Explanation:

The Parking Access Revenue Control ("PARC") systems at the Van Buren and Radius garages are the systems used for access and egress to the garages via tickets or access cards by transient customers, business accounts and condominium owners. These systems have served beyond their useful life with frequent breakdowns, difficulty procuring replacement parts and possible security issues.

On September 20, 2018 and in accordance with Section 38.42(A)(1) of the City's Purchasing Ordinance, a Notice of Bid Availability for RFP-4596-18-JE was posted on the City's website and on Bidsync. Three firms submitted proposals:

- ◆ Amano McGann
- ◆ Flash Parking
- ◆ Pinnacle Parking Systems, LLC

The criteria used in evaluating the proposals included: Fitness for the intended use, Quality of materials/services, Ability to provide the services, Capacity to perform the contract, Price, References, Ability to provide future maintenance/service and Local Preference.

The proposals were evaluated by three (3) committee members consisting of Hollywood's Parking Administrator, Miami Parking Authority's Director of Operations, and Delray Beach's Chief Parking Administrator.

After the proposals were evaluated, the Evaluation Committee requested oral interviews from the firms. After the oral interviews, scores were compiled with the lowest score representing the highest ranking:

| 1. | Pinnacle Parking Systems, LLC. | 4.0 |
