and understanding about this potential project.

Your venue would be great place for this discussion. I am happy to provide food, drinks, and desert. It will be a short, brief and to the point. The discussion will cover but isn't limited to the following topics:

- 1. The huge buffer zone to control sound and lights for our neighborhood.
- 2. Street views will be green trees you will not be able to see any activities and it will promote outdoor green space.
- 3. I will keep the waterway intact as it is now.

We just received all the certified records, deeds, the encroachments, easements, and certified canals. Currently, there are no records approving or certifying the water running from the North East side and the canals. Though it's not approved we will work with the city and neighbors to keep them running.

- 4. The open green space will remain and be improved. We will be adding more trees, shrubs, and vegetation.
- 5. The other approved options for the project's property. Currently they are camp grounds, and special exemptions cemetery.

That is a brief summary of topics I wish to present at your meeting. I appreciate your support in starting a conversation of the benefits of the potential project in Hollywood.

In my third attempt to reach out to I am looking forward to response. Thank you for your time and consideration.

Also, I have to book flights and your timely response is much appreciated.

Best, Gio D'Egidio

Subject: Sunset - Bio-Degradable Paint and Other Comments

Good Morning Kevin,

Thank you for your insights yesterday.

You mentioned that the paint is bio-degradable. It's illegal to dump "any substantial substance" anywhere in the City. There is no exception for "bio-degradable". Perspective: Try to get a permit to dump bio-degradable paint in your back yard.

City and County Ordinances are even more stringent as it pertains to storm water basins. I doubt that the County would issue a permit for dredging Sunset without at least a conversation with our Mayor.

FYI, you did not speak with the owner of the property. You spoke with a potential Lessee. He has no investment. His sole outlay thus far is to have painted the rusty cover over the old golf cart carport.

He said that the kiddle burger-joint facade was't attractive but that was by design. His plan is to use it as a 24 hour party house. It will not be open to the public, just private parties by reservation.

He said his wide parking spaces for wheelchairs (?) are really for 40 passenger bus loads up from Miami, going directly back to Miami after he sells them paint by the pound and by the hour and empties their pockets.

The Lessee admits that he is not improving the building so he doesn't have to bring it up to code.

He says in other venues that he contracts with EMT's because he has a lot of injuries.

There is no upside for the City. It will still be an Open Space District, so there will be very little increase in our tax base to pay for the increased need for services.

ACM Zambrano,

Municipal jurisdiction over Sunset Golf Course is provided for in four (4) Sections of the Florida Statutes and three (3) Sections of the Florida Administrative Code. The Florida citations are found in the City's Code of Ordinances under *Title V: Public Works, Chapter 54: Stormwater Management.*

Fifteen (15) of the definitions in Chapter 54 describe Sunset as it is now and as it has functioned for decades. They are highlighted here in green.

Thank you for your attention to this email.

Karen Caputo

§ 54.01 PURPOSE.

The city maintains a system of storm and surface water management, including but not limited to inlets, conduits, manholes, channels, ditches, drainage easements, retention and detention basins, and infiltration facilities, swales and other components as well as natural waterways. All elements of these storm and surface water management systems, which provide for the collection, storage, treatment, and conveyance of stormwater, are of benefit and provide services to all property within the city. The city is granted the authority to exercise

jurisdiction and control over stormwater systems and establish and administer local pollution control, surface water and stormwater management programs, and a stormwater utility under F.S. §§ 403.182, 403.0891, 403.0893 and 402.091 and under Sections 17-40.405 and 17-40.420; and Section 17-25 of the Florida Administrative Code, in order to provide for the management of stormwater; to control industrial stormwater discharges; prohibit illicit discharges; control spills, dumping and nonstormwater discharges which may adversely affect or contribute pollution to stormwater and or stormwater systems; establish interagency agreements to control stormwater discharges and intersystem linkages; prevent soil erosion; prevent excessive flooding and damage from floods; ensure water storage for beneficial purposes; maintain wetlands and other natural habitats for the protection and propagation of wildlife; promote conservation; develop proper utilization of surface water and groundwater; establish inspection and monitoring programs and procedures, and enforce compliance with ordinance conditions.

The subchapters of this chapter, and all future amendments to said subchapters, shall take precedence over other ordinances and sections regarding stormwater management.

(Ord. O-93-52, passed 10-20-93)

\$ 54.02 DEFINITIONS.

For the purpose of this chapter, the following definitions shall apply unless the context clearly indicates or requires a different meaning.

BEST MANAGEMENT PRACTICES (BMPs). Management techniques recognized to best minimize pollutant and sediment loadings from stormwater runoff.

CONSTRUCTION OPERATIONS. Any on-site construction activity which includes but is not limited to clearing, grading, excavation, building, assembling, expansion, modification, or alteration of existing contours of the property.

DETENTION. The collection and temporary storage of stormwater in such a manner as to provide treatment through physical, chemical or biological processes with subsequent gradual release of the stormwater.

DIRECTOR. The City Manager, or those to whom he or she has charged the interpretation, administration or enforcement of this code, or selected portions thereof.

DRAINAGE AREA. The watershed area contributing surface and stormwater runoff to the city's stormwater management system.

EQUIVALENT RESIDENTIAL UNIT (ERU). The statistical average horizontal impervious area of a single family residential unit within the city. The horizontal impervious area includes, but is not limited to, all areas covered by structures, roof extensions, patios, porches, driveways and sidewalks.

NON-STRUCTURAL CONTROLS. Any activity designed to reduce pollutant loadings of stormwater including but not limited to management programs and policies, application of best management practices (BMP), and public education programs.

ILLICIT DISCHARGE. Any discharge to a municipal separate storm sewer and or receiving water body that is not composed entirely of stormwater.

INDUSTRIAL SITES. Sites of industrial activity directly related to manufacturing, processing, or raw materials storage that the city determines are contributing a pollutant loading to the storm sewer system.

IMPERVIOUS SURFACE. A surface that has been compacted or covered with a layer of material so that it is highly resistant to infiltration by water. It includes, but is not limited to, semiimpervious surfaces such as compacted clay, as well as streets, roofs, sidewalks, parking lots and other similar surfaces.

IMPERVIOUS AREA. The area of land, measured in a horizontal plane, that has impervious surfaces.

OFFICER. The means by which the provisions of this subchapter shall be enforced by code enforcement, building and zoning, and/or police officers.

PERVIOUS SURFACE. Ground surface that is permeable to water infiltration.

RECEIVING WATER. All surface and ground water bodies; all wetlands, lakes, rivers, streams, canals, sloughs, natural or unnatural water bodies; and all territorial waters and the ocean into which stormwater runoff directly or indirectly discharges.

RETENTION. The prevention of stormwater runoff from direct discharge into receiving waters by utilizing discharge systems such as percolation, exfiltration, and evaporation processes.

SIGNIFICANT MATERIAL. Includes, but is not limited to any material which could be determined to cause degradation to the environment and/or is hazardous to human health as defined by current federal, state, county, and city regulations.

STORMWATER. Rainfall water that results from a rainfall event.

STORMWATER MANAGEMENT PLAN. A plan for receiving, handling, treating and transporting stormwater.

STORM SEWER OUTFALL. Point source where a municipal separate storm sewer discharges into receiving waters.

STORMWATER RUNOFF. That part of precipitation that travels over natural, altered or improved surfaces to any receiving water or to a storm sewer system and is thereby discharged to any receiving water.

STORMWATER SYSTEM. Includes all natural and manmade drainage elements used to convey stormwater from the first point of impact with the surface of the earth to a suitable outlet location internal or external to the boundaries of the city. The stormwater system includes but is not limited to pipes, channels, catch basins, curbs, gutters, streams, ditches, wetlands, sinkholes, pub stations, roadways, detention/retention basins, swales, ponds and other stormwater conveyance and treatment facilities whether public or private.

STRUCTURAL CONTROLS. Any stormwater system designed to control stormwater flow in order to meet water quality and or flood criteria including but not limited to levies, dikes, pump stations, spillways, locks, embankments, roadways, lakes, retention/detention basins and ponds.

SURFACE AREA. All natural, altered, or improved surfaces on which stormwater runoff or infiltration occurs.

SURFACE WATER. All surface natural and man-made water bodies, including but not limited to all lakes, rivers, canals, wetlands, sloughs, streams, territorial waters and the ocean into which stormwater runoff directly or indirectly discharges.

SWALE. A man-made trench or depression designed to contain contiguous areas of standing or flowing water following a rainfall event which is planted with or has vegetation or material suitable for soil stabilization, surface water treatment, and nutrient uptake as approved by the city.

UNDEVELOPED PROPERTY. That which has not been improved by the addition of any building, structure or impervious surface. For new construction, a property shall be considered developed pursuant to this chapter:

- (1) Upon issuance of a Certificate of Occupancy, or upon completion of construction or final inspection if no such certificate is issued; or
 - (2) Where construction is at least 50% complete and construction is halted for a period of three months.

WATER BASIN. The area which contributes to the flow of water into a receiving body of water.

WATER BODY. All surface waters; all wetlands, lakes, rivers, streams, canals, sloughs, natural or unnatural waters; and all territorial waters and the ocean in which stormwater runoff directly or indirectly discharges into.

(Ord. O-93-52, passed 10-20-93)

Subject: Sunset - Municipal Jurisdiction

ACM Zambrano,

Municipal jurisdiction over Sunset Golf Course is provided for in four (4) Sections of the Florida Statutes and three (3) Sections of the Florida Administrative Code. The Florida citations are found in the City's Code of Ordinances under *Title V: Public Works, Chapter 54: Stormwater Management.*

Fifteen (15) of the definitions in Chapter 54 describe Sunset as it is now and as it has functioned for decades. They are highlighted here in green.

Thank you for your attention to this email.

Karen Caputo

§ 54.01 PURPOSE.

The city maintains a system of storm and surface water management, including but not limited to inlets, conduits, manholes, channels, ditches, drainage easements, retention and detention basins, and infiltration facilities, swales and other components as well as natural waterways. All elements of these storm and surface water management systems, which provide for the collection, storage, treatment, and conveyance of stormwater, are of benefit and provide services to all property within the city. The city is granted the authority to exercise jurisdiction and control over stormwater systems and establish and administer local pollution control, surface water and stormwater management programs, and a stormwater utility under F.S. §§ 403.182, 403.0891, 403.0893 and 402.091 and under Sections 17-40.405 and 17-40.420; and Section 17-25 of the Florida Administrative Code, in order to provide for the management of stormwater; to control industrial stormwater discharges; prohibit illicit discharges; control spills, dumping and nonstormwater discharges which may adversely affect or contribute pollution to stormwater and or stormwater systems; establish interagency agreements to control stormwater discharges and intersystem linkages; prevent soil erosion; prevent excessive flooding and damage from floods; ensure water storage for beneficial purposes; maintain wetlands and other natural habitats for the protection and propagation of wildlife; promote conservation; develop proper utilization of surface water and groundwater; establish inspection and monitoring programs and procedures, and enforce compliance with ordinance conditions.

The subchapters of this chapter, and all future amendments to said subchapters, shall take precedence over other ordinances and sections regarding stormwater management.

(Ord. O-93-52, passed 10-20-93)

§ 54.02 DEFINITIONS.

For the purpose of this chapter, the following definitions shall apply unless the context clearly indicates or requires a different meaning.

BEST MANAGEMENT PRACTICES (BMPs). Management techniques recognized to best minimize pollutant and sediment loadings from stormwater runoff.

Subject: Sunset

Dear Sandra,

Your fear of a residential or commercial development on Sunset is unfounded. Sunset is below sea level. To develop it, an applicant would have to elevate it to at least 1.5 feet above the crown of the nearest road (ten feet at Grant, Hayes and Garfield), which, without wildly expensive infrastructure and other mitigation, would flood your house. That is why, two years ago, a developer, after due diligence, determined that sufficiently elevating the land to even sea level was not cost effective.

So, no, there won't be something worse and you don't have to settle for this plan.

Sunset is an area of concern for sea level rise (see the attached collection of City and County publications). Every coastal city from Florida to Maine is looking for open land to accept, retain and detain fresh water. Hollywood is fortunate to have this soil sponge east of I-95. The land is environmentally sensitive as it controls the level of Abrams Lake (between Lincoln and Johnson Streets), and also the fresh water level in the C-10 Canal and under our homes. Without a constant supply of storm water into and onto the soil, North Central will become a salt water marsh. Any reduction in absorption area will tip the balance of salt to fresh water, and not in our favor.

There are three elementary schools within 1.5 miles of Sunset. The applicant says he will dredge the canals and spread the muck to level the land for his paintball fields. The land consists of five feet of contaminated soil and muck. The muck will dry to peat and the peat dust will sicken us and our children.

Homes around sports arenas do not increase in value.

The plan is not for a park or for preservation of green space. You have not been given a real overview of the applicant's goal. That long list of activities is not the real plan and it's not about our kids. Attendance will be by reservation only and it's pay-to-get-in, pay-to-rent-gear, and pay-to-play.

It's all about paintball. It's all about selling \$10 worth of paint for \$70, and dumping it into our aquifers.

Karen Caputo, President

Subject: Sunset Development

Dear Mayor and Commissioners:

I attended the meeting at Sunset on the proposed development. I came away from the meeting with the following concerns:

- 1. It is quite clear that the promoter is talking about extreme sports for young boys and men. The brochure and web site pictures young men involved in war games. Morally, I don't think the city of Hollywood can present to the public war game activities.
- 2. The brochure claims it will be family oriented for birthday parties and picnics. When asked how can that be when all activities need an on-line registration. So children's parties and picnics would only be available if there are parking spaces available.
- 3. Drones would be an activity too with I-95 just 500 yards away and the airport 5 miles away. Drones cannot be used within 5 miles of an airport. I-95 has so many problems that an out of control drone just adds to the misery.
- 4. Traffic Study. We who live in the neighborhood know how unkind traffic studies have been to the neighborhood. I-95 exit to Hollywood Blvd. is backed up to Sheridan Street and Pembroke Exits in mornings and early afternoons. And if the traffic study only includes Johnston Street and 28th Avenue the

nightmare will continue for us who live nearby. There does not seem to be a thought to Beach Traffic and Margaritaville as part of any traffic study.

- 5. More importantly, there are two canals on the property that eventually flow to the ocean. We all know how "swampy" a good portion of the land is. So there must be some laws that protect wet lands and prevent large buildings and soccer fields from being built.
- 6. Lastly the proposed buildings are unsightly. I don't see how a Burger Place with hours to 10:00 p.m., lights and parking can fit with the neighborhood or traffic on Johnston Street.

Sincerely,

Rosemary Sabino

My name is Bryn Nordenson, and I have lived at 2645 Johnson Street since 2004. I also own 2641, which I inherited from my father in 2010.

I wish to make it known that I vehemently and unequivocally oppose turning the defunct Sunset Golf Course at 2727 Johnson Street into an extreme sports park and venue for paintball. This is a residential street and neighborhood, and is no place for such an enterprise. This proposal will only do harm. I object to the proposal on ALL levels, including:

- 1. Ecological (it will displace and hurt wildlife).
- 2. Practical (it will add even more traffic to an already badly overburdened street).
- 3. As a homeowner of many years standing (it will cause flooding on Johnson and under our homes, causing damage, expense, and home values to drop).

Please attach my letter to the application for 2727 Johnson Street so that it becomes part of the public record.

Yours sincerely,

Bryn Nordenson 2645 Johnson Street Hollywood, FL 33020

Subject: Sunset Golf Course - Proposed Hollywood Adventure Park 2727 Johnson Street

Dear Mayor Levy and Hollywood Commissioners,

This email is to voice our discontent with the Hollywood Adventure Park proposal for the former Sunset Golf Course. In attending the City of Hollywood PAC meeting and then the community meeting hosted by the applicant on March 13, 2017, we are even more inclined to oppose this proposition. We feel that their intent vastly differs from their proposal. Please attach this email to the Application for 2727 Johnson Street so that it becomes public record.

My name is Jill Watkins and my husband Mark and I have lived at 2811 Arthur Street directly adjacent to Sunset for 32 years . We've raised our two now-adult children and as a family have enjoyed the peace and solitude of our neighborhood. In addition, we are thankful for the benefits this green space has provided, such as protecting our homes from flooding. In the many years we have lived here, our family has not only enjoyed the solitude but we've been blessed with the opportunity to enjoy the wildlife that call Sunset home. This land must be protected.

The preservation of the natural landscape is vitally important to our community. Any development or land-clearing to support the Hollywood Adventure Park proposal will have direct environmental and ecological impact. We've lived through several serious storms and we can personally attest to the fact that rainwater flowed into Sunset, minimizing the flooding of our streets and homes.

In researching the applicant and his other venues in California, we are profoundly disturbed by the potential "damage" to Sunset. Contrary to their presentations, approving

this proposal would allow them to destroy the land and create an eye-sore environment that mimics a war zone, so people can shoot at each other in various paintball activities. They may submit their proposal under the guise of a park for children promoting "fun" activities other than paintball, but historically they have done this several times in California resulting in predominantly competitive paintball activities geared primarily for adults and young adults. This type of paintball park involves "sets" of shelled-out concrete and metal structures and props such as helicopter and bus carcasses, as well as dirt mountains and tracks that are a visible blight on the land. The applicant claimed in their presentation to PAC that his "props" would be broken down and discarded (not stored onsite) to rotate paintball areas. However, from videos of their other venues, the "props" at the paintball fields are mostly concrete buildings, old shipping containers, stripped vehicles and aircraft that aren't remotely portable. The fields with rusty oil drums, broken fencing and other detritus are created to look like a war-ravaged city. As the applicant has duplicated the same environment in their four California locations, it would be foolish for us to believe that they would deviate from that model.

We've viewed videos of the California venues and again we are extremely concerned should this proposal be approved for Sunset land. The aesthetics of this type of paintball park as well as the noise of paintball guns and crowds is unacceptable to the community and especially to those residents like us who live directly across the street. The applicant confirmed that he would hold special events bringing in celebrities that we know would attract crowds. Therefore, the impact to traffic, increased noise and disruption to the neighbors would be even greater. The applicant claims that traffic on Johnson Street would not be adversely affected and parking would not exceed 60 spaces because he would have employees "dropped off" and their parties come in "packed" vehicles limiting the amount of parking spaces required which we view as highly unlikely. The "theme park" atmosphere with a concourse and a restaurant/pro shop doesn't exude confidence in the green space park he portrays.

Equally and most important to my husband and I, as well as many of our neighbors, is the inevitable negative impact to our property values, in addition to the potential inability to sell or rent our home in the future. Our home is an investment and it's patently unfair to essentially steal money from our pockets as we approach our retirement years, so the applicant and his investors can increase their income.

The City of Hollywood already has a paintball park, Extreme Rage paintball park at 6401 Sheridan Street, and we don't need another sports park like this in the middle of a residential community that will impact our way of life. A paintball and extreme sports park does not fit into the character of our neighborhood and city.

In conclusion, we humbly request that the Planning & Development Board and the Hollywood City Commission not approve the applicants proposal.

Respectfully submitted,

Mark & Jill Watkins 2811 Arthur Street Hollywood, Florida ***Please download the attached links to videos of the applicant's Hollywood Sports and SC Village sports parks in California. You will agree that their proposal of a park designed for children varies greatly from the actual intent of a paintball park/extreme sports park geared mainly to adults and young adults. The view of how the land is created to look like a movie set is a sad visual.

In 2007, Giovanni D'Egidio wanted to put paintball on the Orange County Fairgrounds in Costa Mesa, California. Instead of applying for a permit, he wrote a letter to the President of the Fair Board, Deborah Carona asking for a lease.

At the same time, Giovanni met with Debora Carona's husband, Sheriff Michael J. Carona and offered him cash for "influence".

Mrs. Carona put the permit "request" on her agenda and a permit was granted with no permit application and no discussion.

Giovanni opened his paintball facility right before Sheriff Carona was arrested. The Sheriff was indicted for misusing his office to enrich himself and others. Giovanni agreed to testify against the Sheriff. At the Sheriff's trial, he testified that he not only gave \$25,000 to an intermediary but that it was intended for Sheriff Carona and it was to buy influence. He also swore that, prior to the trial, Sheriff Carona took him for a "ride" in the back of his vehicle, and scared the crap out of him. Sheriff Carona got 5-1/2 years in jail for witness intimidation.

Last month, Giovanni and his partner, Frank Johnston, requested to meet with residents of homes on the streets and avenues surrounding Sunset Golf Course. He said he wanted to show us his new site plan. The residents and the civic association board agreed to a meeting at the Lippman Center. There was no new site plan. He brought us together to tell us that he will sue the city if he doesn't get his paintball permit. He said that we are standing in the way of his making \$4,000,000 a year for himself and that he would get the money one way or the other. He said he would include us in the suit and that he is prepared to retaliate against the neighborhood if we don't back off. Please come to City Hall on October 12th, at 6:00 pm, in support of the City's determination that Sunset isn't an appropriate location for a Paintball Sports Facility.

My name is Brian Orfall and I live at 2459 Adams St. in Hollywood. I oppose any plan for Paintball and other Extreme Sports in or near any residential neighborhood in our City.

I have heard a lot of people say that we need more soccer fields and/or parks in this city. I think that the Sunset Golf course should be purchased by the city to make a park or athletic field of some sort.

Extreme Sports and Paintball are not compatible with the character of our residential neighborhoods and this property should be green and open for all to enjoy. Please attach this email to the Application for 2727 Johnson Street so that it becomes public record.

Sincerely, Brian Orfall 2459 Adams St Hollywood

Good day, Mayor Levy and my Commissioners, my name is Karen Albertson and I own and have lived in my condo at 2525 Hollywood Boulevard, for about 16 years.

I want to be on the record that I strenuously disagree with the current application before you regarding a paintball/extreme sports area in my neighborhood at Sunset Golf Course.

Just envision the additional traffic on Johnson Street, which currently is a disaster already as one of the few east/west access roads from and to North Central.

Please drive down Sheridan Street west of 441 and look at the Seminole Indians property which is a paintball facility, it looks horrible. Why should our residential homes be dragged down to this level.

Why would our City leaders even consider such a plan in a family oriented neighborhood. Can you imagine the noise at all hours and lighting your residents will be forced to endure with this plan, not even considering the additional traffic.

If you think the Jo-Lynn apartments on Johnson Street are a police and neighborhood nightmare, imagine what this plan will bring to our neighborhood.

I have lived in Hollywood and surrounding areas since I was three years old, and I sincerely think you should consider how YOUR OWN neighbors where you personally live would react to this plan, how about if it was proposed for the Emerald Hills Golf Course, hummmmm, don't think they would be happy either.

Please give this a lot of thought before this Neighborhood gets dragged down to where our properties are worthless as a tax base for Hollywood and for future re-sale purposes.

Given the google search I did the proposed developers other facility in California is a dirt infested facility, not a green space for the children of this City can play or learn about nature.

The City needs to acquire the Sunset Golf Course and save us from impending blight.

Thanks for your time. I love Hollywood and it's warmth and history.

I am sure Joseph Young would cringe at this idea, I doubt f this would be in his vision for his City.

Karen Albertson

Subject: Sunset Golf Course Development

My husband and I have been residents of Hollywood, FL for over 10 years now. We specifically chose this area because of it's hometown feel. We live near Sunset Golf course and were devastated when it closed. This unique area provided our local residents an outdoor reprieve from the hustle and bustle of South Florida. It is our understanding that this land was deeded to the city for green space and we would love to see this remain green space. There has been a lot of discussion and heated tempers around our community with the recent proposals for development of this area. The main concern we have is a traffic increase. Living near Memorial Hospital, we see a large amount of traffic. The 2 ways to get onto I-95 (Hollywood Blvd and Sheridan St) are saturated during peak travel times. Not to mention, when there is an accident on the interstate, Park Road is almost at times gridlock. We specifically live off of this road. Trying to get across lanes of traffic to get home is guite difficult, as we all know how uncooperative South Florida drivers can be with letting people merge in. I am not specially against adding residences to part of this area, but one should plan on single family residences or townhouses. We would hate to see a large condominium building come to this area, as all other homes are single family and one story residences. It wouldn't fit into our landscape, as this is why most of us moved to this specific area. The recent proposal for an Extreme outdoor sports park is certainly not what our residents picture either. We have all drove past paintball ranges and seen the mess of obstacles and heard the noise they can make. If the developer was to eliminate paintball from it's proposal and focus more on family friendly outdoor entertainment (mini golf course, rock climbing walls, batting cages, golf driving range, ropes courses, etc), I believe most residents would be more receptive, as this would maintain green space, but also offer a place for us to enjoy the area with friends and family. Please think of the implications the proposal on the table may have on our residents. I hope you can influence the decisions made to develop this area so we all benefit in harmony. I believe this is what the original land owners would want, given that they deeded this parcel to our community as green space. Thank you for your time and consideration with our concerns.

Concerned Residents,

Shannon and Randy Hastings

Yard sign new ?

Hollywood Adventure Park (HAP), the applicant for paintball and other extreme sports at Sunset Golf Course, has appealed the City's determination that the land is not zoned for these types of activities. The appeal may be heard at City Hall on October 12th.

At present, to gain support from residents, HAP employs Frank Johnston to go door-to-door. He is handing out a new brochure that touts HAP as if it were a children's charity. He is not handing out the old brochure. The one with paintball. And there is no mention of adult sports - or paintball - in the new brochure.

Frank Johnston can knock on your door because he is running for public office. But when he hands over the new brochure it's in the context of his being able to obtain, for your kids, free and discounted stuff, if you support him and the "park". What he is not telling folks is that HAP is private for profit, he is employed by HAP, and HAP's goal is paintball and other extreme adult sports.

We know that paintball is Giovanni d'Egidio's heart's desire because we have met with him about paintball several times. In July he said to us, again, that his end game is to sell enough paint and rent enough gear to make \$4,000,000 a year for himself. We know his landlord's heart's desire is paintball because the landlord manufactures paintball pellets. But there's nothing in the new brochure about paintball.

The County has issued a permit to dredge one acre of pond/canal and retain 10,000 cubic yards on site, so it is clear that he is following his original plan.

Save the date. And please forward this and share

If you believe that Paint Ball and other Adult Extreme Sports are not in keeping with the character of the residential communities in our City, please write to City Hall and express your opposition to any Permit Application that includes Paintball or other adult extreme sports in or near any residential community in our city.

Write to Mayopr Josh Levy

jlevy@hollywoodfl.org

And the six Commissioners -

?

tcallari@hollywoodfl.org, dcase@hollywoodfl.org, kbiederman@hollywoodfl.org, rblattner@hollywoodfl.org, phernandez@hollywoodfl.org, lsherwood@hollywoodfl.org

pcerny@hollywoodfl.org

Introduce yourself with your name and address so that they know you are a real person and a resident of the City, and so your District Commissioner takes special notice of your concerns.

Example:

"My name is _ and I live at ____. I oppose any plan for Paintball and other Extreme Sports in or near any residential neighborhood in our City. Extreme Sports and Paintball are not compatible with the character of our residential neighborhoods. Please attach this email to the Application for 2727 Johnson Street so that it becomes public record."

Public opinion is everything. **Your opinion matters.** Your email will travel with the package and be read not only by the Commissioners, but also by the Technical Advisory Committee (TAC) and the Planning and Development Board as it progresses through the approval/disapproval process.

We are being "gamed". There is nothing in his application that mentions Paintball or Extreme Sports. We attended the applicant's presentations to the City and to the public. Either he lied to them or he lied to us because he contradicted himself three times in two days. He told the City he would have a soccer FIELD but he told us he would have a small patch of artificial turf so that the undersized soccer ball doesn't bounce. He told us he would have limited days and hours but his application says otherwise.

He said he was doing this for our children and he would keep Sunset green, but we have seen drone videos of his other venues and they are wall-to-wall brown-dirt wastelands for Paintball and other adult extreme sports.

The more emails received by the City Commissioners, the more weight public opinion carries.

We cannot do this without the help of every homeowner and resident in our fair City.

Please take a minute to make a big difference.

Subject: Sunset Park for all.

I would much prefer that the city buy the entirety of Sunset golf, so that all children in north-central are able to afford the experience of having a park in their neighborhood. The plans of the current tenant seem to be of having a park for those that can afford it, which will not be most children in north central.

Yard Sign New

Mr. D'Egidio,

Yesterday you said that you follow us on Facebook so you will receive this on Facebook. You said you know what we want. You invited us to give input but what you really did is have us critique your plan so that you can go to the City and tell them that it's our plan. We are not fooled.

You think that if you snow us enough we will welcome your business model into our City. If it includes paintball, that will never happen.

You said that our property values will increase because when people see celebrities going and coming in limousines folks will want to live here. We will never approve of a paintball facility no matter how many celebrities come and go in fancy cars.

You said you can't be responsible for the housing market and if our property values sink it won't be your fault. If you think we don't know what happens to properties around sports venues you are mistaken.

You're going to fence out vandals. Fine for you but what about us? We don't want the

vandalism and property deterioration that comes to communities near sports venues.

You say you are in control of the property and if we don't like Paintball we could end up with something worse, like a development of residences. We've heard that story before. This type of threat is not new to us.

You want to put a Burger Town on Johnson Street open til midnight. We don't want a hangout joint day or night on Johnson Street, regardless of how much security you may or may not provide.

You talk about wedding parties but what you really mean is weekend stag parties, which are a standard fixture for your facilities in California. We are not anything like California.

You keep referring to everything "for the first year". Short hours, a few days of the week, no alcohol. No lights. No nights. We know you have night hours elsewhere and how much "fun" it is to blast people with glow-in-the-dark paint. You say you will have low-level lights that will not bleed into the neighborhood. There is no such thing. We are not interested in your short-term, first-year then anything-goes plan.

You talk about how much your plan will add to the City's tax base. You are not adding much to the tax base. You are not the owner. The owner pays \$18,000 a year. Your project will add another \$18,000, if that, and most of it will go to the County. In exchange for a few more tax dollars, we get extreme sports injuries and an increase in crime. Your presence will become a burden on the residents because we will be subsidizing your profits.

What you describe is an environmental nightmare. You want the City to approve of your dredging out the canals and filling the low spots with the dredged soil so you can compact it and turn it to dirt fields for paintball. We will never approve of the "browning" of the land.

Sunset is environmentally sensitive land. We don't want gallons of paint seeping into water and soaking into the soil no matter how biodegradable it may be.

You told the City that you are going to build, on site, plywood faux theme facades that you will discard when they are blasted with paint. Cheap, flimsy plywood blasted with paint and trashed routinely, with people spending mega bucks for your pocket, none of which will benefit our City.

You say that the southwest corner is at 75 decibels now and you won't exceed 74. We are used to the constant noise of traffic. We will never get used to intermittent banging and shouting that comes with your business model.

You say your plan will have a right turn only egress and will not add traffic to Johnson Street because your patrons can use 28th Avenue. Clearly you do not live here and don't know anything about our neighborhood.

You "paint" your business as child friendly when it is really unregulated, addictive pseudo-war-game extreme "sport" that encourages gun violence and vandalism.

You say that within a month you will have renderings that will show us what we will see from all sides. Don't bother if it includes paintball. We don't care how you mitigate the view, the noise, or the traffic. We don't want paintball and we will never approve of any plan that includes paintball.

Your business model doesn't belong here because paintball is not compatible with the character of our community. You would know that if you lived here. You don't own the property. You have no investment. You will not be harmed when the City says "no" to paintball.

Subject: We support Hollywood Adventure Park

We are homeowners on Hayes Street in Hollywood for over 20 years. Please let's keep our city young active.

We raised our daughter here. She married another city resident who is now a Warrant office for the U.S. Marines. We have two small grandsons & plan to raise in Hollywood.

We have been to the H.A.P. meetings we believe the Hollywood Adventure Park IS A GOOD MATCH for our family oriented neighborhood. Safe environment to keep the children & young adults active & out of trouble..

We believe they will be an asset to our neighborhood.

PLEASE!!!! NO CAMP GROUND OR CEMETARY...Neither one of these will be a good match for the City of Hollywood. You may see a lot of houses on the market with either one of these plans.

I sure wish the meeting were later in the day or early evening. 1:00 on a Monday means you do not want the working homeowners to attend. The people who are fighting the park are retired & may not use the facility, unless they are active, they will use the walking trails.

We live on Hayes Street the perimeter of the golf course, we are looking forward to Adventure park opening...We believe the owners of HAP are looking out for the city of Hollywood. Most of our neighbors feel the same way. We love our City & want is to be family friendly. HAP will offer camps, & year round activities for all ages.

Subject: NRCS responds to Sunset soils request Date: Saturday, March 11, 2017 11:27:08 PM

Dear Mr. Mayor,

Below is the email I received from the District Conservationist of the NRCS that is assigned to our area.

This excerpt confirms that the soil identification I wrote to you about is in fact correct and that Sunset is primarily Okeelanta muck.

"About the soils in the property what you find in the soil survey or web soil survey is your verification to soils." USDA District Conservationist Reyes, NRCS

This <u>link</u> will take you to the soil survey map sheet showing the *Okeelanta muck* (Ok) as the primary soil at Sunset. Sunset is top and center. You can zoom in and out (top left of map) plus move the map around by holding the left click.

Best regards,

Nancy Fowler Corresponding Secretary NCHCA 954-534-4694

Subject: Request for service Hollywood Florida, Broward County

Dear District Conservationist Reyes,

Hello. My name is Nancy Fowler and years ago I was a soil conservationist with the former SCS.

Today I live in Hollywood Florida and I am working with a group of citizens who want to preserve an area within Hollywood that is mapped in part as Ok-Okeelanta muck. The property address is 2727 Johnson Street, Hollywood, FL 33020. I have attached two files and also provided links to the online soil survey below.

Our group and the City of Hollywood need to verify the soil mapping and soil type. What services can you provide?

Thank you very much.

Best regards,

Nancy Fowler 954-534-4694

Here is the information that I have collected:

I am attaching the soil survey map. And here is the link to the mapping program https://websoilsurvey.sc.egov.usda.gov/App/WebSoilSurvey.aspx

I am also attaching the *Broward County Soil Survey*. Page 33 describes Okeelanta Muck. Paragraph 4 below describes its unsuitability for urban uses. **Here is the excerpt:**

"Ok-Okeelanta muck. This is a nearly level, very poorly drained organic soil

underlain by sand at a depth of 16 to 40 inches. The soil is found in small to large, freshwater marshes, swamps, and drainageways in the broad flatlands east of the Everglades.

Included with this soil in mapping are small areas of soil that contain less decomposed organic material below the surface layer; soils that contain organic material 40 to 51 inches thick; and soils that are underlain by limestone at a depth of more than 51 inches. Also included are small areas of Basinger, Lauderhill, Margate, Plantation, and Sanibel soils.

A few areas of this soil have been cleared and are used for truck crops and pasture, but most areas remain in natural vegetation consisting of cypress, sawgrass, ferns, sedges, and other water-tolerant plants. A few areas are dominated by willow, Brazilian pepper, and melaleuca trees.

Under natural conditions this soil is not suited to cultivated crops, pasture, or woodland. If water is adequately controlled, the soil is well suited to truck crops, sugarcane, and pasture. A well designed and maintained water-control system should remove excess water during periods that crops are grown and should keep the soil saturated at all other times to prevent excessive oxidation of the organic soil material. Fertilizers containing phosphates, potash, and minor elements are needed. For pastures, Pangolagrass, bahiagrass, and white clovers produce well.

This soil is unsuited to urban uses. Excessive wetness and low bearing capacity are the major limiting factors. Water control, removal of the organic material, and filling with stable soil material are needed to make this soil suitable for such uses.

This soil is in capability subclass lllw."

Subject: Sunset Update - Open Letter to Mr. Degidio

?

Yard Sign New

Mr. D'Egidio,

Yesterday you said that you follow us on Facebook so you will receive this on Facebook. You said you know what we want. You invited us to give input but what you really did is have us critique your plan so that you can go to the City and tell them that it's our plan. We are not fooled.

You think that if you snow us enough we will welcome your business model into our City. If it includes paintball, that will never happen.

You said that our property values will increase because when people see celebrities going and coming in limousines folks will want to live here. We will never approve of a paintball facility no matter how many celebrities come and go in fancy cars.

You said you can't be responsible for the housing market and if our property values sink it won't be your fault. If you think we don't know what happens to properties around sports venues you are mistaken.

You're going to fence out vandals. Fine for you but what about us? We don't want the vandalism and property deterioration that comes to communities near sports venues.

You say you are in control of the property and if we don't like Paintball we could end up with something worse, like a development of residences. We've heard that story before. This type of threat is not new to us.

You want to put a Burger Town on Johnson Street open til midnight. We don't want a hangout joint day or night on Johnson Street, regardless of how much security you may or may not provide.

You talk about wedding parties but what you really mean is weekend stag parties, which are a standard fixture for your facilities in California. We are not anything like California.

You keep referring to everything "for the first year". Short hours, a few days of

the week, no alcohol. No lights. No nights. We know you have night hours elsewhere and how much "fun" it is to blast people with glow-in-the-dark paint. You say you will have low-level lights that will not bleed into the neighborhood. There is no such thing. We are not interested in your short-term, first-year then anything-goes plan.

You talk about how much your plan will add to the City's tax base. You are not adding much to the tax base. You are not the owner. The owner pays \$18,000 a year. Your project will add another \$18,000, if that, and most of it will go to the County. In exchange for a few more tax dollars, we get extreme sports injuries and an increase in crime. Your presence will become a burden on the residents because we will be subsidizing your profits.

What you describe is an environmental nightmare. You want the City to approve of your dredging out the canals and filling the low spots with the dredged soil so you can compact it and turn it to dirt fields for paintball. We will never approve of the "browning" of the land.

Sunset is environmentally sensitive land. We don't want gallons of paint seeping into water and soaking into the soil no matter how biodegradable it may be.

You told the City that you are going to build, on site, plywood faux theme facades that you will discard when they are blasted with paint. Cheap, flimsy plywood blasted with paint and trashed routinely, with people spending mega bucks for your pocket, none of which will benefit our City.

You say that the southwest corner is at 75 decibels now and you won't exceed 74. We are used to the constant noise of traffic. We will never get used to intermittent banging and shouting that comes with your business model.

You say your plan will have a right turn only egress and will not add traffic to Johnson Street because your patrons can use 28th Avenue. Clearly you do not live here and don't know anything about our neighborhood.

You "paint" your business as child friendly when it is really unregulated, addictive pseudo-war-game extreme "sport" that encourages gun violence and vandalism.

You say that within a month you will have renderings that will show us what we will see from all sides. Don't bother if it includes paintball. We don't care how you mitigate the view, the noise, or the traffic. We don't want paintball and we

will never approve of any plan that includes paintball.

Your business model doesn't belong here because paintball is not compatible with the character of our community. You would know that if you lived here. You don't own the property. You have no investment. You will not be harmed when the City says "no" to paintball.

Subject: Sunset Golf Course - What They Knew and When They Knew It.

Date: Wednesday, August 23, 2017 11:08:22 AM

Good Morning Mr. Fallik,

Representatives of Hollywood Adventure Park have said that they have put the City on notice that they will sue if they don't get a permit to put sports at Sunset Golf Course. They would like to pretend that they were deceived because they didn't know that the City was interested in the property. They all knew early, and they all knew everything.

Fred Hopkins - 2014: Fred knew all about the City's interest in Sunset because he was the City's Real Estate Manager In 2014 and 2015. In 2014 the City funded two appraisals for Sunset because the City had an interest in obtaining and conserving the land. On February 28, 2015, residents submitted "Sunset Golf Course - A Public Utility" asking the City to take the property by eminent domain and conserve it as what it is, a storm water detention pond. Exhibits 9 and 10 are Fred's appraisals. We sent hundreds out by PDF and we delivered 40 hard copies to elected officials, managers, directors and Fred Hopkins. He knew everything in 2014.

Giovanni D'Egidio - Before the PACO on March 13, 2017: He has lately been the manager of Sunset Golf Course. On March 13, 2017 he brought a copy of "Sunset Golf Course - A Public Utility" to the PACO. That evening he waved it around at the Clubhouse and said it was his "bible". I looked at it to see if it was complete. It was. Every page, including the two appraisals and the Takings Fact Sheet were heavily annotated. Clearly he wasn't in the dark about the City's interest and the residents' wishes when he came to PACO.

Richard Italia - Before he bought Sunset: He is owner of Sunset as Richgreens LLC, In March, 2016, before Mr. Italia bought Sunset, Fred Hopkins, called two residents and said that he had a client who was going to buy the land even though he knew he couldn't develop it. The end game would be a swap for some of Orangebrook. It would be a good investment because his client knew the City was interested in Sunset.

As of today, public records show that Mr. Italia bought a golf course that is leased to CD Group. Mr. Italia has everything he paid for. CD Group bought the golf course lease in 2013. CD Group has everything it paid for.

 Sunset Golf Course

Date: Saturday, March 18, 2017 9:17:36 AM

Dear Mayor Levy,

My name is Bryn Nordenson, and I have lived at 2645 Johnson Street since 2004. I also own 2641, which I inherited from my father in 2010.

I wish to make it known that I vehemently and unequivocally oppose turning the defunct Sunset Golf Course at 2727 Johnson Street into an extreme sports park and venue for paintball. This is a residential street and neighborhood, and is no place for such an enterprise. This proposal will only do harm. I object to the proposal on ALL levels, including:

- 1. Ecological (it will displace and hurt wildlife).
- 2. Practical (it will add even more traffic to an already badly overburdened street).
- 3. As a homeowner of many years standing (it will cause flooding on Johnson and under our homes, causing damage, expense, and home values to drop).

Please attach my letter to the application for 2727 Johnson Street so that it becomes part of the public record.

Yours sincerely,

Bryn Nordenson 2645 Johnson Street Hollywood, FL 33020 From: Shannon Hastings

Subject: Sunset golf course development

Date: Saturday, March 18, 2017 9:25:05 AM

Dear Mayor Levy,

My husband and I have been residents of Hollywood, FL for over 10 years now. We specifically chose this area because of it's hometown feel. We live near Sunset Golf course and were devastated when it closed. This unique area provided our local residents an outdoor reprieve from the hustle and bustle of South Florida. It is our understanding that this land was deeded to the city for green space and we would love to see this remain green space. There has been a lot of discussion and heated tempers around our community with the recent proposals for development of this area. The main concern we have is a traffic increase. Living near Memorial Hospital, we see a large amount of traffic. The 2 ways to get onto I-95 (Hollywood Blvd and Sheridan St) are saturated during peak travel times. Not to mention, when there is an accident on the interstate, Park Road is almost at times gridlock. We specifically live off of this road. Trying to get across lanes of traffic to get home is guite difficult, as we all know how uncooperative South Florida drivers can be with letting people merge in. I am not specially against adding residences to part of this area, but one should plan on single family residences or townhouses. We would hate to see a large condominium building come to this area, as all other homes are single family and one story residences. It wouldn't fit into our landscape, as this is why most of us moved to this specific area. The recent proposal for an Extreme outdoor sports park is certainly not what our residents picture either. We have all drove past paintball ranges and seen the mess of obstacles and heard the noise they can make. If the developer was to eliminate paintball from it's proposal and focus more on family friendly outdoor entertainment (mini golf course, rock climbing walls, batting cages, golf driving range, ropes courses, etc), I believe most residents would be more receptive, as this would maintain green space, but also offer a place for us to enjoy the area with friends and family. Please think of the implications the proposal on the table may have on our residents. Being a long time resident of Hollywood, I hope you can influence the decisions made to develop this area so we all benefit in harmony. I believe this is what the original land owners would want, given that they deeded this parcel to our community as green space. Thank you for your time and consideration with our concerns.

Concerned Residents,

Shannon and Randy Hastings

Subject: Sunset golf property

Date: Sunday, March 12, 2017 6:03:57 PM

Dear Mayor Levy,

Unfortunately I cannot attend the meeting tomorrow regarding the Sunset golf property. I met you when you were campaigning. I think a extreme sports park would be a horrible idea for that property. First of all there is the traffic issue with no easy way to add a lot more traffic for that area. A much better use of The property would be to have a community urban garden. Surrounded by tiny houses which is the new wave of the future. It would create a nice community on that beautiful property and it would increase property values and property taxes it would be very unique in this area and add much more to the aesthetics of Hollywood then an extreme sports park.

That area of the city is really not conducive to an extreme sports park at all. Thank you for listening and I look forward to your tenure as mayor to make Hollywood a very nice community small-town community. Margaret Elaine Kooser 1924 Pierce St., Hollywood, FL 33020

Subject: Sunset Golf

Date: Saturday, March 18, 2017 2:06:24 PM

Good afternoon

As property owners on Arthur St, across from the Sunset golf course, we are concerned with development plans of the property. An extreme sports park, if permitted to open, would contribute greatly to noise pollution in our neighborhood. Drones, BMX bikes, paintball guns, are all equipment that would be disturbing to a quiet community.

The area around Sunset golf course is all residential. There are no businesses. These are primarily single-family home residences. I'm sure that you wouldn't want this type of activity next to your own house.

We would support some type of development that would bring value to our community. It would be very nice to see something that would improve our neighborhood rather than decreasing our property value by adding annoyances and increased traffic.

Please keep this in mind for the development of this property. Hollywood has a lot of up-and-coming projects and potential. We all would love to see Hollywood return to a highly desirable location for residents and tourists.

Thanks and best regards,

Hi,

These were scanned to us a while back and I'm not sure if we were given a hard copy, so I'm sending you a copy today.

Subject: Today"s Meeting of the TAC

Date: Monday, June 19, 2017 4:17:11 PM

Madam ChairI would appreciate it if you would advise yourself & the members of the TAC that when I spoke at today's meeting on the item 17-DPV-34 (plan to develop the old Sunset golf course into a recreational/ sports facility) it was as a naturalist & member of the South Florida Audubon Society; however I did <u>not</u> represent the organization or suggest in any way a personal or Audubon Society endorsement of the Richgreens proposal.

What I said was that I welcome any component of the plan (or any other proposal) that involves eradication of the three noxious, alien, invasive species (Australian Pine, Melaleuca, & Brazilian Pepper,) the creating of wildlife friendly, native species wetland eco habitats. I pointed out that this former wetlands area is already home to a wide variety of native bird and other animal life and could be of great educational value in promoting love of nature & environmental stewardship.

When Mr. Frank Johnston of Richgreens spoke, he incorrectly implied, or came close to it, that the Audubon Society had approved the proposal. When I speak at the July 17 meeting I intend to briefly correct this impression.

Not withstanding, Hollywood city has a wonderful opportunity to see that the site is cleared of invasives, and has a strong environmental & educational benefit to the people, fauna & flora of the east Hollywood community.

Hi Lauri,

Thank you for your family's contributions to our city and for writing about the value of parks and recreation.

Regarding the 1 PM meeting, please note that this particular meeting is technical in nature and eventually over the next couple months there will likely be the actual public hearings that are scheduled for times such as 6 PM as this application goes through the process.

Thanks again for writing.
