### Explanation:

The Department of Public Works was interested in conducting a solid waste analysis, researching various options for these same services which include, but are not limited to, solid waste collection and disposal, commingled collection and disposal, recycling collection and processing, current program evaluation, evaluating in-house collections versus contractor collections, evaluating alley collection versus curbside collection, developing contract/bid specifications, bid evaluations to include fee and rate study for impacts of recommendations and assist with implementation after award.

The additional analysis and contract negotiations requires Kessler Consulting Inc. to expand their scope of services at an additional cost not to exceed \$50,000.00 for a total aggregate amount not to exceed \$180,000.

Pursuant to Section 38.40(C)(2) of the City's Purchasing Code, Contracts for professional services involving peculiar skill, ability, experience or expertise, which are in their nature unique and not subject to competitive bidding or competitive proposals, are exempt from this subchapter; however, state laws, such as the Consultants' Competitive Negotiation Act, to the extent applicable, shall be followed.
