(2) The presence of these vehicles causes vehicular congestion on residential streets, impedes the movement of traffic, unduly restricts travel of residents within the area, and creates excessive noise.

(3) The conditions mentioned in (1) and (2) above create blight and deterioration of residential areas.

(5) The establishment of Residential Parking Permit Districts will promote efficiency in the maintenance of those streets.

(6) Residential Parking Permit regulations are necessary to promote the health, safety and welfare of the inhabitants of the City.

(2) Upon receipt of a request signed by at least five adult residents of a neighborhood proposing a Residential Parking Permit District or Beach Residential Parking District, the Parking Administrator will initiate a survey to determine whether such district should be established in that neighborhood and the boundaries for such district. This survey will be addressed to homeowners on each block as recorded with the Broward County Property Appraiser's Office.

- (3) If a designation is sought by a resident request to start or expand a Residential Parking Permit District or Beach Residential Parking District, 65 percent of the residents within the requesting area must agree to the implementation or expansion by signing and returning a petition. For purposes of calculating the 65 percent of the residents, each dwelling unit shall be represented by one resident. If the survey result is 65 percent or more, the area shall be eligible for consideration for designation as a Residential Parking Permit District.
- (4) If the survey does not meet the 65 percent threshold for designation, residents may re-apply for consideration 12 months from the completion date of the survey.
- (5) The City Manager or designee, the Parking Administrator, may, if he or she concludes it is in the public interest to do so, initiate the designation process without any request.
- (6) The Parking Administrator may consider, without limitation, the extent to which parking spaces are occupied during working or other hours, the extent to which parked vehicles are registered to persons not apparently residing within the neighborhood, the primary zoning designation within the neighborhood, the impact that businesses and facilities located within or outside the neighborhood have upon parking within the neighborhood, and such other factors as the Parking Administrator deems relevant to determine whether parking by nonresidents of the neighborhood substantially impacts the ability of residents of the proposed Parking Permit District to park their vehicles on the streets of the proposed permit district with reasonable convenience, and the extent to which a Parking Permit District would significantly reduce this impact. The Parking Administrator shall also determine the need for reasonable public access to parking in the area, and the manner and extent that it should be provided, along with the hours and days during which parking restrictions should apply.

(E) Issuance of Residential Parking Permits.

- (1) Following the designation of a Residential Parking Permit District, the Parking Division shall issue Residential Parking Permits for the district so designated.
