

POST ISSUANCE COMPLIANCE CHECKLIST

The National Association of Bond Lawyers (“NABL”) and the Government Finance Officers Association (“GFOA”) have jointly developed the following checklist to assist bond counsel in discussing with issuers and conduit borrowers, as applicable, post issuance compliance matters. The checklist is divided into three parts: tax, securities and State law matters. The checklist can serve as a framework for discussion at an appropriate time during the transaction or as a written document prepared by bond counsel and furnished to the issuer or conduit borrower after completion of the financing. Bond counsel may need to explain various items on the checklist to provide the issuer with a more complete understanding of the noted concept. The checklist can be amended or supplemented as needed to address the particular financing issue. Issuers and conduit borrowers are encouraged to contact bond counsel at any time they may have questions or concerns pertaining to tax, securities or State law issues.

In the “document reference” column, where applicable, the financing document pertaining to the referenced point should be named. This will assist others on the finance team – present and future – to be able to locate the original notation. The “responsibility” column should list the various offices/desks within the government or legal or other professional that have been engaged for the purpose of that section who is/are responsible for maintaining the noted task. This list covers a broad spectrum of financing purposes of which only some will apply to your financing. Instances where each line will be completed are unlikely. However, you are encouraged to review the entire document and complete the lines that are applicable to your financing.

The checklist is intended to help issuers and/or borrowers throughout the entire lifetime of the financing to identify matters that need to be analyzed by the issuer and perhaps by counsel. Issuers are encouraged to retain and distribute the checklist to all “responsible” parties and others who may find it useful during the lifetime of a financing. **Keeping the checklist throughout the lifetime of the financing is important. Thus, issuers are encouraged to keep the document with the transcript.**

The completion and distribution of this checklist does not presume a contractual obligation on parties to complete these tasks.
