FWC Derelict Vessel Grant Program Administrator:

The City of Hollywood has been facing an increasing issue with derelict vessels. Increased enforcement of "at-risk" vessel violations has led to improvements. Several derelict vessels have been removed by their respective owners. However, some vessels still remain. At the time of this application, I have identified 3 derelict vessels eligible for removal within the City of Hollywood that require removal at a total cost of \$17,000. I have grant funding available from the Broward Boating Improvement Project for \$4,250. This leaves \$12,750 remaining. At the present time, 8 derelict vessels are identified in the waters of Hollywood. Two do not meet funding guidelines. 4 additional vessels have a pending removal date of 6/24/2019. Funding from this project would remove 100% identified derelict vessels that meet funding guidelines at the time of this application. Thank you for your consideration

Sincerely,

Officer Robert Marren
