A Resolution Of The City Commission Of The City Of Hollywood, Florida, Approving And Authorizing Execution Of The Lift Station N-07 Fund Sharing Agreement With RD Stirling, LLC.

Infrastructure & Facilities

Staff Recommends: Approval of the attached Resolution.

Explanation:

The Department of Public Utilities (DPU) has the responsibility for planning, regulating, designing, constructing, operating, and maintaining a wastewater collection system including 85 sewer lift stations. On May 5, 2021, via Resolution No. R-2021-101, the City Commission approved and authorized the acceptance of CDBG-MIT grant funds in the amount of \$3,435,000.00 to repair and harden lift stations N-07 and N-08, and to replace the impacted force main.

RD Stirling, LLC. (RD) subsequently began constructing a 420-unit residential development and wants to pump the wastewater from that new facility through their private pump station and force main to a City-owned force main downstream and then to City Lift Station N-07.

RD has agreed to pay the additional costs for adding their sewage flows to the originally planned improvements.

This agenda item seeks the City Commission's approval and authorization of the appropriate City officials' execution of the attached Lift Station N-07 Fund Sharing Agreement with RD.

Fiscal Impact:

Approval of this agreement will not fiscally impact the City. If the terms of the contract are not satisfied, there could be some financial impact on the City.

DPU staff will manage this project. No additional staff are needed as a result of this project.

Recommended for inclusion on the agenda by:

Feng ("Jeff") Jiang, P.E., Assistant Director, Department of Public Utilities

Vincent Morello, P.E., Director, Department of Public Utilities

Gus Zambrano, Assistant City Manager/Sustainable Development
