## CONSISTENCY WITH THE COMPREHENSIVE PLAN

The proposed text amendment are consistent with the Comprehensive Plan, based upon the following:

**Goal:** *Promote a distribution of land uses that will enhance and improve the residential, business, resort, and natural communities while allowing land owners to maximize the use of their property.*

**Objective 5:** *Encourage appropriate infill redevelopment in blighted areas throughout the City and economic development in blighted business and tourist areas by promoting improved architectural and streetscape design standards, code enforcement, economic development, neighborhood planning, and public information dissemination.*

The proposed text amendment is consistent with the City's Comprehensive Plan goal to encourage positive economic development by providing consistency with the State legislature and further defining the use to eliminate conflict.

## CONSISTENCY WITH THE CITY-WIDE MASTER PLAN

The City-Wide Master Plan is a compilation of policy priorities and recommendations designed to improve the appearance, appeal, and economic tax base of the City. It establishes a format for future direction and vision for the City. The proposed text amendment is consistent with the City-Wide Master Plan based upon the following Guiding Principle:

***Guiding Principle:*** *Promote the highest and best use of land in each sector of the City without compromising the goals of the surrounding community.*

## **APPLICABLE CRITERIA**

**Analysis of Criteria and Findings for Text Amendments** as stated in the City of Hollywood's Zoning and Land Development Regulations, Article 5.

**CRITERIA 1:** The proposed change is consistent with and in furtherance of the Goals, Objectives and Policies of the adopted Comprehensive Plan as amended from time to time.

**ANALYSIS:** The proposed amendment is consistent with the City's Comprehensive Plan as outlined previously in the Consistency section of this Report. Proposing this distance separation creates an incentive for a greater mix of active uses, indirectly benefiting the adjacent community; while maintaining the intent of the regulations. Furthermore, providing for a separate parking requirement for self-storage facilities will eliminate the need for this variance request during development.

**FINDING:** Consistent

**CRITERIA 2:** That conditions have substantially changed from the date the present zoning regulations were established.

**ANALYSIS:** While conditions have not changed dramatically, there has been a considerable amount of development which has triggered the applicability and implementation of these regulations. Having these case studies has provided a platform for finding ways to enhance and improve the code; while still maintaining its original intent.

**FINDING:** Consistent
