# **1. Executive Summary**

The City of Hollywood operates and maintains a complex and highly active underground utility network serving residential neighborhoods, commercial corridors, tourism infrastructure, healthcare facilities, and port-related operations. Given the City's geographic location, urban density, and continuous construction activity, underground utility locating services must be accurate, timely, well-documented, and highly coordinated to protect public infrastructure and prevent service disruptions.

Venegroup Services, Inc. proposes to serve as the City of Hollywood's underground utility locating partner by delivering reliable, high-accuracy locating services that fully comply with Florida Statute Chapter 556 and the City's operational standards. Our approach is designed to support high ticket volumes, rapid emergency response requirements, and simultaneous excavation activities across water, sewer, stormwater, reclaimed water, and raw water systems.

The City's needs extend beyond basic utility marking. Effective locating services require rapid response to emergency and after-hours requests, accurate identification of congested and aging infrastructure, use of advanced locating technologies such as Ground Penetrating Radar (GPR) when records or surface indicators are limited, clear coordination with City staff, contractors, and Sunshine 811, and comprehensive digital documentation including timestamped photographs, GPS data, and monthly reporting. Venegroup Services, Inc. is structured specifically to meet these requirements.

Established in 2012, Venegroup Services, Inc. brings more than thirteen (13) years of experience providing professional underground utility locating services for municipalities, counties, utilities, and large infrastructure owners throughout the State of Florida. Our current and recent clients include Broward County, the City of Orlando, City of Boca Raton, City of Jacksonville, City of Weston, City of Miami Beach, and Port Everglades, demonstrating our ability to support large-scale, high-demand public utility systems with accuracy, consistency, and responsiveness.

Our firm utilizes advanced locating technologies including electromagnetic locating, Ground Penetrating Radar (GPR), and sub-meter GPS mapping, supported by a robust electronic ticket management and documentation platform (UtiliSphere).

This integrated approach ensures accurate field execution, complete documentation, and full compliance with Chapter 556 requirements and City reporting expectations.

Venegroup Services, Inc. maintains a dedicated team of twelve (12) full-time, NULCA-certified underground utility locators, each equipped with industry-standard locating equipment, mobile data collection tools, and a dedicated service vehicle.

This staffing model provides sufficient capacity to meet routine locate requests, emergency response demands, and peak workload conditions associated with capital improvement projects, storm response, and seasonal construction activity.

Our approach prioritizes safety, accuracy, accountability, and rapid response, with a strong emphasis on minimizing utility damages, reducing contractor delays, and protecting public assets. Venegroup Services, Inc. understands that the City of Hollywood is seeking a long-term locating partner that delivers measurable performance, operational transparency, and dependable service.

We are fully prepared to support the City's mission to maintain uninterrupted utility service for residents, businesses, and visitors.

## **2. Qualifications and Experience**

### *Firm Experience*

Venegroup Services, Inc. has provided professional underground utility locating services continuously since 2012, with a primary focus on serving municipalities, counties, utilities, and other public-sector agencies throughout the State of Florida. Our experience includes projects comparable in scope, size, complexity, and operational demands to those of the City of Hollywood, including dense urban environments, critical infrastructure corridors, and high-volume locate activity.

### *Relevant Public-Sector Clients*

Venegroup Services, Inc.'s current and recent public-sector clients include:

- Broward County
- City of Miami Beach
- Port Everglades
- City of Boca Raton
- City of Weston
- City of Orlando
- City of Jacksonville

These engagements require accurate identification of underground utilities within active construction environments, strict compliance with response time requirements, and ongoing coordination with multiple departments, contractors, utility owners, and Sunshine 811. Venegroup Services, Inc. has successfully delivered these services while maintaining consistently low utility damage rates, reliable response performance, and on-time completion of assigned work.

### *Coordination and Communication*

Our firm has demonstrated a strong ability to coordinate effectively with public agencies, utility owners, contractors, and Sunshine 811 to ensure clear communication, safe excavation practices, and uninterrupted delivery of public services. This collaborative approach supports compliance with Florida Statute Chapter 556 and reduces the risk of conflicts, delays, or infrastructure damage.

### *Staff Qualifications and Certifications*

Venegroup Services, Inc. maintains a team of four (4) full-time, NULCA-certified underground utility locators. All field personnel are trained in underground utility damage prevention, OSHA safety standards, and the operation of electromagnetic locating equipment, Ground Penetrating Radar (GPR), and GPS-based documentation tools.

In addition to NULCA certification, all field personnel receive:

- OSHA safety training
- Underground utility damage prevention training
- Ongoing technical training on locating equipment, safety procedures, and best practices

Our locators possess extensive hands-on experience in:

- Operating electromagnetic locating equipment
- Performing Ground Penetrating Radar (GPR) surveys
- Interpreting utility records, as-built drawings, and GIS data
- Identifying discrepancies between record information and actual field conditions

Each locator is assigned a dedicated service vehicle, industry-standard locating equipment, and mobile data collection tools, ensuring consistent service quality, field efficiency, and safety.

### *Detection Capabilities and Technology*

Accuracy and damage prevention are central to Venegroup Services, Inc.'s operational philosophy. We utilize a multi-technology locating approach to ensure reliable identification and documentation of underground utilities under a wide range of site conditions.

Our detection and documentation capabilities include:

- Electromagnetic locating for conductive utilities
- Ground Penetrating Radar (GPR) for non-conductive utilities, congested corridors, and areas with limited records
- GPS mapping tools to enhance spatial accuracy and documentation
- Digital photo documentation linked to each locate request

All locate activities are managed through UtiliSphere, providing complete ticket lifecycle tracking from receipt through close-out. A minimum of three (3) timestamped photographs is captured for each locate, supporting transparency, quality control, and audit readiness.

### *Quality Assurance and Damage Prevention*

Quality assurance procedures are implemented to verify locate markings, confirm documentation accuracy, and reduce the risk of utility damages. This disciplined, technology-supported approach has enabled Venegroup Services, Inc. to maintain a strong and consistent record of accurate utility identification across all public-sector projects.

## **Rafael Gimenez**

### **Project Manager**

**Years of Experience:** 19+ Years

### **Role on City of Hollywood Contract**

Project Manager responsible for oversight of utility locating operations, quality assurance, coordination with City staff, reporting, and compliance with Florida Statute Chapter 556.

### **Relevant Experience**

- Project Manager and Underground Utility Locator for multiple municipal agencies, including:
  - Miami-Dade Aviation Department (since 2018)
  - City of Boca Raton Water & Sewer Department (since 2018)
  - Miami-Dade County Traffic Signal Department
  - Sarasota County Utilities
  - City of Miami Beach road and drainage improvement projects
- Field Supervisor for 811 utility locates for Florida Public Utilities (Gas)
- Extensive experience with water, sewer, stormwater, gas, electric, communications, and fiber optic utilities
- Thousands of successful locates using Ground Penetrating Radar (GPR) across Broward, Miami-Dade, and Sarasota Counties
- Responsible for field supervision, ticket updates, photo documentation, and weekly status reporting

### **Certifications & Training**

- NULCA Certified Locator
- OSHA Construction Safety Training
- Sensors & Software GPR 3D Training (Canada)
- Noggin & Sensors & Software GPR Training
- UtiliSphere Ticket Management System
- Sunshine 811 Training
- TSA Security Awareness Training

### **Education**

- Mechanical Engineering Degree, Fermin Toro University
- High School Diploma

## **Diego Gimenez**

### **Locator / Team Leader**

**Years of Experience:** 8+ Years

### **Role on City of Hollywood Contract**

Team Leader responsible for field locating, emergency response, ticket management, and coordination with supervisors and contractors.

### **Relevant Experience**

- Underground Utility Locator and Field Supervisor for:
  - City of Orlando
  - City of Jacksonville
- Performs electromagnetic (EM) and GPR locates for water, sewer, gas, electric, and communications
- Experienced in soft dig / vacuum excavation for depth verification
- Performs field documentation, marking, and equipment maintenance
- Supports ticket screening and reporting using UtiliSphere and DigTrack

### **Certifications & Training**

- NULCA Certified Locator
- EM & GPR Technician Certification
- Sensors & Software / Radio Detection Training
- UtiliSphere & DigTrack Software Training

### **Education**

- High School Diploma

## **Oswaldo Armas**

### **Project Supervisor / Team Leader**

**Years of Experience:** 9+ Years

### **Role on City of Hollywood Contract**

Field Supervisor responsible for daily operations, coordination with contractors, and quality control of locate markings.

### **Relevant Experience**

- GPR Technician for water and sewer locates for:
  - Broward County
  - Palm Beach County
- Performs public and private utility locates including gas, electric, communications, water, and sewer
- Conducted municipal streetlight and utility locates in active public right-of-way environments
- Manages field crews, contractor coordination, and ticket response

### **Certifications & Training**

- NULCA Certified Locator
- GPR & EM Locator Training
- DigTrack & IrthNet Software Training
- OSHA Safety Training
- Sunshine 811 Ticket Management Training

### **Education**

- Computer Engineering Studies

## **Alejandro Ayube**

### **Utility Locator**

**Years of Experience:** 7+ Years

### **Role on City of Hollywood Contract**

Utility Locator responsible for routine and emergency locates, documentation, and coordination with City staff and contractors.

### **Relevant Experience**

- Performs water and sewer utility locates for the City of Boca Raton
- Conducted fiber optic locates for MDX major roadway projects
- Performs GPR long-footage locates across Broward, Miami-Dade, and Sarasota Counties
- Experience with out-of-state municipal projects:
  - Gwinnett County, GA
  - City of Lynchburg, VA
- Manages field documentation, photo records, and status reporting

### **Certifications & Training**

- NULCA Certified Locator
- GPR & EM Locating Training
- Sunshine 811 Ticket Management Training

### **Skills**

- UtiliSphere / DigTrack
- GPS documentation
- Bilingual (English / Spanish)

For the City of Hollywood, Venegroup Services, Inc will assign a dedicated project team supported by sufficient personnel and equipment resources to meet all routine, emergency, and surge-level underground utility locating requirements. All personnel are trained in OSHA safety standards, Florida Sunshine 811 regulations, and APWA utility marking color codes.

## **4. Approach to Scope of Work**

## *Understanding of Project Requirements*

Venengroup Services, Inc. understands that the City of Hollywood operates a complex underground utility network supporting residential communities, commercial corridors, tourism infrastructure, healthcare facilities, and other critical public assets. These systems—including water, sewer, stormwater, reclaimed water, and related public utility infrastructure—require accurate identification to support routine maintenance, capital improvement projects, and emergency repairs while maintaining uninterrupted public service.

We recognize the City's regulatory obligations under Florida Statute Chapter 556 and the importance of consistent compliance, accurate documentation, and coordinated field execution to protect underground infrastructure and public safety.

---

## *Utility Locating Methodology*

Venengroup Services, Inc. employs a structured, repeatable locating methodology based on industry best practices and municipal standards. Each locate request is reviewed prior to field deployment to evaluate excavation limits, site conditions, utility records, and any known system complexities.

Our standard field procedures include:

- Verification of Sunshine 811 ticket information and excavation boundaries
- Review of available utility records, as-built drawings, and GIS data
- Selection of appropriate locating technologies based on field conditions
- Accurate marking of City-owned utilities in accordance with industry standards
- Clear identification of utility type, direction, offsets, and depth indicators when available

When excavation limits are unclear or site conditions are complex, meet requests are conducted with City staff, inspectors, or contractors to ensure mutual understanding and accurate utility marking.

---

## *Use of Technology*

Venengroup Services, Inc. utilizes a technology-driven approach to enhance accuracy, reduce risk, and improve documentation quality. Locating technologies are applied selectively based on site conditions to achieve the most reliable results.

Our technology resources include:

- Electromagnetic locating equipment for conductive utilities
- Ground Penetrating Radar (GPR) for non-conductive utilities, congested corridors, and areas with limited or incomplete records
- GPS mapping tools to enhance spatial accuracy and support documentation
- Mobile data collection devices for real-time ticket updates and field documentation

This multi-technology approach allows for cross-verification of utility locations and improves confidence in congested or high-risk areas.

---

### *Quality Assurance and Accuracy Verification*

Quality assurance is integrated into every stage of the locating process. Venegroup Services, Inc. implements verification procedures to confirm the accuracy and completeness of locate markings prior to ticket closure.

Quality control measures include:

- Verification of locate markings against utility records and field observations
- Use of secondary locating methods when site conditions warrant additional confirmation
- Review of digital documentation and photographs for completeness and accuracy
- Prompt corrective action when discrepancies are identified

This disciplined quality assurance process reduces errors, minimizes utility damages, and supports consistent, high-quality service delivery.

---

### *Coordination and Communication*

Effective coordination and communication are critical to successful utility locating operations. Venegroup Services, Inc. maintains clear, consistent communication with:

- City of Hollywood Public Utilities staff
- Public works inspectors and engineers
- Contractors and excavators
- Sunshine 811 / Call Before You Dig

All locate requests are managed through UtiliSphere, enabling real-time tracking, status updates, and communication throughout the ticket lifecycle. Our team responds promptly to clarification requests, field coordination needs, and site-specific inquiries to support efficient and safe excavation activities.

---

### *Response Time and Availability*

Venegroup Services, Inc. maintains sufficient staffing and equipment resources to meet or exceed the City's required response times. Our team of four (4) fully equipped, NULCA-certified utility locators provides consistent coverage throughout the City and supports concurrent service demands.

Our response capabilities include:

- Completion of standard locate requests within required timeframes
- Emergency locate response within two (2) hours
- Availability during evenings, weekends, and holidays as required

This operational capacity ensures reliable service during routine operations, peak demand periods, emergency repairs, and storm-related response efforts.

## **5. Product/Service Costs**

Venegroup Services, Inc. has developed its pricing structure to provide the City of Hollywood with competitive, transparent, and predictable costs while ensuring the highest standards of accuracy, safety, and service reliability.

Our pricing reflects the use of NULCA-certified personnel, advanced locating technologies such as Ground Penetrating Radar (GPR) and GPS mapping, and a fully equipped workforce capable of responding to both routine and emergency locate requests. This approach minimizes the risk of utility damages, project delays, and associated repair costs for the City.

The proposed pricing includes all labor, equipment, vehicles, technology, documentation, and administrative support necessary to perform the required services in full compliance with Florida Statute Chapter 556 and the City's operational requirements. No additional costs are required for standard documentation, ticket management, or reporting.

By maintaining a dedicated team of four (4) certified utility locators and utilizing integrated management systems such as UtiliSphere, Venegroup Services, Inc. is able to deliver reliable service levels, rapid response times, and accurate results while maintaining competitive pricing for the City.

Venegroup Services, Inc is committed to providing the City of Hollywood with best overall value, balancing cost efficiency with performance, accountability, and long-term infrastructure protection

See attached Pricing Proposal.

## **6. References & Past Performance**

Venegroup Services, Inc. has consistently received positive feedback from municipal and public-sector clients regarding the accuracy, responsiveness, communication, and reliability of our underground utility locating services. Our references include municipal governments, county agencies, and utility-related entities with operational requirements comparable to those of the City of Hollywood.

These agencies rely on Venegroup Services, Inc. to perform accurate utility locates within active urban environments, meet strict response time requirements, and coordinate effectively with multiple stakeholders including public works staff, contractors, engineers, and Sunshine 811. Our past performance reflects a strong record of accurate utility identification and consistently low utility damage incidence.

Through the use of NULCA-certified personnel, advanced locating technologies, and structured quality control procedures, Venegroup Services, Inc. has supported safe excavation practices and minimized disruptions to public infrastructure. Client feedback frequently cites confidence in our locate markings, including in congested utility corridors and areas with limited, incomplete, or outdated records.

References consistently note Venegroup Services, Inc.'s responsiveness, professionalism, and clear communication. Our ability to meet routine and emergency response timeframes, provide timely status updates, and resolve field conditions efficiently has resulted in long-term working relationships with many public-sector clients. Several referenced agencies have renewed contracts or maintained ongoing service agreements with Venegroup Services, Inc., demonstrating a high level of satisfaction and trust.

Venegroup Services, Inc. provides comprehensive documentation and reporting for all utility locating activities. Standard deliverables commonly include:

- Digital locate tickets with complete lifecycle tracking
- Timestamped photographic documentation linked to each locate request
- GPS-based mapping data when required
- Monthly activity reports summarizing completed locate activity

These records support transparency, audit readiness, and effective oversight by client agencies.

Our firm has demonstrated a consistent history of meeting contractual deadlines, maintaining required safety standards, and honoring service-level agreements. All work is performed in full compliance with Florida Statute Chapter 556, client-specific requirements, and applicable safety regulations. This commitment to compliance, accountability, and performance has established Venegroup Services, Inc. as a trusted underground utility locating partner for public agencies throughout the State of Florida.

## **7. Required Forms**

## ***Drug Free Workplace and Alcohol Policy***

Venegroup strives to provide a safe, productive environment for its associates and customers.

This includes a safe workplace, free of the problems associated with use and abuse of illegal drugs and unauthorized use of alcohol. Substance abuse subjects the company to unacceptable risks of workplace accidents, errors or other failures that would undermine the company's ability to operate effectively and efficiently.

Therefore, to maintain a drug-free workplace, the presence or use of illegal drugs or unauthorized alcohol use on company premises is not tolerated.

Venegroup strives to raise awareness about the dangers of substance abuse, to prevent any adverse consequences associated with substance abuse and to provide resources for treatment of abuse. Associates with substance abuse problems, including alcohol, are encouraged to seek assistance before it affects their performance or the performance of others.

### **Basic Policy**

The use or possession (including, for the purposes of this policy, the sale, purchase, transfer, transport, manufacture, distribution or dispensation) of illegal drugs by anyone on work time, on company premises, at work sites where associates may be assigned, while conducting company business or in a company vehicle is strictly prohibited. Illegal drug includes any substance that is not legally obtainable, any substance that may be legally available but has been illegally obtained or any substance that is being used in a manner or for a purpose other than as prescribed. Also prohibited is the use or possession of illegal drugs on nonworking time if use or possession could:

Affect an associate's safety on the job or ability to perform his or her job Interfere with job performance or safety of others

Affect the reputation of the company with the general public or threaten its integrity

Associates who engage in any prohibited conduct or who otherwise violate this policy (or are reasonably suspected of violating this policy) are subject to disciplinary action up to and including termination, in accordance with applicable law.

The company may take disciplinary action up to and including termination, in accordance with applicable law in any of the following situations:

If the use of any substance, including alcohol, affects or could affect an associate's job performance or safety, or is reasonably suspected of doing so, including while driving a company vehicle or while driving on company business, and/or If the use of any substance, including alcohol, interferes or could interfere with the job performance or safety of others, or is reasonably suspected of doing so.

## ***Drug Free Workplace and Alcohol Policy***

Also, when physician-prescribed drugs adversely affect an associate's job performance or safety, or the job performance or safety of others, it may be in the best interest of the associate, co-workers or the company that time off or other job arrangements be made, if possible. The company reserves the right to take any action deemed necessary to protect the safety and well-being of company associates, customers and others, in accordance with applicable law.

Associate assistance

Testing and inspections

As part of the company's commitment to provide a drug-free workplace, job applicants and associates may be subject to drug and alcohol testing, as well as inspections, searches and other actions deemed necessary to prevent the use of illegal drugs, misuse of legal substances or the unauthorized use of alcohol. Drug and alcohol testing will be conducted using scientifically valid methods and procedures permitted by applicable state and federal laws.

Failure to cooperate with the company's policy and/or its drug and alcohol testing program is grounds for disciplinary action up to and including termination or, in the case of job applicants, ineligibility for hire.

Notification of convictions

An associate must report any conviction of a drug-related offense to management no later than five days after the conviction. Failure to notify your management may result in disciplinary action up to and including termination.

Venegroup Services

Any sub-contractor shall supply such similar insurance required of the Contractor. Such certificates shall name the City as additional insured on the general liability and auto liability policies.

The Contractor shall furnish certificates of insurance to Risk Management for review and approval prior to the execution of this agreement. No failure to renew, material change or cancellation of, the insurance shall be effective without a 30-day prior written notice to and approval by the Owner.

#### Commercial General Liability

Prior to the commencement of work governed by this contract, the Contractor shall obtain General Liability Insurance. Coverage shall be maintained throughout the life of the contract and include, as a minimum:

- i. Premises Operations
- ii. Products and Completed Operations
- iii. Personal & Advertising Injury
- iv. Damages to rented premises

The minimum limits acceptable shall be:

\$1,000,000 Each Occurrence / \$2,000,000 General Aggregate

The City of Hollywood shall be named as an Additional Insured

The City of Hollywood must be the certificate holder per the following format:

City of Hollywood (Nothing else on this line)

Public Utilities (if applicable)

1715 N. 21st Ave

Hollywood, FL 33020

I understand and am responsible for the insurance requirements and corresponding due date as documented in this Bid.

Initial AG Date 1/15/25

Commercial Automobile Liability Insurance

Recognizing that the work governed by this contract requires the use of vehicles, the Contractor, prior to the commencement of work, shall obtain Vehicle Liability Insurance. Coverage shall be maintained throughout the life of the contract and include, as a minimum, liability coverage for:

Owned, Non-Owned, and Hired Vehicles

The minimum limits acceptable shall be:

\$300,000 Combined Single Limit

The City of Hollywood shall be named as Additional Insured in the Description of Operations Box.

The City of Hollywood must be the certificate holder per the following format:

City of Hollywood (Nothing else on this line)

Department Name & Room # (if applicable)

Department Address

Department Address

Workers' Compensation / Employers Liability

Prior to the commencement of work governed by this contract, the contractor shall obtain Workers' Compensation Insurance with limits sufficient to respond to the applicable State statutes.

In addition, the Contractor shall obtain Employers' Liability Insurance with limits of not less than:

\$500,000,		bodily		injury		by		accident
\$500,000	bodily		injury		by	disease,	each	employee
\$500,000	bodily		injury		by	disease,	policy	limit

I understand and am responsible for the insurance requirements and corresponding due date as documented in this Bid.

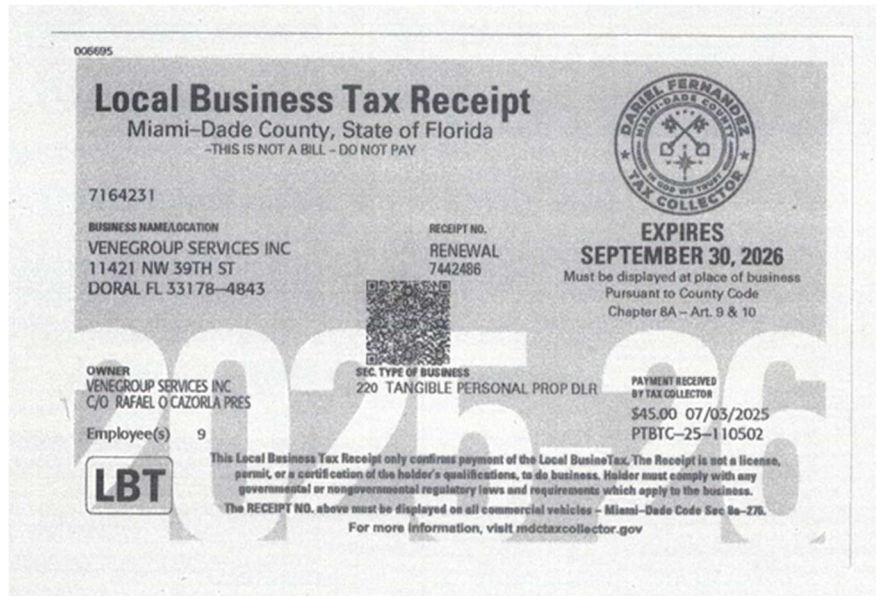

Initial RG Date 1/15/25

Additional Coverage(s)

**Please Note:** The Certificate shall contain a provision that coverage afforded under the policy will not be cancelled until at least thirty (30) days prior written notice has been given to the City. Certificates of insurance, reflecting evidence of the required insurance, shall be provided to the City. In the event the Certificate of Insurance provided indicates that the insurance shall terminate and lapse during the period of this Agreement, the vendor shall furnish, at least thirty (30) days prior to the expiration of the date of such insurance, a renewed Certificate of Insurance as proof that equal and like coverage for the balance of the period of the Agreement or extension thereunder is in effect.

The insurance policy shall not contain any exceptions that would exclude coverage for risks that can be directly or reasonably related to the scope of goods or services in this bid/proposal. A violation of this requirement at any time during the term, or any extension thereof shall be grounds for the immediate termination of any contract entered in to pursuant to this bid/proposal. In order to show that this requirement has been met, along with an insurance declaration sheet demonstrating the existence of a valid policy of insurance meeting the requirements of this bid/proposal, the successful proposer must submit a signed statement from insurance agency of record that the full policy contains no such exception. The City reserves the right to require additional insurance in order to meet the full value of the contract.
