2. Product/Service being requested (be specific). Perform Taft Street Force Main Condition Assessment, which consists of mobilization, smartball leak and gas pocket detection, pipediver inspection, transient pressure monitoring, pipe wall thickness validations, pipe structural analysis, and engineering report.

3. Detailed description of the product/service function and purpose. The 48 inch diameter and the 30 inch ductile iron pipe running along Taft Street are considered the most critical components in the sewer system. Considering the service years and critical function of these 48 inch and 30 inch pipes, the Department of Public Utilities staff decided to perform condition assessment on these large diameter pipes along Taft Street.

4. Please explain in detail why this vendor is the sole source supplier for the required product/service. Be sure to explain the necessary features this vendor provides which are not available from any other vendor. Pure Technologies Ltd. has created various leak detection and condition assessment technologies
