Explanation:

The South Florida Regional Transportation Authority (SFRTA), South Florida Regional Planning Council (SFRPC) and Treasure Coast Regional Planning Council (TCRPC) are implementing the South Florida Regional Transit Oriented Development (SFTOD) Pilot Program.

Funding was awarded for SFTOD through the Federal Transit Administration (FTA)’s Transit Oriented Development Planning Pilot Program. SFTOD will fund planning activities around potential station areas that have been identified on that portion of the planned Tri-Rail Coastal Link (TRCL) corridor located on the FEC rail corridor.

If awarded, this funding will provide the CRA and City with a Station Area Master Plan that will guide and manage development and redevelopment within the station area or along a transit corridor, integrating the transit facilities and mobility improvements into municipal or county land use plans.

The Station Area Master Plan would include an evaluation of existing, planned, and potential development activity surrounding a potential Tri-Rail Coastal station, market feasibility and economic analysis, multi-modal transportation improvements (i.e. - transit, roadway, bicycle, pedestrian), land use patterns, infill development and redevelopment, urban design, streetscape and beautification improvements, public open spaces, and recommended

implementation mechanisms.

The total project cost is \$205,000.00 which requires a 20% match in the total approximate amount of \$41,000.00 to be shared between the CRA (60%) and the City of Hollywood (40%). The CRA's portion of the required match is \$24,600.00 and the City will provide the remaining amount of \$16,400.00.
