Budgeted Amount \$150,000.00 ([change](#))

Bid Comments The City of Hollywood, FL (City) is actively seeking qualified, experienced, and licensed firm(s) to provide **services for a Citywide Pavement Study** to develop a Pavement Management Program. The City of Hollywood plans, designs, executes, maintains and operates a variety of infrastructure projects throughout the City. Project No.: EN-20-015

There are approximately 359 miles of streets and 88 miles of alleys that are maintained by the City of Hollywood. A manually survey needs to be performed to develop a Pavement Management Program. The intent of this solicitation is for the City to enter into a contract with a firm which provide pavement study services. Work would include a field survey of the pavement condition of all the City maintained streets and alleys within the City of Hollywood, following the ASTM Standard D6433 "Standard Practice for Roads and Parking Lots Pavement Condition Index (PCI) Surveys", and associated tasks as described in more detail below. It would include the development of a Pavement Management Program for the City's future capital/financial planning purposes.
