Our 4 pillars for solutions to sea level rise and flooding

Economy

Invest in infrastructure and natural solutions that boost the economy and protect property values by creating dedicated federal funding and incentives for resilience.

Rebuilding

Build back stronger to protect communities from future flooding by taking a clear-eyed view of the risk of sea level rise.

Communities

Use smart planning to keep communities safe and save taxpayer dollars by expanding pre-disaster mitigation programs and adopting resilient standards for federal spending.

Military

Ensure readiness 365 days a year by giving the military the authority to assess and address the impact of sea level rise on-base and in surrounding communities.
