**General Obligation Bond Oversight Advisory Committee - Questions\***

1. I would like to join the Let's Go Hollywood GO Bond Oversight Advisory Committee because I would play a part in ensuring that the money raised through the GO Bond is put to good use for the City of Hollywood. I see the GO Bond as an opportunity for the City to benefit from increased funding. I want to make sure such funds are spent appropriately and that the project are successfully built.
2. I believe my professional qualifications and civic experiences make me an ideal candidate to serve on the GO Bond Oversight Advisory Committee. My legal experiences give me insight into applicable laws, legal procedures, as well as mechanisms for resolving issues. Further, my experience in developing and maintaining real estate provides me further insight into many of the issues that will inevitably arise during the development process, from design, to bidding, and all the way through construction.
3. The Bond offering that interests me the most is the Public Safety Facilities, Technology and Equipment bonds offering. The Public Safety Facilities bond is the largest bond offering from a dollars perspective, and the vast majority of such funds are allocated to a single project. I believe that this bond provides a large risk of loss for the City and I would like to use my qualifications to ensure such loss does not occur.
4. It is often a difficult balance to strike when considering quality of life, healthy neighborhoods, economic development & strong tax bases. Some of these goals often conflict with other aspirations. For example, low tax rates yield smaller revenues for the city but provide an encouraging atmosphere to attract new residents. High tax rates can be financially oppressive to residents, and even deter new residents from moving to Hollywood, but can do well to increase City revenue. Therefore, rather than choosing sides, it is best to take all facts into consideration and decide on a case by case basis what is best for the City as a whole.

Please answer these four questions above. Why do you want to join the GO Bond Oversight Advisory Committee? 2. Explain how your personal and/or professional experiences will contribute to the meeting the goal(s) of the Board or City. 3. Which Bond interests you the most? Public Safety? **Historic Preservation Board - Questions\***

1. Presently on the HPB as architect representative  
 2. I was an architectural history professor at DASH in 1992 to 94,  
 I worked on the Historic Preservation design team for the Opa Locka city hall many years ago  
 worked with my father, Oscar Sklar, also an architect, on a variety of architectural renovation projects, one of which was  
 a downtown Miami building which won a Dade Heritage Trust award,  
 and a variety of other building projects with understanding of construction techniques that are needed for design of new and historic buildings.  
 3. I believe that Historic structures can co-exist with new development and often help support existing communities growth.  
 This is evident in South Beach where the initial base of the area was the strength of the original architecture and this bred new development which has created new development and therefore new tax base for the city. I believe that the same can happen in Downtown Hollywood with the proper direction and emphasis on maintaining the good architecture and creating new architecture that can improve the fabric of the area side by side!  
 4. I balance historic architecture with modern architecture often, they go hand in hand. an architect needs to know the history of architecture and why some things worked and why other things did not work and then learn to improve upon both the good and bad. the historic items that worked can be a design inspiration for a modern piece of architecture.  
 5. Each historic district has a purpose and strength  
 the Lakes residential district is quaint with a mix of good historic architecture and good modern architecture, I like the alleys for vehicular access. The beach district for the access to the water on both sides and the hotel / motel type architectural features, and the downtown for its retail architectural features which shows a lot of promise and possibility!

Explain how your personal and/or professional experiences will contribute to the meeting the goal(s) of the Board or City. \* Personal experiences, \* Professional experiences. 3. What is your perspective on balancing growth of the City's tax base, within the Historic Districts, while maintaining neighborhood stabilization? 4.
