A Resolution Of The City Commission Of The City Of Hollywood, Florida, Establishing The Base Rate For Bulk Water Sales To Broward County For Fiscal Year 2020, Effective October 1, 2019.

Staff Recommends: Approval of the attached Resolution.

Explanation:

The City's Department of Public Utilities provides the vital life sustaining function of supplying safe, reliable and healthy drinking water to the residents, visitors and various other customers of the City of Hollywood.

It is essential for proper planning to take place in order to provide reliable water services, and

Under the City's Master Water Plan critical water infrastructure assets were identified that are well beyond their useful life which may pose public health and safety risks if not addressed properly; therefore, the City will need to start various initiatives and projects to meet compliance of plan and other regulatory requirements.

The City will need to start various initiatives and projects for compliance with various regulatory requirements, including, but not limited to, requirements within its 10-year Water Supply Plan.

On April 15, 2009, the City Commission passed and adopted Resolution No. R-2009-095 which approved the adoption of the Water Master Plan.

The City has completed a comprehensive revenue analysis and rate study to identify future revenue requirements for the implementation of critical capital projects.

On October 15, 1996, the City and Broward County entered into an Interlocal Agreement for the Sale of Potable Water with Broward County and this agreement was amended pursuant to Resolution No. R-2004-08.

In accordance with Section 9b(3) of the Interlocal Agreement, the City is authorized to

increase the rate to Broward County for the purchase of bulk water, in an amount not to exceed the percentage of the increase enacted for the City's retail customers.

Staff recommends that the City Commission adopt the new bulk water rate based on the July 2019 rate study and in accordance with the bulk water agreement with Broward County.

Recommended for inclusion on the agenda by:

Mark Moore, Deputy Director Public Utilities Finance

Francois Domond, Interim Director, Department of Public Utilities

Gus Zambrano, Assistant City Manager/Sustainable Development
