A Resolution Of The City Commission Of The City Of Hollywood, Florida, Approving And Authorizing The Appropriate City Officials To Accept The State Of Florida Department Of Environmental Protection Resilient Florida Program Grant In The Amount Of \$326,650.00 For The Recapture The Swale Restoration Pilot Program; Authorizing The Required Matching Funds In The Amount Of \$368,350.00; Authorizing The Appropriate City Officials To Execute All Grant Documents And Agreements For The Project.

Infrastructure & Facilities

Staff Recommends: Approval of the attached Resolution.

### Explanation:

The City owns, operates, and maintains Citywide stormwater facilities. Swales, sloped grassy areas alongside sidewalks, streets, parking lots, and driveways, are designed to capture, treat, and convey rainwater. Swales are a key component of the stormwater management system that help protect the environment by filtering runoff pollutants, providing temporary rainwater storage, and reducing flooding. The Department of Public Utilities ("Department") is in the process of restoring swales across the City.

The Department, on behalf of the City, submitted a grant application to the State of Florida

Department of Environmental Protection (“FDEP”) Resiliency Grant Program for funding of the Recapture the Swale Restoration Pilot Program. This project has a total cost of \$695,000.00 and was awarded a grant in the amount of \$326,650.00. The grant requires the remaining project cost of \$368,350.00 to be funded by the Department.

This agenda item seeks the City Commission’s authorization of acceptance of the FDEP Resiliency Grant in the amount of \$326,650.00 for the Recapture the Swale Restoration Pilot Program; authorization of the required matching funds, and authorization for the appropriate City officials to execute all applicable grant documents and agreements.

**Fiscal Impact:**

Grant match funding in the amount of \$368,350.00 was included in the amended FY 2023 Capital Improvement Plan and is available in account number 443.419901.53800.563010.001315.000.000. Grant proceeds in the amount of \$326,650.00 will be made available in the amended FY 2023 Capital Improvement Plan, subject to adoption of a forthcoming budget amendment resolution.

Department of Public Utilities staff will manage this project. No additional staff is needed as a result of this agreement.

**Recommended for inclusion on the agenda by:**

Feng “Jeff” Jiang, Assistant Director, Department of Public Utilities  
Vincent Morello, Director, Department of Public Utilities  
Gus Zambrano, Assistant City Manager/Sustainable Development
