A Resolution Of The City Commission Of The City Of Hollywood, Florida, Approving And Authorizing The Appropriate City Officials To Execute The Information Sharing Access Agreement With Department Of Homeland Security/Federal Emergency Management Agency Federal Insurance Mitigation Administration For Access To Certain National Flood Insurance Program Documentation And Data.

Infrastructure & Facilities

Staff Recommends: Approval of the attached Resolution.

Explanation:

In December 2019, the City reaffirmed the Class 6 category under the Community Rating System ("CRS") program which results in a 20% reduction to flood insurance premiums for property owners within the City of Hollywood. Activities under this program include reviews of National Flood Insurance Program ("NFIP") policies and claims information for daily floodplain management, hazard mitigation and Repetitive Loss Area Analysis activities. The policies and claims data contains personally identifiable information that is protected by the Privacy Act of 1974. Department of Homeland Security/Federal Emergency Management Agency requires an Information Sharing Access Agreement to obtain the latest available data for these purposes. The data provided to the City on February 23, 2017 contains flood insurance claims data through June 7, 2013 where 221 properties are considered Repetitive Loss, which is any insurable building for which two (2) or more

claims of more than \$1,000 were paid by the NFIP within any rolling ten-year period since 1978.

As part of the CRS Program 5-year Verification, Activity 501 requires communities to provide updates to the Repetitive Loss list when preparing a Repetitive Loss Area Analysis to analyze causes of flooding and to disclose status of mitigation for each Repetitive Loss property based on the claims. It is anticipated the number of Repetitive Loss properties has increased since 2013. Therefore, the latest data available, including claims from June 7, 2013 to current date, is necessary to ensure all Repetitive Loss properties are addressed to comply with this Activity 501 requirement.

Fiscal Impact

No funds are required for this approval.

Recommended for inclusion on the agenda by:

Clece Aurelus, P.E., Engineering Support Services Manager, Department of Public Utilities

Vivek Galav, P.E., Director, Department of Public Utilities

Gus Zambrano, Assistant City Manager/Sustainable Development
