A Resolution Of The City Commission Of The City Of Hollywood, Florida, Authorizing The Appropriate City Officials To Issue The Attached Amendment No. 1 To The Authorization To Proceed For Work Order No. CTA 17-01 Between Craven Thompson & Associates, Inc. And The City Of Hollywood To Provide Professional Engineering Services For Design And Construction Services Related To Flowmeter And By-Pass Piping Servicing Sanitary Sewer Lift Station W-14 Rehabilitation Project, In A Lump Sum Amount Of \$15,200.00 (Project No. 16-8063).

Staff Recommends: Approval of the Attached Resolution

Explanation:

The Sanitary Sewer Lift Station W-14, located at 5596 Monroe Street, was installed in 1971 and most of the equipment and internal piping and valves at the station have reached their useful lives.

On January 18, 2017, via Resolution R-2017-015 the City awarded the professional technical services for the design, permitting, bidding, and construction services to Craven Thompson & Associates, Inc. in the amount of \$178,785.00.

As a new design/operation standard, the Department of Public Utilities staff decided to install flowmeters at all new sewer lift stations.

The Department of Public Utilities staff also decided to install by-pass piping to provide operational flexibility for the sewer Lift Station W-14.

The flowmeter and by-pass piping were not included in the original consulting services scope of the Lift Station W-14 Rehabilitation project.

The City requested a proposal from Craven Thompson & Associates, Inc. to provide Professional Engineering Services for the design and construction services related to the installation of the new flowmeter and the by-pass piping for the Lift Stations W-14 Rehabilitation project.

The Department of Public Utilities staff recommends that the City Commission authorize the appropriate City Officials to issue the attached Amendment No. 1 to Authorization to Proceed for Work Order No. CTA 17-01 between Craven Thompson & Associates, Inc. and the City of Hollywood for Professional Engineering Services related to design and construction services for the installation of one (1) new flowmeter and the by-pass piping for the sewer Lift Station W-14 Rehabilitation project, in a lump sum amount of \$15,200.00.

Funding has been provided via Resolution No. R-2017-295 which continued the appropriation for previously approved capital projects from FY 2017 to FY 2018.

Funding is available in account number 42.4000.86871.536.033121.

Recommended for inclusion on the agenda by:

Dr. Wazir A. Ishmael, City Manager

Gus Zambrano, ACM, Sustainable Development

George R. Keller, Jr., ACM/Interim Director, Finance & Administration

Steve Joseph, Director, Public Utilities

Paul A. Bassar, Director of Procurement & Contract Compliance
